NOTIFICATION.

The 26th July 1887 .- The following Notice to Mariners is published for general informatiou.

COLMAN MACAULAY, Secretary to the Govt. of Bengal.

GOVERNMENT OF BENGAL, FINANCIAL DEPARTMENT. NOTICE TO MARINERS-(No. 46).

CEYLON ISLAND.

SOUTH COAST.

Breaking adrift of the Gindurah and Whale Rocks buoys.

INFORMATION has been received from the Muster Attendant, Point-de-Galle, that the buoys marking the Gindurah and Whale rocks have broken from their moorings.

Note .- All vessels making for Point-de-Galle harbour from the westward and northward should bring the light-house on an E. by N. hearing, and thereby pass nearly two miles South of the Gindurah rock, and also clear of the Whale rock; southward of this bearing all

is clear. Vessels requiring a pilot should heave to with the light-house bearing from N. E. to N. N. E., distant about one mile.

By direction of the Government of Bengal,

ARTHUR W. STIFFE, Captain, 1.M., Port Officer of Calcutta.

PORT OFFICE, Calcutta, the 19th July 1887.

[Second Publication.]

NOTIFICATION.

The 26th July 1887.-The following Notice to Mariners is published for general information.

COLMAN MACAULAY, Secretary to the Govt. of Bengal.

GOVERNMENT OF BENGAL, FINANCIAL DEPARTMENT.

NOTICE TO MARINERS-(No. 47).

RED SEA-EAST SHORE.

Reported sunken rock, Northward of Jebel Zukur island. WITH reference to Notice to Mariners, No. 41, dated the 25th June 1887, information has been received from the Admiralty, London, that, pending further examination, Mariners are warned to pass to the westward of a line joining Centre Peak island, Zebayir islands, and

High island, Jebel Zukur.

Note.—An examination, made in April 1887, by H. M. Surveying vessel Flying Fish, of the vicinity of the rock reported by the Avocet, failed to show any sign of shoal water. The position of the rock the Teddington is reported to have struck falls at the outer limit of the area of this examination.

By direction of the Government of Bengal,

ARTHUR W. STIFFE, Captain, 1.M.,

Port Officer of Calcutta.

PORT OFFICE, Calcutta, the 22nd July 1887.

GOVERNMENT OF BENGAL, FINANCIAL DEPARTMENT.

NOTICE TO MARINERS-(No. 48).

RED SEA-EAST SHORE.

STRAITS OF BAB-EL-MANDEB. PERIM HARBOUR ENTRANCE.

Alteration in Buoyage.

With reference to Notice to Mariners, No. 26, of the 25th May 1887, further particulars have been received from the Admiralty, London, that the following alterations have been made in the character of the buoys in Perim harbour entrance:—

1. Piric Point buoy (port hand on entering) has been replaced by a buoy lighted by gas; the light is a fixed white light. This light-buoy, conical in shape, and painted lower part red, upper part white, lies with Piric Point light, bearing N. 51° W., distant 10 ths

· of a cable.

2. Lee Point buoy (sturboard hand on entering) has been replaced by a buoy lighted by gas; the light is a fixed white light. This light-buoy, in shape a truncated cone, is painted lower part red, upper part white, and lies with Pirie Point bearing N. 60° W., distant nearly  $4_{10}^{2}$  this cables.

The bearings are magnetic. Variation 41° westerly in 1887.

By direction of the Government of Bengal,

ARTHUR W. STIFFE, Captain, I.M.,

Port Officer of Calculta.

PORT OFFICE, Calcutta, the 22nd July 1887.

NOTICE TO MARINERS-(No. 49).

GULF OF ADEN.

GULF OF TEJUREH—NORTH SHORE.

PORT OF OBOKH.

Particulars of lights.

WITH reference to Notice to Mariners, No. 27, of the 10th May 1886, on the interpretation of a red light at Obokh, North shore of gulf of Tejureh, the Admiralty, I has given further information that the light is exhibited:—

1. The light is a fixed red light elevated 174 feet above the sea, and should conin clear weather from a distance of about 10 miles. The light-house, 34 feet ipes on structed of iron, on a base of masonry 8 feet in height, is painted white, with and South its South side. It is situated with Single tree bearing S. 56° E., distant 84 island beacon S. 1° W.

Position, latitude 11° 58′ 30"N.; longitude 43° 16′ 50"E.

2. Also, that a fixed red light would be exhibited about 15th May 1887, from a tower, 39 feet high, situated in the centre of the Penitentiary enclosure (formerly factory) with the following bearing and distance:—

South island beacon ... S. 7° W.; distant 11\frac{1}{3} cables.

Note.—This light, in line with the principal light abovementioned (distant about 780 yards), hearing N. 17° W., leads into South port entrance.

3. Also, that a light will be exhibited from a light-house ercoted about 110 yards

N. 16 W. from cape Obokh.

The light will be a fixed green light, elevated 64 feet above high-water, showing red inrough a sector of 14°,, or from the hearings of N. 89° W. to N. 75° W. The light-house, 34 feet high, is an iron column, painted in alternate white and black bands.

The bearings are magnetic. Variation 44° westerly in 1887.

By direction of the Government of Bengal,

ARTHUR W. STIFFE, Captain, I.M.,
Port Officer of Calcutta.

## ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

## MUNICIPAL AND LOCAL.

## NOTIFICATION.

The 29th July 1887.—It is hereby notified that, under section 27, Act III (B.C.) of 1884, the Lieutenant-Governor is pleased to appoint Dr. B. Gupta to be a Commissioner of the Krishnangar Municipality, in the district of Nuddea, vice Dr. P. C. Singha, transferred.

COLMAN MACAULAY, Secretary to the Govt. of Bengal,

#### NOTIFICATION.

The 30th July 1887.—It is hereby notified for general information that the Lieutenant-Governor intends, in the exercise of the power conferred on him by section 3, Act IV (B.C.) of 1865 (an Act for the prohibition of the practice of Inoculation), to extend

Perozepere. Mothari.

4. Golachipa. 5. Goolsakhuli. 6. Patuakhali. Bhandaria. 6. 1

the provisions of the above Act to the thanas named in the margin, situated in the district of Backergunge, unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the places

to be affected by these orders.

COLMAN MACAULAY, Secretary to the Guvt. of Bengal.

#### NOTIFICATION.

The 1st August 1887.—It is hereby notified that, under section 27, Act III (B.C.) of 1884, the Licutenant-Governor is pleased to appoint Baboo Prosonno Nath Chowdry to be a Commissioner of the Sherepore Municipality, in the district of Bogra, vice Bahoo Mohesh Narain Munshee, who has ceased to be a Commissioner under acction 20 of the Act.

COLMAN MACAULAY, Secretary to the Govt. of Bengal.

#### NOTIFICATION.

The 2nd August 1887.—Whereas a notification, dated the 3rd May 1887, was published at page 138, Part IB of the Calcutta Gasette of the 4th idem, declaring the intention of the Lieutenant-Governor to revise the boundaries of the Perozepore Municipality, in the district of Backergunge, and whereas no objection has been raised to the proposal within six weeks from the date of the publication of the notification within the Municipality, it is hereby notified for general information that, in accordance with the recommendation of the Commissioners of the Perozepore Municipality, made at a meeting, and in exercise of the power conferred on him by section 9 of Act III (B.C.) of 1884, the Lieutenant-Governor sanctions the revision of the boundaries of the said Municipality. The revised boundaries of the Municipality will be as follows:-

North.—Mulgram khal from Lakharkati Done to where it meets the southern boundary of village Panthadubi, the southern boundary line of Pantha-

dubi and the Kadamtola khal.

South.—The villages of Nemazpore, Khankati, and Sareektola.

East.—Damortola village, the rivers Damoodar and Kaligunge.

West.—Nemoor Bharani khal, chur Kadamtola and river Balessar.

COLMAN MACAULAY, Secretary to the Govt. of Bengal.

#### NOTIFICATION.

The 2nd August 1887.—It is hereby notified that the following gentlemen have been elected, under section 7 of Act III (B.C.) of 1885, to be members of the Sarun District Board:—

```
Local Board by
which elected.
                                     Names of members.

## NOTICE.

It is hereby notified, for general information, that subscriptions to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions for the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

## H. A. D. PHILLIPS,

Under-Secy. to the Govt. of Bengal.

The 24th November 1886.

The following revised advertisement is published in substitution of that which appeared at page 1084, Part II of the Calcutta Gazette of the 9th July 1884:—

## The Indian Law Reports,

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutts. Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series reported in the Calcutta Series

The Calcutta Series is distributed by the Bengal Secretariat; the copies for subscribers registered by Messrs. Thacker, Spirk & Co., are distributed by that firm; and the Madras, Bombay, and Allahabad Scries are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the lat January 1885, the terms of subscription and sale will be as follows:—

Forms of subscription payable annually in advance. For the complete series, including postage, Rs. 22-8.

Without postage. With postage.

For the Calcutta Series ... , Rs. 10 0 Rs. 12 8 " each of the Madras, Bombay, and Alla-6 0 7 () habad Series " a part of the Calcutta Series purchased separately (inclusive 2 0 of postage in India) a part of oach of the Madras, Bombay, and Allahahad Series purchased separately (inclusive of postage in India) ... 1 0

l'ersons desiring to subscribe for or purchase the Reports should apply to-

Messrs. Thacker, Spink & Co., Calcutta.
Thacker & Co., Bombay.

Higginbotham & Co., Madras.

Ine Government Central Book Depôt, Bombay. Curator of Government Books, North-Western Provinces and Oudh.

#### DISTRICT ROAD FUND.

No. 2220R C.

GOVERNMENT OF BENGAL-PUBLIC WORKS DEPARTMENT.

GENERAL-ROAD CESS.

Dated Calcutta, the 23rd July 1887.

#### READ-

Letter from the Accountant-General, Bengal, No. 384L.F., dated the 16th July 1887, submitting an abstract of the receipts and expenditure of the several District Road Committees in Bengal for the quarter ending the 31st March 1887.

#### RESOLUTION.

The Lieutenant-Governor directs that the accounts of the receipts and expenditure of the several District Road Committees for the second quarter of the cess year 1886-87 be published in the Calcutta Gazette and circulated to the officers concerned.

ORDER.—Ordered that a copy of this Resolution, together with a copy of the abstract of receipts and expenditure, be published in the Supplement to the Calcutta Gazette.

Ordered also that a copy of this Resolution, and of the abstract referred to, be forwarded to all Commissioners of Divisions, to all Superintending Engineers of Public Works Circles in Bengal, and to the Financial Department of this Government, for information.

By order of the Lieutenant-Governor of Bengal;

W. B. BESTIC.

Under-Secy. to the Govt. of Bengal,

P. W. Dept. . .

## Rainfali, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different districts of Benyal, as reported to Government during the week ending the 30th July 1887.

ĸ	٥.	District and date of return.	Rainfall at Sudder station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BRI	NGAT	Western Districts.		
i	1	Burdwan, July 30, '8' Culus Cutwa	5.17	Weather—seasonable. State and prospects of crops good. Common rice about 20 seers per rupes. Cholera abated and public health fair. Two onthreaks of cattle-pox.
DIVE.	2	Ranecgunge Bankoora 30, '8 Bishenpore		Weather—seasonable. Rainfall general. More rain is wanted in thanss Inclus and Kotalpar. Transplantation of amus rice is going on. Bhadoi plants are getting up well. Prospects of sugarcane, biri kalai, arhar and til are good. Prices remaio unchanged. Public health good.
BURDWAN	3	Beerhanom , 30, ,, Rampore Haut	2·93 1·82	Weather—nesettled. Talerably cool with high winds and frequent showers.  Rainfall has proved very opportune for the puddy crop; transplantation is new nearly complete. Sugarcane is thriving. Prices are steadily rising.  Public health not good
	4	Widnepore ,, 30 '8		Weather-seasonable. Btate and prospects of crops excollent
1	5	Hooghly ,, 30, ,, Serampur Jehanabad	2·66 2·76 2·03	Weather—hutter and drier than usual. Enough rain has fallon for present wants except in parts of the Jehanahad sub-division, where more is wanted for transplanting rice. Aus is doing well. Public health good for the time of the year.
		Howrsh ,, 30, ,, Oolooberiah	1·61 2·59	Wosther—showery and not opposessive. Plunghing and transplanting of paddy active. Crops looking most satisfactory. No jute cut yet.
	:	Central Hatricts.		A control of the cont
1	_	24-Perghs., July 80, '8		Weather—seasonable with occasional showers. Prospects of crops continue actisfactory. Transplantation going on. Public health generally good.
DIVN.	7	Nuddek ,, 30, ,, Kushtea Meherpur Chuadanga	1.17	Weather-inore rain and somewhat cooler Rice crops promise well. Rain lass done some good. Indigo not good except on churs. Jute and sugarcane doing well. Public health good.
<u>.</u>	8	Khuotus ,, 30 '8	Nil 2.89	Weather-cloudy with some rain. Aus paulty on high lands ripening. Culti-
PRESIDENCE	9	Jennore ,, 30, ,,	1.56	vation of amus continues. Public health good.  Weather—hot and cloudy with occasional showers. More rain is wanted, without which the paddy crops will suffer, and no progress can be made by
PRE		Magurah Narail	2.34	the cultivators in transplanting the amus paddy.
1	10	Moorshedahad ,, 30 '8 Lalbagh Kandi	7 2·19 2·41 1·00	Weather-very hot. Rain at intervals. Transplanting of amus paddy gaing on. It, sugarcane and jute progressing. Public health good.
:	11	Jungipur . Dinagerate ,, 30, '8 Thakurgaou .		Light showers and hat sun. Rainfall has not been sufficiently general. More rain is wanted for bhados rice, and especially for transplanting of winter rice.
		Rajahahyo "30, 18 Nattore . Rungpore "30, "	1.50	Weather -showery throughout the week. Cutting of our puddy has commonced. Prospects of crops genurally good. Public health fair.  Recent rain has enabled planting of amen to be resumed. More rain is
DIEN		Kurigram Nilphaniari	0·21 1·41	required. Public boulth good. Prices stationary.  Weather—dry during first part of week. Sessonable rain during last two days
RAJEHAHYE	14	Bogra " 30, '8 Sherpur Nowkhills	0.51	has done much good to crops. Transplantation of aman going on actively.  Prospect of standing crops far, but more rain wanted. Public health fair.
RAJ	15	Pubus 30, '8	7 1·59 0·99	Occasional showers. More rain wanted. State of crops good. Rivers falling.  Public health good.
	16	Ferajgunge 30, '8		Weather -fine. State and prospects of crops fair.
	17	Juipigoree , 30 ,	1.43	Weather—but and for the time of year very dry; occasional heavy showers, but of short continuance. Unusually short rainfall this mouth has injured all kinds of cultivation. Only in the sub-division bhadoi is reported fair; clsewhere indifferent. Jute is said to be a poor crop. Transplantation of hadmanti paduy much retarded for want of good rain. Public health fair.
		Eastern Districts.		
У.	18	Dacca, July 30, '8 Manickgunge	0.75	Weather—cloudy and rainy. Harvesting of jute and early rice going on.  Boschia paddy is being sown. Prospects of sman good. Some and has been lost by the rivers rising too rapidly. Public bealth good.
1610	1	Naraingunge .	1.65	
Dir	19	Farrendpore ,, 30, '8	4.12	Weather—seasonable. Good rain during the week, but mure still wanted, Prospects of crops satisfactory. Public health good.
. <b>4</b> 7		Madaripore	2.21	
PACCA DIVISION.	20		7 1.57	Weather—hot and rainy. Cultivation of amus crop still going on. Ans paddy slightly injured by salt-water and lusects. General health good.  Weather—hot with occasional showers. River continues falling. Prospects of
	\ 21	Mymensingh ,, 29, '8	0.72	crops fair.

replanation.— "educates that no rain has laben. If the return for any day has not been required, the corresponding space is left blank. If any of the returns anting, the corresponding spaces in the total rainfall columns are left blank.

CALCUTTA, the 26th July 1887,

SUMMARY OF THE RAINFALL AND METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE WEEK ENDING FRIDAY, THE 29TH OF JULY 1887.

At the close of the previous week a small harometric depression, accompanied by cyclonic circulation of winds, was situated in the north-west angle of the Bay. This small depression, which had formed on the 19th, had remained almost stationary for some days, except for a slight shifting of the centre from day to day, and on the 22nd the centre of the wind circulation was between Balasore and False Point. On the 23rd pressure had fallen over the whole province, the fall being largest in the north-west angle of the Bay, and the small barometric depression which existed over this area decidedly intensified. The lowest pressure reported on this day was 29.513" at Balasore, and the centre of the depression appeared to be between this station and False Point. A very distinct cyclonic circulation of winds accompanied the very feeble storm, but wind velocities in connection with it were small. On Sunday, the 24th, pressure again fell generally over the province, the fall being very rapid in the north-west angle of the Bay, where at Saugor Island it amounted to 0.151". This was produced by the further intensification of the depression, the centre of which on this day was decidedly nearer to the land and to Saugor Island than it was on the previous day, and on this date the centre appeared to be almost equi-distant between Saugor Island and Balasore. Pressure at Saugor Island at 10 a.m. on the 24th was 29.891", and at Balasore 29.409". Winds again showed a very complete cyclonic circulation round the depression, and practically this circulation affected the wind directions at all the stations in the province. Wind velocities in the neighbourhood of the disturbance, however, continued moderate only, though undoubtedly the weather over the sea area at the head of the Bay was decidedly squally. On this day the depression appears to have commenced to move in a north-westerly direction, and at 10 a.m. of the 25th it was in the extreme west of South-West Bengal, and passing into the south of Chutia Nagpur. On the morning of th

During the whole period of the existence of the feeble storm, the winds blowing in connection with it were very light. There was, however, the usual indraught towards the storm, and thus the rainfall bearing current was deflected towards the depression, and the greater part of the province received only local showers during the existence of the storm at the head of the Bay, though the area in immediate proximity to the storm received more general and heavier rain. Directly, however, the feeble storm had passed inland, the monsoon current blowing from the Bay of Bengal commenced to increase in strength and to pass over the land, and on the 28th the wind velocity had strengthened at Saugor Island from 15 miles an hour on the 26th and 27th to 20 miles an hour on the 28th, while for the 24 hours ending 10 a.m. of the 29th the velocity had averaged 27 miles an hour. For the last two or three days of the week therefore the monsoon current blowing over the province was decidedly strong, and rainfall became general and in many cases heavy on the 27th, 28th and 29th. The weather conditions at the close of the week were in fact decidedly favourable for the continuance of rainfall in Bengal.

Pressure.—The distribution of pressure has again been largely modified by the existence and passage of the depression described above. Pressure has been decidedly below the normal at almost all the stations in the province, but the defect has of course been greatest at the stations affected by the depression. Thus taking into consideration only those stations from which observations have been received for a series of years, and at which therefore accurate average pressures have been obtained, the variations from the normal are from a defect of 0.069 inch at Calcutta and one of 0.059 inch at Saugor Island to one of 0.005 inch at Purneah and 0.007 inch at Sibsagar.

Temperature.—The variations of temperature during the week have to a great extent been dependent on the distribution of the rainfall. For the week, the average temperature has been distinctly in excess of the normal, the excess being largest in Behar. In North Behar the mean temperature for the week has been 1.8° in excess of the normal, and in South Behar the excess has been 1.5°. In North and East Bengal and Orissa temperature has also been in excess of the normal, but by small amounts, while in Chutia Nagpur it has been normal and in South-West Bengal slightly below it. For the whole province, Assam excluded, the mean temperature for the week has been 0.6° in excess of the normal. In Assam temperature has also been in excess of the normal by 1.3°.

Rainfall.—The causes affecting the distribution of the rainfall have already been referred to under the meteorology of the week. Rainfall has consequently been fairly heavy in all districts except North Behar and North Bengal. Thus in East Bengal, Orissa and Chutia Nagpur the falls have averaged between three and four inches, and in South-West Bengal and South Behar between two and a half and three inches. In North Bengal an average fall of only two inches has been received, and in South Behar only a fall of an inch. The actual average falls for the week in each of the seven meteorological districts expressed as a

percentage of the normal falls for the period will be:—Orissa 103 per cent., South-West Bengal 93 per cent., East Bengal 93 per cent., North Bengal 74 per cent., North Behar 35 per cent., South Behar 70 per cent. and Chutia Nagpur 85 per cent. Or taking each of these divisions to have an equal value in the calculation, the rainfall of the province for the week has equalled 79 per cent. of the normal.

In Assam rainfall has also been decidedly light and rather deficient during the week: thus Dhubri has received only 0.69 inch, Siichar only 0.81 inch, and Sibsagar, which has

received heavier rain, only 2 42 inches.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the week ending Friday, the 29th of July 1887:—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteofological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

The total fall from 1st January to 30th July 1887

o overcast, g gloomy, d drizzling rain, p passing temporary showers, t thunder, a dew.

The average fall of the corresponding period for 24 years, S. G.'s Office ..

The average fall of the corresponding period for 24 years, S. G.'s Office ..

SUPPLEMENT TO THE CALCUTTA GAZETTE, AUGUST 3, 1887. 1356

## MEMORANDUM.

THE principal results to be gathered from the mortuary statistics of the districts in Bongal for the month of February 1887, as exhibited in the table annexed to this memo-

randum, are the following:-

That the deaths of 101,811 persons were registered out of a population of 66,163,884 in these districts, or at the rate of 18.36 per 1,000 per annum, against 26.88 per 1,000 in the preceding month, and 17.04 per 1,000 in the corresponding month of 1886,

indicating, as compared with the latter period, much improvement in the record of the deaths. That the undermentioned districts returned the highest proportions of the events:-

The 1st August 1887.

Deputy Surgeon-General, Sanitary Commissioner for Bengal.

R. LIDDERDALE, M.D.,

#### MEMORANDUM.

THE chief incidents in connection with the vital statistics of the principal Municipalities

in Bengal, for the week ending 16th July 1887, are the following:

1. That births were registered in the above Municipalities at the rate of 16.5 per 1,000 of population as opposed to very nearly the same proportion, viz. 16.9 per 1,000, in the preceding week ending 9th July, and deaths at 28 against 24.5 per 1,000, showing a considerable improvement in the registration of the casualties.

2. That these events were returned in the highest proportions from the following

The Lieutenant-Governor proposes also to visit Sasseram, Buxar, Arrah, Gya, and Rampore Beauleah, but details regarding this portion of the Tour are not yet complete.

The 25th July 1887.—The following instructions are notified for the guidance of officers corresponding directly with the Government of Bengal, in the Judicial, Political and Appointment Departments, during the time His Honour the Lieutenant-Governor is away from the Presidency on tour:-

As a general rule, all communications should be sent, as usual, to the Secretariat at Calcutta; but communications which are urgent, and which can be made complete in themselves, so as not to require reference to papers at the Presidency, may be sent direct to the Chief Secretary to the Government of Bengal with the Lieutenant-Governor on tour J. WARE EDGAR,

Offy. Chief Secy. to the Govt. of Bengal.

#### No. 3305A. GENERAL.—The 27th July 1887.—In modification of the order of the 13th ultimo,

Mr. A. Forbes, Officiating Magistrate and Collector, 24-Pergunnahs, is allowed leave for three

months, under section 72 of the Civil Leave Code, with effect from the 15th August 1887.

The 2nd August 1887.—Mr. J. T. Jarbo, Temporary Deputy, Magistrate and Deputy Collector, Nelphamari, Rungpore, is transferred to Hazaribagh, and is appointed to have charge of the Giridhi sub-division of that district, during the absence. on deputation, of Mr. D. J. Macpherson, or until further orders. Mr. N. Warde-Jones, Deputy Magistrate and Deputy Collector, on leave, is appointed

to have charge of the Nelphamari sub-division, in the district of Rungpore. This cancels the order of the 28th July 1887, appointing Mr. N. Wardc-Jones to have

charge of the Gindhi sub-division in the district of Hazaribagh.

The 4th August 1887 .- Mr. A. L. McGavin, Officiating Deputy Magistrate and Deputy Collector, Serajgunge, Puhna, is appointed temporarily to be a Deputy Magistrate and

Deputy Collector of the seventh grade. The 5th August 1887 .- The services of Babon Nundjee, Deputy Magistrate and Deputy Collector, Noakholly, are placed at the disposal of the Revenue Department of this

Government for employment on the survey and record of rights in the Doobulhati estate in the district of Rajshahye. Mr. J. L. Herald, Officiating Joint-Magistrate and Deputy Collector, Baraset, 24-Pergunnahs, was employed temporarily at the Sudder station of the Chittagong Hill

Tracts district from the afternoon of the 23rd November 1886 to the forenoon of the 1st March 1887. Mr. A. P. Pennell, Assistant Magistrate and Collector, Naraingunge, Dacca, is vested

with the powers of a Deputy Collector. Mr. A. E. Staley, c.s., has been granted by Her Majesty's Secretary of State for India

an extension of furlough for twelve months.

Moulvie Sujat Ali Ahmed, Sub-Deputy Collector, Tumlook, is allowed leave for three months, under section 72 of the Civil Leave Code, with effect from the date on which he

may avail himself of it. Baboo Horo Chunder Ghose, Temporary Sub-Deputy Collector, Honghly, is transferred temporarily to Tumlook, during the abscuce, on leave, of Monlvio Sujat Ali Ahmed,

or until further orders. Baboo Mohini Mohun Chuckerbutty, Deputy Magistrate and Deputy Collector, Jessore,

is allowed leave for three weeks, under section 72 of the Civil Leave Code, with effect from the date on which he may avail himself of it.

The 8th August 1887.—Mr. C. Cuthbertson, Assistant Magistrate and Collector, Tipperah, is transfered to the Sudder station of the district of Dacca.

The 9th August 1887 .- Mr. J. C. Lloyd, Sub-Deputy Collector, Pubna, is transferred to Rungpore, with effect from the afternoon of the 2nd June 1887.

Baboo Sitanath Mookerjee, Sub-Deputy Collector, Rungpore, is transferred to Pubna, with effect from the date on which he joined that district.

Mr. N. S. Alexander, Commissioner, Burdwan Division, is allowed leave for one month and nineteen days, under section 72 of the Civil Leave Cole, with effect from the 16th

instant. Mr. E. V. Westmacott, Magistrate and Deputy Collector, Howrah, is appointed to act as Commissioner, Burdwan Division, during the absence, on leave, of Mr. N. S.

Alexander, or until further orders. Mr. N. Warde-Jones, Deputy Magistrate and Deputy Collector, is allowed leave for one week, under section 72 of the Civil Leave Code, in extension of the leave granted to him under the order of the 19th April last.

Moulvie Shah Mahomed Azam, Temporary Sub-Deputy Collector, Purneah, is allowed

leave from the 15th instant, or any subsequent date, up to the 14th November 1887, under section 72 of the Civil Leave Cone.

Police.—The 5th August 1887.—Mr. W. W. Daly, Officiating District Superintendent of Police, Howish, on leave, is appointed to act, until further orders, in the first grade of District Superintendents of Police, with effect from the 23rd May 1887. Mr. J. C. Stack, Assistant Superintendent of Police, Mymensingh, is allowed leave or one month, under section 72 of the Civil Leave Code, with effect from the 15th instant, or such subsequent date as he may avail himself of it.

REGISTRATION-The 5th August 1887.-Moulvie Abdus Salem, Special Sub-Registrar of Chittagong, is transferred to Noakholiy.

Baboo Kedar Nath Mukerjee, Special Sub-Registrar of Noakholly, is transferred to Chittagong.

EDUCATION .- The 9th August 1887 .- Mr. E. F. Mondy, Professor in the Government Engineering College, Seebpore, is appointed to be Professor in the Rajshahye College, with

effect from the 19th October 1887. Mr. P. Brühl, Lecturer in the Rajshahye College, is appointed to be Lecturer in the

Government Engineering College, Seehpore, with effect from the 19th October 1887.

Mr. J. Willson, Inspector of Schools, Assam, is appointed to act, until further orders,

in class II of the Bengal Educational Service, with effect from the 7th May 1887, vice Dr. C. A. Martin.

Mr. S. Robson, Professor, Hooghly College, is appointed to act, until further orders, in class III of the Bengal Educational Service, with effect from the 7th May 1887, vice

Mr. J. Willson. MEDICAL .- The 2nd August 1887 .- Surgeon-Major Bankabehari Gupta, Officiating

Civil Surgeon of Nuddea, is allowed leave for three months, under section 72 of the Civil Leave Code, from such date as he may avail himself of it. Assistant Surgeon Nil Kanta Chatterjea, of the Krishnaghur Dispensary, is appointed to have charge of the civil station of Nuddea in addition to his own duties, during the

absence, on deputation, of Surgeon-Major E. G. Russell, or until further orders. The 6th August 1×87.—Baboo Aghore Chunder Chukerbutty, Inspector of Licensed Vaccinators, Darjeeling Circle, is appointed to be a Deputy Superintendent of Vaccination and Deputy Sanitary Commissioner of the Ranchi Circle, with effect from the date he joins his new appointment.

No. 261.—The 23rd July 1837.—Mr. E. A. Gait, c.s., Assistant Commissioner, is appointed to officiate as Deputy Commissioner, Darrang, during the absence, on privilege leave, of Colonel A. E. Campbell.

The following are republished from the Assam Gazette-

reported efficient in practical work by their superior officers."

No. 265.—The 27th July 1887.—In consequence of the return from furlough of Captain H. St. P. Maxwell, and his appointment to officiate as Deputy Commissioner, second grade, Mr. A. J. Primrose, c.s., Assistant Commissioner, first grade, officiates as Deputy Com-

missioner, third grade, with effect from the 19th July 18×7. No. 266.—In consequence of the departure, on privilege leave, of Mr. H. C. Williams, c.s., Deputy Commissioner, second grade, and Inspector-General of Police and Jails, Mr. A J. Primrose, Officiating Deputy Commissioner, third grade, is appointed to officiate

J. WARR EDGAR,

as Deputy Commissioner, second grade, with effect from the 19th July 1887. Offg. Chief Secy. to the Govt. of Bengal.

The 4th August 1887.—The following rule regarding the Departmental Examinations of candidates who pass the examination for admission into the Police Department is pubhahed for general information :-

NOTIFICATION.

(Page 6, paragraph 5a).—" Candidates who peas the examinations for admission into the Police Department may appear at the Half-yearly Departmental Examinations of Police Officers in Law and Bengali before obtaining appointments. If they get pass-marks at these examinations, they will not be considered to have passed fully until they have been

> J. WARE EDGAR, Offg. Chief Secy to the Govt. of Bengal.

#### NOTIFICATION. The 9th August 1887 .- It is hereby notified for general information that the next

Regulation and Non-Regulation Districts, and of officers in the Police, Jails, Medical, Forest, and Opium Departments, will be held on Monday, the 7th November 1887, and tollowing days. J. WARE EDGAR,

Half-yearly Departmental Examination of Assistants and Deputy Magistrates in the

Offg. Chief Secy, to the Govt. of bengal.

NOTIFICATION. The 8th August 1887 .- Under the provisions of section 108 of the Bengal Tenancy Act VIII of 1885, the Lieutenant-Governor is pleased to appoint the Subordinate Judge of Dinagepore to be the Special Judge for the purpose of hearing appeals from the decisions of

the Revenue Officers employed in conducting the survey and record of rights in the Sunkerpore and Chooramon wards' cutates in the district of Dinagepore W. C. MACPHERSON, Offy. Sery, to the Govt. of Bengal.

The 4th August 1887.—The following arrangements for weather signals for the approaches to the Port of Calcutta, and for the port itself, have been sanctioned by the Lieutenant-Governor, and are published for general information, in supersession of those published in the notification, dated the 5th August 1882, at pages 678-80 of the Calcutta Gazette of the 9th August 1882 :-

Weather Signals for the approaches to the Port of Calcutta, and for the Port of Calcutta.

When a severe oyclonic storm (probably accompanied by a storm-wave) is believed to be advancing to the Bengal coast and across Bengal, one or other of the following signals will be hoisted at the flagstaff near the Light-house in Sauger Island, at the flagstaff near the telegraph office, Mud Point, and at the flagstaff near the telegraph office, Diamond Harbour, and also at the following positions in the Port, viz, the flagstaff upon the Port Commissioners' office, on a flagstaff at Shalimar Point, Seebpore, opposite the Government Dockyard, Kidderporo, and on a flagstaff at the telegraph office, Budge-Budge, on receipt of instructions telegraphed by the Meteorological Reporter to the Government of Bengal:-

determined.

Day signal No. 1, bad weather preparatory signal.

Day signal No. 2, danger signal.

Day signal No. 3, danger signal.

Day signal No. 4, great danger signal.

A ball indicates the existence of a oyclonic storm of undetermined intonsity and magnitude in the Bay of Bengal, which will oither certainly cross the coast to the south of a line between Chittagong and False Point, or which may approach the Bengal coast, but is as yet too far distant to enable its line of advance to be

A cone indicates the early probable passage northward, to the eastward of Saugor Island and west of Chittagong, of the vortex of a cyclonic storm of groat intensity and mag-It is advisable that sailing vessels, nitude. with or without steam, and deep-laden or slow steaming steam-vessels, should not proceed to sea, but remain in the river till the storm has reached the coast and passed inland. The wind at the mouth of the Hooghly will probably haul from north-east through north to northwest, &c.

passage northward, to the west of Sangor Island and north of False Point, of the vortex of a cyclonic storm of great intensity and magnitude. No vessels should go to sea, and masters and pilots of vessels outward-bound about the second of t should be guided by the appearance of the weather and height of the barometer in deciding whother it is advisable to proceed below Diamond Harbour or Mud Point. The wind at the mouth of the Hooghly will probably veer from north-east through east to south-oast, &c.

An inverted cone indicates the early probable

.A drum indicates the approach of a cyclonic storm of great intensity and magnitude to the mouth of the Hooghly, and which will probably advance to Calcutta. Masters and pilots in charge of vessels are cautioned not to put to sea from Saugor Island, or to proceed down from Diamond Harbour, and they should make their vessels as snug and secure as The Masters of vessels in the port should take the special precautions for safety haid down in the Port Rules.

There will probably be a storm-wave, but it should be carefully remembered that its height and destructive offect will depend quite as much upon the state and character of the tide when the cyclonic centre reaches the coast, as upon the depression at the centre, or the intensity and extent of the storm.

When a small cyclonic storm (usually not accompanied by a storm-wave) is believed to have formed in the Bay, and to be advancing towards the coast, one or other of the following signals will be hoisted, for the information of pilots and mariners, at the staff near the lighthouse at Saugor Island, at the flagstaff at Mud Point, and at the flagstaff near the telegraph office, Diamond Harbour, and also at the following stations in the Port, viz., on a flagstaff upon the Port Commissioners' Office, on a flagstaff at Shalimar Point, Seebpore, and on a flagstaff at the telegraph office, Budge-Budge, on the receipt of instructions telegraphed from the Meteorological Office, Calcutta, by the Meteorological Reporter to the Government of Bengal:—

Day signal No. 5, bad weather signal.

Day signal No. 6, warning signal.

Day signal No. 7, warning signal.

Day signal No. 8, warning signal.

Day signal No. 9, danger signal.

Two cones, the upper one inverted, indicate the existence of a cyclonic storm of small extent in the Bay of Bengal, which will probably reach and cross the coast of the Bay south of a line joining Chittagong and False Point.

Two cones, the lower one inverted, indicate the existence of a cyclonic storm of small extent, which will probably or certainly reach and cross the coast of the Bay north of a line joining Chittagong and False Point, but the probable path of the vortex of which cannot be determined more exactly from the land observations.

A ball below a cone indicates the probable passage northwards, to the east of Saugor Island and west of Chittagong, of a cyclonic storm of small extent and intensity, of the kind which usually forms in the rainy season. Vessels may proceed to sea if the height of the barometer, state of the sea and weather are such as to lead masters and pilots to infer that there is no danger. The wind at the mouth of the Hooghly will probably haul from north-east through north to north west &c.

A bail below an inverted cone indicates the probable passage northwards, to the west of Saugor Island and north of False Point, of a cyclonic storm of small extent and intensity of the kind which usually forms in the rainy season. The wind at the mouth of the Hooghly will probably veor from north-east through east to south-east, &c. As these easterly winds will raise a heavy swell and produce a strong westerly set in the channel at the Sandheads, it is advisable that none but fast steamers in light trim should put to sea, and those only if the weather appearances and state of the sea, &c., are not too unfavourable.

A ball below a drum indicates the approach towards Saugor roads of a cyclonic vortex of small extent, of the kind which forms during the rainy reason. It is advisable that no vossels except fast steamers in light trim should put to sea until the wind direction and force, the state of weather and sea, and the rise of the barometer, indicate that the storm has either broken up or passed inland. Cyclonic storms in the Bay of Bengal of small extent, it should be remembered, sometimes blow with hurricane force and raise a high sea near their centres.

3. The following storm warning signals will be hoisted during the prevalence of cyclonic storms in the Bay of Bengal at the signalling stations on the Hooghly previously mentioned, viz., Saugor Island, Mud Point, and Diamond Harbour, and at the following signalling stations in the Port:—viz., on a flagstaff upon the Port Commissioners' Office, on a flagstaff at

Shalimar Point, Seebpore, and on a flagstaff at the telegraph office, Budge-Budge, between sunset and sunrise:

Night signal No. 10, warning or caution signal.

Three lights exhibited on the flagstaff at equal distances indicate the existence of a cyclonic storm in the north of the Bay.

Night signal No. 11, danger signal.

Two lights, in a vertical line, indicate the early approach of a cyclonic storm to the Bengal coast, or to the Port of Calcutta if the signal is hoisted in the Port.

> COLMAN MACAULAY, Secretary to the Govt. of Bengal.

#### NOTIFICATION.

The 4th August 1847.—The following arrangements for weather signals have been sametioned for the Ports of Orissa, viz., Poorce, False Point, Balasore, and Chandbally by the Lieutenant-Governor and are published for general information:—

Signals for the Orissa Ports.—Storm signals will be hoisted at the ports named above by the Port Officers on the receipt of instructions from the Bengal Meteorological Office, Calcutta, to give notice to the shipping and the general public at these ports of the approach of a cyclone (which may or may not, according to the state of the tides and other conditions, be accompanied by a destructive storm-wave). The signals for the Port of Pooree will be hoisted at the flagstaff on the beach; for the Port of False Point at the flagstaff at Hockeytellah: for the Port of Balasore at the flagstaff near the Custom House, and for the Hookeytollah; for the Port of Balasore at the flagstaff near the Custom House; and for the Port of Chandbally at the flagstaff near the Custom House.

The following are the signals which will be used at the Orissa Ports, and are identical with those in use at the Burmah and Madras Ports:—

1. Day warning signal.

2. Day danger signal.

3. Night warning signal.

A ball indicates that a cyclone has formed in the centre or north of the Bay, and that it is advancing in some direction between north and west, and will probably strike and cross the coast of Orissa.

A drum indicates that a cyclone is in the immediate neighbourhood of the coast of Orissa, and will shortly cross that coast. may or may not be accompanied by a destructive storm-wave. The height of the stormwave depends partly upon the extent of the cyclone, the barometric depression at the centre, and the state of the tides at the time when the cyclone reaches the coast.)

Three lights in a vertical line indicate that a cyclone has formed in the centre and north of the Bay, and that it is advancing in some direction between north and west, and will probably strike and cross the coast of Orissa.

Two lights in a vertical line indicate that a cyclone is in the immediate neighbourhood of the coast of Orissa, and will shortly cross that coast. (It may or may not be accompanied by a destructive storm-wave.)

COLMAN MACAULAY, Secretary to the Govt. of Bengal.

A ball indicates that a cyclone, of which the centre is in the north-east of the Bay, is advancing towards the mouth of the river Karnafuli, and will probably advance towards Chittagong.

A drum indicates that a cyclone, which may or may not be accompanied by a destructive storm-

wave, is approaching Chittagong. (It should be remembered that the force and destructive effect of a storm-wave will depend very considerably upon the state of the tides at the time when the

Three lights in a vertical line indicate that a cyclone, of which the centre is in the northeast angle of the Bay, is advancing towards the mouth of the river, and will probably advance

storm centre strikes the Chittagong coast.)

towards Chittagong.

# NOTIFICATION.

The 4th August 1887.—The following arrangements for weather signals for the Port of Chittagong have been sanctioned by the Lieutenant-Governor, and are published for general Signals for the Port of Chittagong.—The following storm signals will be used within the limits of the Port of Chittagong to give notice to the shipping and general public of the early approach of a cyclone with its attendant storm-wave. They will be hoisted on the flagstaff at the sudder ghat and on the yardarm of the flagstaff at Jooldia on the receipt of instructions from the Meteorological Office:—

1. Day warning signal.

2. Day danger signal.

3. Night warning signal.

Two lights in a vertical line indicate the early approach of a cyclonic storm to the Port of Chitta-

> COLMAN MACAULAY, Secretary to the Govt. of Bengal.

The 5th August 1887.—The Lieutenant-Governor is pleased to appoint the Covenanted Deputy Collector of Howrah to be Superintendent of Excise Revenue, under section 82 of Act VII (B.C.) of 1878, for the district of Howrsh, excluding the limits of the municipalities of Howrah and Bally.

> COLMAN MACAULAY, Secretary to the Gout. of Bengal.

The 9th August 1887.—The following Notice to Mariners is published for general information.

> COLMAN MACAULAY, Secretary to the Govt. of Bengal.

GOVERNMENT OF BENGAL, FINANCIAL DEPARTMENT.

NOTICE TO MARINERS-(No. 50).

ARABIAN SEA AND INDIAN OCEAN.

Reported non-existence of shoals.

THE Admiralty has given notice that, resulting from recent examination made by H. M.'s Surveying Vessel Flying Fish, the following reported shoals have been expunged from the Admiralty charts:— (1) City of Boston bank in the Arabian Sea, latitude 9° 31' N.; longitude 59°

(2) Behar bank in the Indian Ocean in latitude 6° 04' N.; longitude 79° 13' E.

By direction of the Government of Bengal,

ARTHUR W. STIFFE. Captain, I.M.,

Port Officer of Calcutta.

PORT OFFICE, Calcutta, the 5th August 1887.

[Third Publication.] NOTIFICATION.

The 26th July 1887 .- The following Notice to Mariners is published for general information.

COLMAN MACAULAY. Secretary to the Govt. of Bengal.

GOVERNMENT OF BENGAL, FINANCIAL DEPARTMENT.

NOTICE TO MARINERS-(No. 46).

CEYLON ISLAND.

SOUTH COAST.

Breaking adrift of the Gindurah and Whale Rocks buoys.

INFORMATION has been received from the Master Attendant, Point-de-Galle, that the buoys marking the Gindurah and Whale rocks have broken from their moorings.

Note .- All vessels making for Point-de-Galle harbour from the westward and northward should bring the light-house on an E. by N. bearing, and thereby pass nearly two miles South of the Gindurah rock, and also clear of the Whale rock; southward of this bearing all

Vessels requiring a pilot should heave to with the light-house hearing from N. E. to N. N. E., distant about one mile.

· By direction of the Government of Bengal,

ARTHUR W. STIFFE, Captain, I.M., · Port Officer of Calcutta.

PORT OFFICE, Calcutta, the 19th July 1887.

[Third Publication.] NOTIFICATION.

The 26th July 1887.—The following Notice to Mariners is published for general infermation.

COLMAN MACAULAY,

Secretary to the Gort. of Bengal. GOVERNMENT OF BENGAL, FINANCIAL DEPARTMENT.

NOTICE TO MARINERS-(No. 47).

RED SEA-EAST SHORE.

Reported sunken rock, Northward of Jebel Zukur island.

WITH reference to Notice to Mariners, No. 41, dated the 25th June 1887, information has been received from the Admiralty, London, that, pending further examination, Mariners are warned to pass to the westward of a line joining Centre Peak island, Zebayir islands, and

High island, Jebel Zukur.

Note.—An examination, made in April 1887, by H. M. Surveying vessel Fiying Fish, of the vicinity of the rock reported by the Avocet, failed to show any sign of shoal water. The position of the rock the Teddington is reported to have struck falls at the outer limit of the area of this examination.

By direction of the Government of Bengal,

ARTHUR W. STIFFE, Captain, 1.M., Port Officer of Calcutta.

PORT OFFICE, Calcutta, the 22nd July 1887.

#### PERIM HARBOUR ENTRANCE.

Alteration in Buoyage.

With reference to Notice to Mariners, No. 26, of the 25th May 1887, further particulars have been received from the Admiralty, London, that the following alterations have been made in the character of the buoys in Perim harbour entrance:—

1. Pirie Point buoy (port hand on entering) has been replaced by a buoy lighted by gas; the light is a fixed white light. This light-buoy, conical in shape, and painted lower part red, upper part white, lies with Pirie Point light, bearing N. 51° W., distant 10 ths of a cable.

2. Lee Point buoy (starboard hand on entering) has been replaced by a bnoy lighted by gas; the light is a fixed white light. This light-buoy, in shape a truncated cone, is painted lower part red, upper part white, and lies with Pirie Point bearing N. 60° W., distant nearly 410 the cables.

The bearings are magnetic. Variation 44° westerly in 1887.

By direction of the Government of Bengal,

ARTHUR W. STIFFE, Captain, I.M.,

Port Officer of Calculta.

#### GOVERNMENT OF BENGAL, FINANCIAL DEPARTMENT.

NOTICE TO MARINERS-(No. 49).

GULF OF ADEN.

GULF OF TEJUREH—NORTH SHORE.

PORT OF OBOKH.

#### Particulars of lights.

With reference to Notice to Mariners, No. 27, of the 10th May 1886, on the intended exhibition of a red light at Obokh, North shore of gulf of Tejureh, the Admiralty, London, has given further information that the light is exhibited:—

1. The light is a fixed red light elevated 17-1 feet above the sea, and should be visible in clear weather from a distance of about 10 miles. The light-house, 34 feet high, con-

structed of iron, on a base of masonry 8 feet in height, is painted white, with red stripes ou its South side. It is situated with Single tree bearing S. 56° E., distant 8‡ cables, and South island beacon S. 1° W.

Position, latitude 11° 58′ 30"N.; longitude 43° 16′ 50"E.

Also, that a fixed red light would be exhibited about 15th May 1887, from a tower. 39 feet high, situated in the coutre of the Penitentiary enclosure (formerly factory) with the following bearing and distance :-

S. 7° W.; distant 11} cables. South island beacon Note.—This light, in line with the principal light abovementioned (distant about 780 yards), bearing N. 17° W., leads into South port entrance.

Also, that a light will be exhibited from a light-house erected about 110 yards

N. 16° W. from cape Obokh. The light will be a fixed green light, elevated 64 feet above high-water, showing red through a sector of 14°., or from the bearings of N. 89° W. to N. 75° W. The light-house,

34 feet high, is an iron column, painted in alternate white and black bands. The bearings are magnetic. Variation 41° westerly in 1887.

By direction of the Government of Bengal,

ARTHUR W. STIFFE, Captain, I.M., Port Officer of Calcutta.

PORT OFFICE, Calcutta, the 22nd July 1887.

## JUDICIAL DEPARTMENT.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate situate in the district of Nuddea will be put up to sale at the Nuddea Collectorate on Wednesday, the 17th August 1887, corresponding with 1st Bhadra 1294 B.S.

The purchasers will be subject to the following conditions of sale:-

#### Conditions of sale.

1st.—The estate to be sold to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and

by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the

schedule of assessment prepared by the revenue authorities.

3.d.—If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale:-

Khoolna Collectorate, the 25th July 1887.

W. CLAY. Collector.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate in the district of Nuddea will be put up to sale at the Nuddea Collectorate on Wednesday, the 14th September 1887, corresponding with 29th of Bhadra 1294 B.S.

The purchasers will be subject to the following conditions of sale: —

1st—The estate to be sold to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him subject to the revenue fixed in perpetuity.

2nd—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by

the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the

schedule of assessment prepared by the revenue authorities.

3rd—If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid down at once.

4th—If the amount of purchase money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, thou by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government) and the estate to be again put up to sale at the risk of the defaulting purchases after issue of advertisement as in the case of original sale. purchaser, after issue of advertisement as in the case of original salo.

#### RESOLUTION.

READ the following

\* No. 64, (8. & C.), dated the 16th
line 1887.

Despatch,\* with enclosures, received from Her Majesty's Secretary of State for India, regarding the proposed Melbourne Centennial Exhibition of 1888:—

No. 64 (Stats. & Comce.), dated India Office, London, the 16th June 1887.

From - The RIGHT HONOURABLE VISCOUNT CROSS, G.C.B., Her Majesty's Secretary of State for India,

To-The Government of India.

I FORWARD herewith a copy of correspondence with the Colonial Office, relative to the proposed Melbourne Centennial Exhibition of 1888, for such action in the matter as you may deem advisable.

Dated Colonial Office, London, the 19th May 1887.

From-Sir R. H. Meads, Under-Secretary of State for the Colonies, To-The Under-Secretary of State for India.

I am directed by the Secretary of State for the Colonies to transmit to you 50 copies, received from the Agent General for Victoria, of the Prospectus of the Melbourne Centennial Exhibition, 1888.

I am to request you will move Viscount Cross to take the necessary steps, as soon as

practicable, to invite the representation of the Indian Government at this Exhibition.

Dated Colonial Office, London, the 21st May 1887.

From-Sir R. H. Meade, Under-Secretary of State for the Colonies, To-The Under-Secretary of State for India.

WITH reference to the letter from this Department of the 19th instant, I am directed by Secretary Sir H. Holland to acquaint you, for the information of Viscount Cross, that Her Majesty has decided to issue a Royal Commission for the Melbourne Centennial Exhibition, 1888. I am to suggest, for His Lordship's consideration, that in bringing the proposed Exhibition to the notice of the Indian Government, the appointment of the Commission should be mentioned.

Dated India Office, London, the 16th June 1887.

From-J. A. Godley, Esq., Under-Secretary of State for India, To-The Under-Secretary of State for the Colonies.

I am directed by the Secretary of State for India in Council to acknowledge the receipt of your letters of the 19th and 21st ultimo, forwarding 50 copies of the Prospectus of the proposed Melbourne Centennial Exhibition of 1888, for transmission to the Government of India, and informing Viscount Cross that a Royal Commission will be issued for the Exhibition, and I am to inform you in reply that a copy of your letters and enclosures has been forwarded to the Government of India for such action in the matter as they may deem advisable.

Mount, Esq., President of the Victorian Chamber of Manufactures; William Trenwith, Esq., President of the Melbourne Trades Hall Council; John Blyth, Esq., J.P.; and Henry Byron Moore, Esq.

#### GREETING:

(L. S.)

Whereas it is deemed advisable to hold an International Exhibition of Works of Industry and Art at Melbourne, in the year of our Lord One thousand eight hundred and eighty-eight, in commemoration of the Centenary of the founding of the first Colony of Australia, to be called "The Centennial International Exhibiton, Melbourne, 1888:" Know ye that by the power and authority vested in me by the Act numbered Four hundred and twenty-two, I, the

Governor of the said Colony, with the advice of the Executive Council thereof, relying on your loyalty, integrity, learning, and ability, have constituted and appointed, and by these presents do constitute and appoint, you the said George Higinbotham, Sir James MacBain, Peter Lalor,

Sir William John Clarke, Frederick Thomas Sargood, James Munro, William Mountford Kinsey Vale, Joseph Bosisto, Robert Murray Smith, William Cain, Thomas Houlden Thompson, Patrick Hayes, Lambton L. Mount, William Trenwith, John Blyth, and Henry Byron Moore, to be Commissioners to take measures for the holding of such International Exhibition, and to carry out and superintend such Exhibition; and for the erecting, altering, and maintaining of suitable grounds and buildings for the purposes of such Exhibition; you keeping the entire control and management thereof until otherwise determined, and for appointing and regulating the charges for admission to such buildings, premises, or grounds, or the rent or hire of any part

thereof or otherwise, and the application of the proceeds towards the objects and the expenses of the said Exhibition; and for appointing the purposes of public enjoyment and entertainment for which such buildings, premises, and grounds, or any part thereof, may be used and applied; and for obtaining such exhibits as may, in your judgment, be necessary to illustrate the progress of industry and art elsewhere; and for securing the most effective display of all articles sent for public exhibition, their safe custody, their due return to their owners, or their

disposal otherwise, as may be arranged; and for determining as to the nature, number, and value of the prizes to be awarded to the exhibitors and the impartial distribution thereof; and generally to do and execute all other matters and things whatsoever deemed necessary by you for the full accomplishment of the duties entrusted to you by this Commission: And

further I do hereby, with the advice aforesaid, constitute and appoint you the said George Higinbotham to be President, and you the said Sir James MacBain, Peter Lalor, Sir William John Clarke, and Frederick Thomas Sargood, to be the Vice-Presidents of the Commission: And do further constitute and appoint you the said Commissioners to be also the Executive Commissioners for the said Exhibition: And for your assistance in the due execution of this

Commission, I do hereby appoint George Theodore Adams Lavater, Esquire, to be Secretary to this Commission: And lastly, with the advice aforesaid, I do, by these presents, ordain that this Commission shall continue in full force and virtue until otherwise determined; and that you, the said Commissioners, or any five or more of you, shall and may from time to time, and at any place or places, proceed in the execution thereof, and of every matter and thing therein contained, although your proceedings may not be continued from time to time

by adjournment. Given under my Hand and the Seal of the Colony, at Melbourne, in the said Colony, this sixth day of January, in the year of our Lord One thousand eight hundred and eightyseven, and in the fiftieth year of Her Majesty's reign.

HENRY B. LOCH.

By His Excellency's Command,

ALFRED DEAKIN,

Chief Secretary.

L. L. Mount, Esq.

The Government of Victoria having determined to hold an Exhibition of Arts, Manufactures, Agricultural and Industrial Processes and Products of all nations during the year 1838, to celebrate the Centenary of the founding of New South Wales, the first Australian Co ony, His Excellency Sir Henry Brougham Loch, Knight Commander of the Most Honourable Order of the Bath, Governor and Commander-in-Chief in and over the Colony of Victoria and its Dependencies, &c., &c., did, on the sixth day of January 1887, by and with advice of the Executive Council, issue under the Seal of the Colony of Victoria a Commission authorising measures to be taken for the holding of such Exhibition, and for the carrying out and superintending of the same.

In accordance with the powers vested in them by the aforesaid Commission, the Exe-

cutive Commissioners have decided to open the

#### CENTENNIAL INTERNATIONAL EXHIBITION, MELBOURNE, 1888.

on the first day of August 1888, the said Exhibition to be kept open for six months, and closed on the thirty-first day of January 1889.

The Exhibition will be held in buildings which have been specially creeted for

Exhibition purposes, situated in the Carlton Gardens, in the City of Melbourne, and in such other buildings and grounds attached thereto as may be found to be required; and it is intended that the Exhibition shall be open in the evening as well as during the day. Acting under the powers conferred upon them, the Commissioners desire to invite the

British, Foreign, and Colonial Governments to take part in this Exhibition, and they trust that steps will be at once taken for the display of complete and thoroughly representative

exhibits from every country and colony.

During the year 1885, Australasia, with a population of 3,500,000, imported from Great Britain goods to the amount of £32,000,000. The United States, France, and Germany, whose combined populations number 133,000,000, imported during the same period, from Great Britian to the amount of £53,000,000. Calculated at per head of the nopulation, Australasia therefore imported nearly 23 times as much as the above-named countries combined, and this in addition to a large and increasing trade with other countries.

The mileage length of railways opened for traffic in the Australasian colonies amounts to 7,700 miles, and when the lines further authorized and now in course of construction are

completed, they will reach a total length of 10,000 miles.

Already the capital cities of South Australia, New South Wales, and Victoria are connected by railway, the distance from Adelaide to Sydney, via Melbourne, being 1,100 Between Sydney and Brisbane, the capital city of Queensland, a further distance of 710 miles, there remain only about 100 miles of railway to be constructed to connect the capitals of the four principal colonies, and as the construction of this portion is now being rapidly proceeded with, there will soon be uninterrupted communication between Adelaide, Melbourne, Sydney and Brisbane, a distance of 1,800 miles. In view of the remarkable growth of Australasia in all things relating to population,

production, and general distribution of wealth amongst all classes, the facilities for rapid, economical, and easy transit, and its many other advantages, the Commissioners confidently invite all desirous of extending their commercial relations with these rapidly-extending communities to exhibit the fullest and most complete representations of their Raw Products, Skilled Industries and Arts, at the Centennial International Exhibition, Melbourne,

1888.

#### Applications for Space.

Governments intending to take part in this Exhibition are requested to forward an intimation to that effect not later than the 31st August 1887.

Applications for space, with full particulars, are invited as early as possible. Copies of the official form of entry can be obtained upon application to the Secretary to the Commissioners, through the representatives of the country or colony to which the applicants helding. In the event of no representatives being appointed by the country or colony to which an intending exhibitor belongs, he can communicate direct with the Secretary. Applications for space should be made not later than the 31st August 1887. Space assigned to countries and colonies, and not occupied on the 30th June 1888, will revert to the Executive Commissioners, and will be subject to re-arrangement. Space will not be charged for, but power will be reserved by the Executive Commissioners to reduce the space allotted to any Government or any exhibitor should they deem fit, at any time.

- 3. British, Foreign, and Colonial Governments, or Commissioners appointed by them, are requested to inform the Executive Commissioners, Melbourne, not later than the 31st December 1887, whether they require any increase or diminution of the space offered them, and the quantity. They are also requested to state whether there will be any exhibits for which special space should be provided, together with a description showing their nature and bulk.
- 4. Before the 31st May 1888, the representatives of countries or colonies should furnish, for the approval of the Executive Commissioners, approximate plans, showing the manner in which they propose to allot the space assigned to them, together with lists of their exhibitors, and any other information necessary for the compilation of the official Catalogue. (Vide No. 13.)

#### SHIPMENT OF EXHIBITS.

- 5. Commissioners representing countries or colonies, and private exhibitors whose countries are not officially represented, but to whom space has been allotted, may adopt one of two courses, viz.—
  - (a) They can ship their exhibits direct to Melbourne, and make their own arrangements for their shipment, reception, and exhibition;
  - (b) Or consign their exhibits, freight and expenses prepaid, to

#### The Secretary,

Centennial International Exhibition, 1888,

Melbourne, Australia,

with specific instructions as to what is desired. Where it is found necessary to incur expenses on exhibits consigned to the Secretary, such expenses will be a first charge on such exhibits.

MARKS AND ADDRESS ON PACKAGES.

6. Packages forwarded from countries and colonies represented at the Exhibition should be addressed

### To the Commissioner for

Centennial International Exhibition, 1888,

Melbourne, Victoria;

Australia ;

country from which the package comes. (2) Name or firm of exhibitor. (3) Address of the exhibitor. (4) Group and class to which exhibits belong. (5) Total number of packages sent by same exhibitor. (6) Serial number of that particular package. Each package must contain a list of contents.

and the following information must be written on the outside of each package:—(1) The

Packages containing goods intended for the Exhibition must likewise have painted on them, as a distinctive mark, the following letters and figures within a triangle, thus—

Packages from foreign countries must also be marked with the colours and devices of their national flag. Foreign Commissioners are particularly requested to send to the Executive Commissioners, Melbourne, as soon as possible, a specification of the packages forwarded, with their distinguishing marks.

#### Customs Duties, Entries, &c.

7. Exhibits will be admitted free of duty for the purpose of exhibition. Customs entries, transportation, receiving, unpacking, and arranging the products for exhibition must be undertaken by the exhibitor at his own expense.

#### TRANSPORT.

8. No charge will be made for carriage of goods intended for exhibition over the railway lines.

Arrangements will be made by which all goods intended for exhibition can be carted

from the wharves, or the several railway stations, to the Exhibition Grounds at a fixed scale of charges.

#### Benoval of Goods.

9. The removal of goods, except under special circumstances, will not be permitted during the period the Exhibition is open. Delivery of exhibits sold will not be allowed until after the close of the Exhibition. Special permits for the sale and delivery of goods and articles manufactured in and during the progress of the exhibition may be given by the Executive Commissioners, should they deem fit.

SUPPLEMENT TO THE CALCUTTA GAZETTE, AUGUST 10, 1887. 1378

#### PROTECTION TO INVENTORS AND OTHERS.

The protection of inventious capable of being patented, and of designs, is secured by the patent laws of Victoria. No work of art, nor any article whatever, exhibited in the buildings, parks, or gardens may be drawn, copied, or reproduced in any manner whatsoever, without the permission of the exhibitor. The Executive Commissioners reserve to themselves the right of authorizing the production of general views.

Sketches, drawings, photographs or other reproductions of articles exhibited will only be allowed upon the consent of the exhibitor and the approval of the Executive Commissioners; but views of portions of the building may be taken upon the sanction of the Executive Commissioners alone.

#### GOODS REQUIRING SPECIAL WORK OR ACCOMMODATION.

11. The placing and fixing of heavy articles, requiring extra foundations or adjustment, should begin by special arrangement as soon as the progress of the work upon the Exhibition Buildings will permit. The general reception of articles in the Exhibition Buildings will commence on the 1st May 1888, and no articles will be admitted after the The plans for the display and accommodation of objects that require either 15th July 1888. special arrangements or exceptional works for their display must receive the approval of the Executive Commissioners before work is commenced, and all such works must be carried out under the supervision of their officers. The works of general fitting-up must be commenced not later than the 1st June 1888, and the Courts must be ready to receive goods before the 1st May 1888.

The Executive Commissioners, if they deem fit, will grant permission for the erection of approved special constructions in the buildings or grounds, at the cost of the exhibitor. EXHIBITS NOT FOR COMPETITION.

If exhibits are not intended for competition, it must be so stated by the exhibitor, and they will be excluded from examination by the Jurors.

#### OFFICIAL CATALOGUE.

An Official Catalogue will be published in English by the Executive Commissioners, by whom the sale of Catalognes is reserved. Anything beyond the ordinary description of the exhibit, together with the name of the exhibitor, must be paid for at the rate of five shillings per line. Exhibitors desiring to utilize the Catalogue for advertising

purposes should communicate as early as possible on the subject with the Secretary. country and colony will, however, have the right of producing at its own expense, but in its own language only, a special Catalogue of the objects exhibited in its section. Such Catalogue, however, must not be offered for sale in this Colony, or be used as a medium for

## GROUPING EXHIBITS.

The representatives of countries and colonies will be allowed to group their exhibits as they may think fit in that portion of the Exhibition Buildings allotted to the country or colony which they represent. The Executive Commissioners desire, however, that, where International Courts can be formed, special classes of exhibitions of all nations, and of the same character, shall be exhibited together. Victorian exhibits will be grouped in classes, irrespective of districts.

15. Exhibits from any country or colony whose Government is not represented must be classified according to the following groups. The same direction will be followed in the Catalogue :-

Works of art.

advertising.

- Education and instruction—Apparatus and processes of the liberal arts. 2.
- 3. Furniture and accessories.

4.

Fictile manufactures, glass, pottery, &c. 5. Textile fabrics, clothing, and accessories.

6. Raw and manufactured processes and products.

7. Machinery—Apparatus and processes used in the mechanical industries.

8, Alimentary products.

- 9. Sanitation, medicine, hygiene and public relief.
- 10. Agriculture and associated industries.
- Horticulture. 11.
- 12. Mining industries—Machinery, processes, and products.

Any expenses incurred by the Executive Commissioners in the display and exhibition of these goods will be made a first charge upon such goods.

Each of these groups is divided into classes, according to the system of general classification annexed to these regulations, in an Appendix, which includes for each class an enumeration of the nature of the objects which it will comprise.

#### Motive Power for Exhibits.

16. Motive power will be supplied to suitable exhibits free on application to the Executive Commissioners, but the latter reserve to themselves the power to reduce the amount asked for, or to make a charge for a certain portion of the motive power aupplied,

SUPPLEMENT TO THE CALCUTTA GAZETTE, AUGUST 10, 1887. **137**9

if they consider necessary. The Executive Commissioners desire to encourage the display of machinery in motion, and of all descriptions of manufactures, &c., in progress, and they will endeavour to provide adequate power to meet all reasonable demands. By the introduction of steam power, it is proposed to afford facilities for presenting not only the machinery for any given manufactures, but also the processes of manufacture. Requests for motive power must be made to the Executive Commissioners prior to 31st March 1888.

17. All shafting, pulleys, belting, connections, &c., for the transmission of power from the main shafting must be provided by, and at the cost of, the exhibitor.

18. It is further intended that space shall be afforded for the production of interesting objects by manual labour.

#### FITTINGS, &c.

Exhibitors must provide at their own cost all show-cases, shelving, counters, fittings, &c., which they may require.

RIGHT TO REJECT EXHIBITS.

20. The Fxecutive Commissioners reserve the right of rejecting or returning any proposed exhibit. Articles that are in any way dangerous, or offensive or injurious to public decency and morality, will not be admitted into, or allowed to be exhibited in the Exhibition.

#### WORKS OF ART.

- 21. The following special regulations are framed for the reception and admission of The works admissible include the five classes mentioned below:-Paintings. Drawings, water-colours, crayon drawings, miniatures, enamels, porcelain, designs in glass and clay, designs for stained glass windows, and mosaic

  - Sculpture and die-sinking, and engraving on precious stones.
  - Architectural and engineering drawings and models.
  - Engraving and lithography.
  - The following are excluded :-
    - Unframed pictures or drawings.
  - Sculpture in unbaked clay. The duty of deciding upon the admission of works of art will devolve upon a special

as soon as completed.

committee. Suitable space, which will be lighted by electricity, will be reserved for the exhibition of paintings. Other regulations will give information as to the despatch and reception of works of art.

FIRE, ACCIDENTS, &c. 22. The Executive Commissioners will take precautions for the safe preservation of all objects in the Exhibition, but will be in no way responsible for damage or loss of any kind, or accidents by fire or otherwise, however caused. In order, however, to reduce the danger

of fire to a minimum, a special fire-brigade will be formed, and be available, in connection with the Exhibition, from the time of the reception of exhibits to its close. Insurance, &c.

23. Facilities will be afforded the representatives of countries and colonies, and private exhibitors, for insuring their goods; and they may also employ watchmen, at their own expense, to guard their goods during the hours the Exhibition is open to the public. The appointment of such watchmen will be subject to the approval of the Executive Commissioners. These persons must wear a special dress or distinctive badge.

The awards will be based upon written reports adopted by the Jurors.

The Jurors will be selected for their qualifications and character, and shall be

24. The following is the system under which the awards will be made:—

exports in the departments to which they are especially assigned; the British, Foreign, and Colonial Jurors shall be nominated by the representatives of

each country or colony exhibiting, and, if approved of, will be appointed by the Executive Commissioners who will appoint those for Victoria.

Jurors will be reimbursed such personal expenses as may be allowed by the Executive Commissioners.

The Jurors' reports and the Executive Commissioners' awards will be based upon the inherent and comparative mcrits of the individual exhibits, the elements of merit being held to include considerations relating to originality, invention, discovery, utility, quality, skill, workmanship, fitness for the purposes intended, adaptation to public wants, economy, cost, and importance of interests involved. Each report must be deliverd to the Secretary to the Executive Commissioners

Awards will consist of gold, silver, and bronze medals, and certificates of honourable mention, together with a special report of the Jurors on the subject of the award. A certificate will accompany each medal.

Each exhibitor shall have the right to produce and publish the report awarded to him, but the Executive Commissioners reserve the right to publish and dispose of all reports in any manner they may think best for public information.

Immediately after the close of the Exhibiton, exhibitiors or their duly-appointed agents shall remove their effects, and complete such removal by the 81st March 1889. Goods then remaining will be removed by the orders of the Executive Commissioners, and sold by auction, or otherwise disposed of under the direction of the Executive Commissioners,

and the net proceeds handed to the exhibitors or their duly-appointed agents. Every person who becomes an exhibitor thereby acknowledges and undertakes to observe the rules and regulations established from time to time for the government of the

Exhibition.

The Executive Commissioners reserve the right to alter, explain, amend, or add to 27. these regulations, at any time, whatever may be deemed necessary.

Information upon any question of details can be obtained upon application to

or to

## THE EXECUTIVE COMMISSIONEES,

Centennial International Exhibited, 1888,

Melbourne, Australia.

#### REGULATIONS

Concerning the Despatch, Reception, Arrangement, and Return of the Goods Exhibited, and Disposal of Space.

1. Every person admitted as an exhibitor will receive in Melbourne, and with the least possible delay, an exhibitor's ticket showing his rotation number and the dimensione of the space allotted to him.

He will receive at the same time printed labels to be affixed to the packages he may send to the Exhibition.

The labels supplied to exhibitors will be printed on paper of different colours,

according to the group to which the products to be exhibited may belong. The conventional colours adopted are as follows:—

(Works of art)

Pick. (Education and instruction, apparatus and processes of the 2. liberal arts) White, ... ... 3. (Furniture and accessories) Blue. ... (Fictile manufactures, grass, pottery, etc.) 4. Buff, • • • (Textile fabrics, clothing and accessories) Bright-yellow. ,, (Raw and manufactured processes and products) Brown. ,,

(Apparatus and processes used in the mechanical industries) Red. (Alimentary products) Violet. 9. (Sanitation, medicine, hygiene, and public relief) Black.

10. (Agriculture and associated industries) ... Dark-green. ... 11. (Horticulture) Light-green. (Mining industries-Machinery, processes, and products)

The Commissioners place at the disposal of countries and colonies all information

and plans which may be useful for their arrangements. Exchanges of space cannot be made without the consent of the Executive Commis-4. sioners.

Exhibitors will not have to pay rent for the space occupied by them in the Exhibition The flooring will be provided in sound condition and ready for use within the whole of the main building; but the flooring must not be altered, removed, or strengthened, for the exhibition of machinery, convenience of arrangement, or any other purpose, except with the consen of the Executive Commissioners, and at the expense of the exhibitors.

The spaces reserved outside the exhibition allotments being strictly calculated with a view to the necessities of circulation, packages and empty cases will not be allowed to remain there.

Cases must, therefore, be unpacked as early as possible after their reception, and the empty cases at once taken away by the exhibitors or their agents.

Should the exhibitors neglect to carry out in the manner thus indicated the unpacking of the goods and the removal of the empty cases, the work will be undertaken by the Executive Commissioners, but in no case will the Commissioners incur any responsibility whatsoever in

the execution of this duty. The Commissioners will have nothing to do with the warehousing and preservation of the empty cases; neither have any arrangements been made, nor any space reserved, for the purpose. Exhibitors who may be unable to provide for the removal and preservation of their empty cases are advised to communicate with the Secretary.

#### GENERAL ARRANGEMENTS.

7. Certain products, which it may be found impossible to display in the main buildings, will, in some exceptional cases, be exhibited in the surrounding parks and gardens, in buildings erected for the purpose.

With regard to the Victorian section, the Commissioners will place themselves in communication with the Committees established in each locality. The duties of these

Committees will be-

(1) to make known the rules concerning the Exhibition, and to distribute the forms of application for space, as well as all other documents relating to the Exhibition;

(2) to point out as soon as possible the principal ar ists, agriculturists, and manufacturers whose exhibits would appear to be particularly calculated to promote

the success of the undertaking;

(3) to encourage the exhibition of the manufactures, and of the miseral, pastoral, agricultural, and horticultural products of the district, and to accredit to the Commissioners the delegate charged with their representation.

Spirits or alcohol, oils and essences, corrosive substances and generally all substances which might spoil other articles or inconvenience the public, can only be received in solid and suitable vessels of small size.

Percussion caps, fireworks, chemical matches, and similar articles, can only be received

when made in imitation, and deprived of all inflammable ingredients.

Exhibitors of objects of a disagreeable nature, or such as may be prejudicial to health, will be bound at all times to conform to such precautionary measures as may be considered necessary.

The Commissioners reserve the absolute right to cause the removal of any article

whatever, if, on account of its nature or appearance, they deem it advisable to do so.

12. All goods must be exhibited under the name of the person who has signed the

application for admission.

13. Exhibitors are entitled to insort after their name, or that of their firm, the names of their assistants of every class and grade who may have taken part in the production of the goods exhibited.

14. Exhibitors are particularly requested to mark the trade price of the articles exhibited, so as to facilitate the judgment of the Jury as well as for the information of

visitors. Persons desirous of exhibiting articles not mentioned in the General Classification

may apply to the Executive Commissioners.

#### ADMINISTRATION.

16. A general supervision will be established for the prevention of robbery and embezzlement.

It must be distinctly understood that the Commissioners decline all responsibility

for any theft or embezzlements which may be committed.

In the Victorian section, the exhibitors of each class must arrange among themsclves as to the organization of a staff of attendants independent of the general supervision established by the Commissioners. Private agents of this description must be approved by the Commissioners, and must wear badges bearing the number of the class to which they will be attached.

19. All communications relating to the Exhibition must be addressed-

## RULES FOR THE RECEIPT OF TESTIMONIALS AND ADDRESSES BY SERVANTS OF GOVERNMENT.

No. 29—1629-45, dated Simla, the 22nd July 1887.

RESOLUTION—By the Government of India, Home Department.

READ-

Home Department Resolution No. 19—746-62, dated 11th May 1885, prescribing rules for the receipt of testimonials and addresses by servants of Government.

In re-issuing the rules contained in Home Department Resolution of the 11th May 1885 with certain necessary additions, the Governor-General in Council desires to invite the renewed attention of Local Governments and Administrations to the subject with which they deal, and to impress on all concerned by them the duty of exact obedience to these regulations.

2. The rules do not apply to the receipt of addresses by the Head of any

Government or Administration.

#### RULES.

1. Save as in these Rules otherwise provided, all servants of Government, covenanted or uncovenanted, are forbidden to receive complimentary or valedictory addresses in any form, or to accept testimonials of any kind, or to attend public meetings or complimentary entertainments of a formal and public character held in their honour.

2. The Government views with disfavour all similar manifestations in the case of retired officers, when following immediately upon their retirement from active service, and designed as an acknowledgment of acts done by them while in the service of Government.

3. It is not intended to prohibit such an expression of regard for the private or official character of an officer retiring from service, or leaving his station or district, as is involved in a farewell entertainment supported by his personal friends, even though some of these may be his official subordinates. But it is expected that the proceedings on such occasions will be substantially of a private and informal character.

4. Local Governments and Administrations are authorised to forward to an officer who has left a station or district the resolution of any local public body recording a vote of thanks to him for help and advice afforded during his official connection with the station or district.

5. Medical officers are not prohibited from receiving pecuniary recognition of their services from a community or body of persons which may desire to acknowledge these; but the previous sanction of the Local Government or Administration must be obtained by medical officers before receiving any public complimentary address.

6. Nothing in the above rules is meant to prohibit compliance with the request of a public body that a Government officer should sit for his portrait, bust or statue in recognition of his public services: provided that the portrait,

bust or statue is not intended for presentation to the officer concerned.

7. The participation of Government officers in the raising of funds for the foundation of scholarships, or for procuring a portrait, bust or statue, as a spontaneous recognition of the services of a Government officer is not forbidden; but it should be clearly understood that any solicitation on the part of officers of Government for subscriptions from any person who does not voluntarily come forward to contribute is disapproved by the Government of India.

8. The previous sanction of the Government of India must be obtained to the relaxation of these rules in any special case in which the Local Govern-

ment or Administration may think this desirable.

THE subject of discussion in the papers cited in the preamble is the preparation and printing of annual departmental reports submitted to the Government of India in the Home Department. In a letter No. 3928., dated the 22nd June 1885, the Government of the Punjab solicited a reconsideration of the whole question of the preparation and treatment of annual reports, so far as that Province was concerned. The alterations suggested by Sir Charles Aitchison and the views provisionally held by the Government of India on the question are summarised in Home Department Resolution of the 12th August 1885. But as the subject was not one of merely local importance, the Governor-General in Council desired, before coming to a final decision, to have a full expression of the opinions of Local Governments and Administrations upon the proposals of the Punjah Government, so far as they affected the reports which are submitted to the Home Department. The replies from Local Governments and Administrations, read in the preamble, contain their opinions on the matter.

2. The proposals of the Punjab Government were made with the double object (1) of removing the burden thrown upon district officers, heads of departments, and Secretariat establishments in councition with the preparation and reviewing of annual reports; and (2) of reducing the cost of printing the reports. These proposals have not been accepted in full by any Local Government or Administration, except by the Chief Commissioner of Burma; and Mr. Crosthwaite, the present Chief Commissioner of that Province, holds, as his reply from the Central Provinces shows, different views from those held by Sir Charles Bernard. The Governments of Madras, Bombay, and Bengal have, to some extent, accepted the proposals in question, and the Chief Commissioner of Coorg has expressed his continuous generally in favour of having statistical tables, accommanied by notes. expressed his opinion generally in favour of having statistical tables, accompanied by notes,

for two years, and in the third year a set of comprehensive departmental reports.

3. The most adverse criticism of the proposals made by the Punjab Government proceeds from the Government of the North-Western Provinces and Oadh, from the Administrations of the Central Provinces and of Assam, and from the Resident at Hyderabad. The Licutenant-Governor of the North-Western Provinces and Chief Commissioner of Oudh is of opinion that the presentation of evidence of departmental efficiency and the collection, in a convenient form, of information useful for administrative and other purposes, cannot be secured under a system of triennial reporting with intermediate statistical tables and brief explanatory notes. He considers that, as was suggested in paragraph 7 of Home Department Resolution of 12th August 1885, the brief notes would probably be of little practical value, while the triennial report would necessarily be prolx and involve much labour in its preparation. The latter, moreover, would be four years old

before the orders of Government could be passed or any subsequent action taken upon it. Sir A. Lyall observes that the labour of scrutinizing statistics is little augmented by that of writing a report on them, and that a careful scrutiny and comparison of past and present returns is a necessary part of the duty of the heads of departments in administrating. But, while apposed to the general adoption of the proposals of the Punjab Governjudicature in reviewing the Criminal and Civil Justice returns.

ment, Sir A. Lyall would meet them to some extent by doing away with reports on certain subjects and by substituting for them statistical tables accompanied every year by a brief commentary in the form of notes, such as is now supplied by the Local High Courts of Mr. Crosshwaite, at the time Chief Commissioner of the Central Provinces, concurs in the views of the Government of the North-Western Provinces and Oudh in regard to the small amount of labour required to write a report, when once the relevant statistics have been systematically studied. He remarks that the system of writing reports is useful, inasmuch as it ensures that statistics have been scrutinised, and that it enables the Government to see how much care and intelligence have been devoted to this scrutiny. moreover, in Mr. Crosthwaite's opinion, enable administrative officers to periodically survey the whole of their work and to judge of the effects of it, while they assist Government in seeing how far the recognised principles of administration have been applied and how far errors require to be corrected. If for annual reports triennial reports were substituted, there is, he thinks, likely to be the disadvantage that the officer who had done the work woul! not

ordinarily write the report, or, if he did, that his recollection of the facts regarding which he was writing would have grown dim with time. Under such a system, too, errors of administration could not be corrected at once. Mr. Crosthwaite admits that reports and reviews are often unnecessarily profix, and should be curtailed, and be suggests that the extended distribution of reports which at present prevails is unnecessary and expensive.

He also deprecates the style of review which merely repeats, in other and perhaps fewer words, what is stated in the report. The Officiating Chief Commissioner of Assam considers that the proposals of the Punjab Government are unsuitable to that Province, and would lead to serious practical

would be lost by triennial reports, while the labour of compiling the latter would be very great, particularly to officers who had held their charges only for a small portion of the three years. The Resident at Hyderabad doubts if the proposed reform would have an useful effect, and argues that the review of the year's transactions by the head of the Government affords an incentive to work. Praise or blame, in the Resident's opinion, loses its effect if it relates to a time long passed away. The officer concerned may have left the locality,

inconvenience. Mr. Ward is of opinion that the value of reports to departmental officers

and it does not always happen that an officer remains at his post for the whole three years for which he would have to write the report. The opinions briefly summarized above confirm the view taken by the Government of India in the Home Department, as expressed in the Resolution of the 12th August 1885, that it was not possible to go as far as was proposed by the Punjab Government in the direction of curtailing the preparation and submission of annual reports. After giving

the subject full consideration, the Government of India agrees in the main with the remarks made by the Government of the North-Western Provinces and Oudh and the present Chief Commissioner of Burma regarding the usefulness of anonal reports as a means of testing departmental efficiency and the judgment and energy of officers, and also of checking and

correcting administrative mistakes. Applying this principle, the Governor-General in Council is of opinion that annual reports must be maintained in the two following cases:-(a) Where the reports deal with the application of administrative principles still open to modification or the concrete working of which has to be watched.

(b) Where the reports contain statistics which for administrative purposes must be compiled and examined annually.

These two heads comprise so many of the reports now falling under the cognizance of the Home Department that the conclusion to which His Excellency in Conneil has come is that,

beyond maisting on brevity and methodical arrangement in the reports themselves, and on curtailment of reviews of them, it is impossible to afford much relief to Local Governments in the direction contemplated by this enquiry. The Government of India therefore desires that the reports dealt with in the Home Department should from 1887 onwards be treated in the following manner:-

(i) To be submitted annually as heretofore— Report on General Administration. Municipal Administration,

Local Boards' Administration.

Education. "

Sanitation. Civil and Oriminal Justice. Jail Administration.

Police Administration. ,, ::

Lunatic Asylums.

(ii) To be submitted in full every third year, statistical returns and brief commentaries in the shape of notes being submitted in the intermediate years—

Report on Registration.

- " Dispensaries.
- , Lock-hospitals.
- .. Vaccination.

Destruction of wild beasts and anakes.

The notes to be submitted with the statistical returns in the years intermediate between the submission of the reports should give a clear, though brief, indication of the supervising or controlling officer's opinion as to the significance of the statistics.

6. The following special reports should continue to be submitted as before: -

Chemical Examiner's Report.

Report on Calcutta Medical Institutions.

Report of the Port Health Officer, Calcutta.

Report of the Commissioners of the Town of Calcuta.

Report on Publications under Act XXV of 1867.

The Review of Publications.

The Report on Vernacular Newspapers.

The Government of India leaves to Local Governments, who submit reports on Legal Affairs and Criminal Tribes, discretion to determine whether these reports shall be annually prepared as at present or prepared every third year, with brief notes in the intermediate years.

7. The Governor-General in Council would desire to express his earnest hope that Local Governments and Administrations will insist on curtailment of reports to the utmost extent which is consistent with a proper examination of the facts and figures presented in them. A reduction in the size of the reports on Jails, Police, Education, and Sanitation is especially necessary. In most provinces these reports have become far too discursive.

Compression of reviews is not less called for than curtailment of reports: a review should contain only what is necessary to communicate the judgment of the reviewing authority regarding the salient features of the report. The Governor General in Council attaches no value to reviews which merely repeat in abridged form what is set forth in the report reviewed.

8. While thus recognising the need which exists for compression in the reports and reviews which reach the Government of India, His Excellency in Council is no less desirous that the same principles should be carefully followed as regards reports received by Local Governments and Administrations, but not forwarded to the Government of India. He fears that the time of administrative and executive officers is unnecessarily occupied as much by the preparation of reports and returns submitted for the information of the local authorities as by the preparation of those which reach the Government of India. He has therefore observed with satisfaction that the Government of Bengal has recently, in connection with the report of the Salaries Commission, directed its attention to this aspect of the case; and he trusts that all other Local Governments and Administrations will exercise a vigorous discretion not only in reducing the bulk of the reports and returns which are retained, but also in abolishing those that are not really required.

ORDER.—Ordered that a copy of this Resolution be forwarded to all Local Governments and Administrations for information and guidance; and that a copy be forwarded to the other Departments of the Government of India for information and further necessary action, and that it be published in the Supplement to the Gazette of India.

[True extract]

A. P. MACDONNELL, Secretary to the Government of India. 1386 SUPPLEMENT TO THE CALCUTTA GAZETTE, AUGUST 10, 1887.

# RESOLUTION ON THE ANNUAL REPORT OF THE ROYAL BOTANIC GARDEN FOR THE YEAR 1886-87.

MUNICIPAL DEPARTMENT-MEDICAL.

Calcutta, the 6th August 1887.

RESOLUTION.

#### READ-

The Annual Report of the Royal Botanie Garden, Calcutta, for the year 1886-87.

This being the report for the hundredth year, Dr. King has rightly taken the opportunity of giving a sketch of the history of the institution. The following extract contains an interesting account of the garden since its formation:—

The suggestion to form a Botanic Garden here was first made to the Government in Calcutta in June 1767, by Colonel Robert Kyd, then Superintendent of the Hon'ble Company's Dockyard at Kidderpore. The proposal was favourably entertained by the Governor-General, and its adoption was recommended to the Supreme Board in London during the same month, practical effect being given to it during the following year by the selection, as a site, of a large piece of land immediately below Colonel Kyd's private garden at Shahmar. This piece of land, besides the Botanic Garden as it is now limited, included about fifty acres, which form part of the grounds of the present Engineering College. Colonel Kyd was himself an ordent horticulturist, and he had brought together in his private garden at Shalimar a large collection of exotic plants, chiefly from the Straits. He was therefore very appropriately appointed the first Superintendent of the Botanic Garden which had been founded at his suggestion. Colonel Kyd continued to perform the duties of Superintcadent until his death in 1793. On Colonel Kyd's death, Government decided to put the gurden under the charge of a special officer who should have no other duty. Dr. William Roxburgh, the Company's Botanist in Madras, was therefore transferred from that Presidency, and was installed at Seebpore in November 1793. No better selection than that of Dr. Roxburgh could have been made. Dr. Roxburgh, for many years prior to his transfer, had been engaged in studying the then little known Flora of the Northern Circars in the Madras Presidency. He was a most ardent and enthusiastic botanist, and a good gardener. Dr. Roxburgh continued to be Superintendent until 1814, when he was obliged to proceed to the Cape on account of his health. From the Cape he went on to St. Helena, and from thence to England, where he died during the following year. Dr. Roxburgh was the first botanist who attempted to draw up a systematic account of the plants of India. During his busy life in this country he prepared a Flora Indian, which contained systematic descriptions of ail life in this country he prepared a Flora Indica, which contained systematic descriptions of all the indigenous plants known to him, as well as of many exotics then in cultivation in the neighbourhood of Calcutta. The manuscript of this work he took with him when he left India, intending to publish it during his residence in England. His death prevented the execution of this plan; and, with the exception of the first volume, which was printed with some additions and interpolations by Drs. Wallich and Carey in 1820, the book remained unpublished until 1832. In the latter year it was printed, exactly as the author had left it, by the piety of his sons, Captains James and Bruce Roxburgh, neither of whom was a This book is the basis of all subsequent Indian botanical works. It is an admirable production, the descriptions are accurate and graphic, and its authorship justly entitles Roxburgh to his title of the Father of Indian Botany. Until the year 1872, when the publication of the "Flora of British India" was begun by the distinguished botanist Sir Joseph Hooker, Roxburgh's was the only single book through which a knowledge of Indian plants could be acquired. A second edition of this excellent manual was issued by Mr. C. B. Clarke in 1874 at a merely nominal price, Mr. Clarke's desire being to put the book within the reach of the poorest student. Besides the Flora Indica, Roxburgh published, at the expense of the Hon'ble Company, in three large folio volumes, his Planta Coromandeliana, heing descriptions with figures of three hundred of the most striking plants of the Cotomaniel Coast. Dr. Roxburgh was immediately succeeded in the Superintendentship of the Garden by Dr. Francis Buchanan (afterwards Hamilton), who at the time was on special duty in connection with an extended enquiry into the agriculture of India and in the collection of materials for a Gazetteer. Dr. Hamilton, who was an accomplished botanist and zoologist, collected a vast mass of material, part of which was published in his own name, but the bulk of which, after many years' suppression, was published under the title of Montgomery Martin's History, Topography and Statistics of Eastern India. Dr. Buchanan Hamilton held charge of the garden for only a short time, and he was succeeded in 1817 by Dr. Nathanial Wallieb, lately Surgeon to the Danish Settlement at Scrampore. Dr. Wallich was an able and most energetic botanist, and during the earlier part of his term of office he organised collecting expeditions into the remote and then little known regions of Kumaon, Nepal, Silhet, Tenasserim, Penang, and Singapore. Dr. Walbeh in fact undertook a botanical survey of a large part of the Indian Empire. The materials (in the shape of dried specimens of plants) thus accumulated were taken by Dr. Wallich to London, and, after being pamed there by himself and by other botanists, they were distributed in numbered collections to the leading botanical institutions in Europe. In this great distribution, Dr. Wallich included the collections of several other botanists which had been made over to hun far the nurrose. The the collections of several other botanists which had been made over to him for the purpose. The

SUPPLEMENT TO THE CALCUTTA GAZETTE, AUGUST 10, 1887. 1387 liberality with which these specimens was given away was so extreme that, in the garden report for the year 1843, we find Dr. Griffith (who had been appointed to officiate for Dr. Wallich during his absence in England) complaining that the herbarium had been completely denuded of every specimen collected during the first fifty years of the existence of the garden. Besides distributing these enormous collections, Dr. Wallich was enabled, through the munificence of the Hou'ble Company, to publish, under the title Planta delatica Rariores, three superb volumes illustrated by coloured figures of a high degree of excellence. Dr. Wallich retired in 1846 and died in 1854. During the lengthened absences of Dr. Wallich in Europe, his place at the garden was filled by Dr. W. Griffith, whose premature death deprived Botanical Science of one of its ablest and most industrious votaries. Dr. Griffith's extensive notes and numerous drawings were, after his death, published by Government in nine volumes. Dr. Wallich was succeeded by Dr. Hugh Falconer. Dr. Falconer was a Palacontologist, well known by his researches on the Sivalek Fossil Mammalia. In 1855 he left the country on account of ill-health, and was succeeded as Superintendent by Dr. Thomas Thomson, a traveller and botanist of much ability, the coadjutor of Sir Joseph Hooker in the collection and

- distribution of an extensive and well-known herburium of East Indian plants, and the joint au hor of the first volume of a new Flora Indica. Dr. Thomson retired in 1861, and was succeeded by Dr. Thomas Anderson, whose untimely death in 1870 was caused by disease contracted during his efforts for the introduction of the quinine-yielding Cinchonas into the Sikkim Himalaya. For the two years subsequent to Dr. Anderson's departure from India, Mr. C. B. Clarke acted as Superintendent, and during his incumbency he began the series of botanical publications which has earned for him so high a scientific reputation.
- From the first foundation of the garden, it was understood that it was to be made a source of botanical information for the possessions of the Company, and at the same time a
- centre to which exatic plants of economic interest could be imported for experimental cultivation, and from which, in turn, they could be issued for distribution in the Company's posses-It was also intended to assist in introducing indigenous Indian products to new It was intended that it should not only be a botanical, but also a horticultural and The preceding paragraph shows how the botanical work laid out for the agricultural garden.
- garden has been accomplished. But the economic side has by no means been neglected. first great hopes were entertained that the spices which rendered the trade of the Company
- with the Moluccas and other of the Malayan Islands so valuable, might be cultivated in Bengal. The earliest efforts of Colonel Kyd were therefore directed to the introduction
- of the trees which yield nutmegs, cloves and cinnamon, and of the pepper vines. It was,
- however, speedily proved that the climate of Northern India is quite unsuited to these equatorial species. The equatorial fruits, such as mangosteen, lungest, dukko and bread-fruit, were
- also tried with a similar result; and so were the temperate fruits of Europe. In fast, no small part of the benefits conferred on the country by the garden in its early days was the demon-
- stration by practical experiment that certain natural products, many of them of a most desirable kind, cannot be grown in Bengal; much money and bootless effort being thus saved to the country. The introduction of exotic timber trees also received early attention;
- and in the garden there still remain a few of the orginal mahogany trees introduced in these early years. The introduction of tea was one of the items put down in Colonel Kyd's original
- programme; and in the final establishment of what has now become one of the most important industries in Northern India, the garden bore a most important part. Potato-growing was introduced through its agency, and the cultivation of the quinine-violding Cinchonas of the Andes was initiated and carried to a successful issue under the direction of Superintendents
- of this garden. In the improvement of Indian cotton, and in the introduction both of that and of jute to the markets of Europe, the garden authorities worked cordially hand in hand with the Agri-Horticultural Society of India. with what success it is unnecessary to point out. By
- the introduction of some of the best kinds of sugarcane from the West Indies, and the dissemination of these to all parts of the country, a considerable improvement was effected been on the quality and quantity of the sugar crop of the country. In this matter also the Agri-Horticultural Society worked hand in hand with the garden authorities. Very soon after the establishment of the Society just mentioned, a considerable piece of land in the garden was
- made over to it rent-free, and on this land the Society conducted the greater part of its operations for forty years. In fact, it was not until the year 1872 that the Society's garden was transferred to its present site in Alipore. It is unccessary to discuss in detail the numerous experiments in the cultivation of economic plants which have been conducted in the garden since its beginning. A few of the products tried may simply be mentioned. Chief among these are flax, hemp, tobacco, henbane, vanilla, coffee (Arabian and Liberian), cocca,
- borniculture, it may suffice to say that a large proportion of the kinds of exotic plants now found in private gardens in India has been introduced to the country through the agency of this garden, and that the improved methods of cultivation which now obtain were to a great extent initiated here.

ipecacuanha, aloes, sarsaparilla, jalap, India-rabber, cardamouss, tapicca, and coca. As regards

- In 1820 about fifty acres of land belonging to the garden were made over by Government to the Society for the Propagation of Christian Knowledge. And on this land the Society founded the institution so long known as Bishop's College, but since 1880 (owing to its retransfer
- to Government) as the Government Engineering College. In the year 1864 the garden was devastated by a cyclonic storm of extraordinary violence, which either approach or broke to pieces the majority of the trees in it, and, by blowing down all the plant-houses, hopelessly crushed their contents. The few trees which escaped on that occasion were sadly

reduced in number by a second cyclone which passed over the garden in 1867; and, at the present time, almost the only trees dating from before 1867 are the great banyan and a smaller tree of the same sort, some peopuls and country almonds, about twenty mahogany trees, and some palms. It is almost a pity that the occasion of its destruction by these cyclones was not taken to remove the garden to a site on the Calcutta side of the Hooghly. For, although there are certain advantages in the garden being so remote from the town, there can be little doubt that the balance is in favour of a site more easily accessible to the residents of Calcutta. The destruction of all shade, which resulted from the removal of the trees, allowed the inveterate weed known popularly as color grass, and botanically as Imperata cylindrica, to take possession of the whole of the ground not occupied by roads or flower borders; so that when I took charge of the garden in 1871 it presented rather a sorry appearance. The liberality of the local Government, under whose control it soon thereafter passed, has made it possible for me to lay out the garden entirely anew. The whole of its area has since that date been treated for landscane effects, sheets of ornamental water having been formed, and, with the earth so obtained, undulations having been thrown up. New roads and footpaths have also been made; a building for the Herbarium and three handsome conservatories for the more delicate kinds of living plants have been erected; nursery buildings have been put up; and the garden staff have been furnished with comfortable houses.

4. Botanically the most important feature in the garden is its Herbarium, or collection of dried plants. As has already been explained, all the collections prior to Dr. Wallich's visit to England in 1828 were distributed by him to scientific institutions abroad. The commencement of the present collection dates, therefore, from his return to India in 1832. It consists of plants contributed by almost every worker at Botany in India since that date, and of considerable contributions from Botanists in Europe. It is first and foremost an Indian Herbarium, but the plants of South-Eastern Asia, of Japan, of Persia and of Asia Minor are fairly well represented. Those of Europe are also excellently represented; but in African and American plants the collection is comparatively poor. Constant communication and interchange of specimens have been kept up for the last fifty years with the great national collection at Kew; and to the distinguished Directors of that institution, Sir William Hooker and his son and successor Sir Joseph, the Calcutta Herbarium is indebted for invaluable contributions. Interchanges have also been kept up with other European Botanic Institutions, such as the Herbarium of the British Museum, of the Jardin des Plantes, Paris, the Imperial Gardens at St. Petersburg and Berlin, the Royal Botanic Gardens at Buitenzorg in Java, at Peradeniya in Ceylon, and at Saharanpore; and with many other institutions. Amongst the private contributors in past times from whom the Herbarium has received the most valuable collections must be mentioned Vicary, Edgeworth, Griffith, Wight, Simons, Law, Gibson, Stocks, Dulzell, Kurz, Miquel, and Maingay. The most important contributions received during recent years have been duly mentioned in my annual report.

The transformation which has taken place in the aspect of the garden has been the work of Dr. King himself, whose skill, taste and assiduity were fully recognized by Sir Ashley Eden and supported by him with liberal grants of money. The garden is now in its scientific capacity admittedly the first of all botanical institutions in Asia, and has been designated by high authority the Kew of the East.

- 2. Valuable additions were made to the collection of dried plants in the herbarium during the year. The chief contributors were Dr. Aitchison, of the Afghan Boundary Commission; Mr. Thisleton Dyer, Director of the Botanical Garden at Kew; Dr. Gills; Dr. G. Watt; Dr. Rigel, of the Imperial Garden at St. Petersburgh; Mr. Medley Wood, of the Botanic Garden, Durban; Mr. Pringle; Mr. H. O. Forbes; Dr. Prain, Curator of the Herbarium, Royal Botanic Garden, Seebpore; Mr. Gustav Mann; Mr. J. F. Duthee; Colonel H. Collett, c.B., of Saharunpore; Reverned J. Campbell, of Manbhoom; and Mr. J. S. Gamble, Conservator of Forests. Four hundred named species were received from Mexico, and three excellent named collections were sent by Mr. Medley Wood from Natal.
- 3. During the year 8,064 plants were received and 46,104 were issued. Nine hundred and three packets of seeds were received and 2,534 packets were distributed. The plants and seeds were distributed chiefly to Botanical Gardens, Forest Officers, District Officers, and Officers of the Public Works Department. A large quantity was also supplied to private individuals. The principal contributors were the Superintendents of the several Botanical Gardens.
- 4. Dr. King was engaged for some time in preparing a Monograph on "The species of Ficus of the Indo-Malayan and Chinese Countries." The first part of this valuable work has evoked strong approbation from scientific men and bodies, and the Lieutenant-Governor has had pleasure in directing that copies of it be supplied to the great Botanical Institutions of the world.

SUPPLEMENT TO THE CALCUTTA GAZETTE, AUGUST 10, 1887. 1389 The Lloyd Botanic Garden at Darjeeling was under the charge of

Mr. Kennedy. A lease has been obtained of the plot of land between the Botanic Garden and the Eden Sanitarium. This land is being used as a vegetable garden, and is under the charge of the Superintendent of the Botanic Garden. The acclimatised English potatoes have proved a failure, and the

experiment made by private growers has also been unsuccessful. A sum of Rs. 1,373 was realized by the sale of surplus plants at the Calcutta garden, and Rs. 1,180 by the sale of produce of the Darjeeling garden.

> By order of the Lieutenant-Governor of Bengal, COLMAN MACAULAY,

Secretary to the Government of Bengal.

AND SUBURBS OF CALCUTTA AND IN HOWRAH DURING THE YEAR 1886-87.

No. 8970, dated Calcutta, the 21st July 1887.

From-H. J. S. Cotton, Esq., c.s., Officiating Commissioner of Police, Calcutta.

To-The Secretary to the Government of Bengal, Municipal Department. I HAVE the honour to submit, under section 30 of Bengal Act IV of 1883.

the following report on the working of the Fire-Brigade in the Town and Suburbs of Calcutta and in Howrah for the year 1886-87.

REPURT ON THE WORKING OF THE FIRE-BRIGADE IN THE TOWN

The Brigade was in attendance at thirty-six fires during the yeartwelve in the Town, six in the Suburbs, and eighteen in Howrah. The loss of property was estimated at Rs. 64,375. It will be seen that the fires were much

less serious than in the previous year. The only important fires were one on board the S.S Mira, in which a portion of the cargo of tea and wheat, to the value of Rs. 20,060, was destroyed, and another on board the ship Glendarnel,

laden with jute, which sustained damage to the extent of Rs. 10,000. In the Suburbs the fires were mostly confined to thatched and tiled houses. Of the

fires in Howrah, only two call for remark—one on the Grand Trunk Road, in which property of the value of Rs. 2,100 was destroyed, and the other at the Ghoosery Cotton Mills, in which 6,000 bs. of cotton, valued at about Rs. 1,000, was hurnt.

- There was no loss of life in any of these fires, and the destruction of property was less than that caused in previous years. No fire occurred in any jute warehouse.

  - A memorandum of the fires is enclosed. A statement of the receipts and expenditure of the Fire-Brigade is
- also enclosed. Under section 23 of the Act, nineteen prosecutions were instituted during the year, and convictions were obtained in twelve cases.

fireworks, was withdrawn in October last under section 24 of the Act.

7. Only one license, granted to a dealer in Bhowanipore for the sale of

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park-street Observatory). The parometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore '003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 0.6° higher; and, tinully, the thermometer which furnished the record of temperature at the Surveyor General's Office during 20 years and upwards is found to read 0.6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

A. PEDLER,

MRTEOROLOGICAL OFFICE, INDIA; For Offg. Meteorological Reporter to the trant of India. Calcutta, the Sth August 1887.

TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVA-TIONS TAKEN IN ASSAM, DURING THE MONTH OF JULY 1887.

THE month of July in Bengal is one of the most important of the whole year from a meteorological point of view, for it is the first complete month of the actual monecon period. It is generally the case that the complete establishment of the two great branches of the monsoon current does not take place till quite the end of June or beginning of July, and usually the rainfall in the Lower Provinces in July is heavier than during any other month of the year. Another reason why the meteorology of this month is important is that the distribution of the rains in July generally gives a rough indication of the probable distribution of the rainfall during the whole of the monsoon period.

The circumstances and conditions of the establishment of the south-west monsoon have been dealt with in previous reports, and it has been pointed out that, while during June the rainfall in Bengal is practically almost entirely brought up by the Bay of Bengal monsoon current, at the end of this month, or commencement of July, the conditions change, and the Bombay branch of the monsoon, blowing from the Indian Ocean and the Arabian Sea, advances slowly across Central India and the Central Provinces, and makes its influence felt in Bengal, and particularly in the western districts of the province. progress the Bombay current meets the Bay of Bengal monsoon current, and the interaction between the two currents gives rise to ascensional motion, which, according to well known physical laws, causes condensation of the aqueous vapour in the form of rain. The Arabian Sea branch of the monsoon current therefore exercises a considerable influence on the rainfall

in Behar, Chutia Nagpur and Bengal generally during July.

The Bay of Bengal current, if it alone prevailed, as is the case to a certain extent in June, would undoubtedly deposit the greater part of its vapour as rain in the neighbourhood of the sea coast, and along the areas nearest to the hills in the east and north of the province. The interaction between the two branches of the monsoon current is undoubtedly greatest in the western districts of the province, and therefore tends to give heavier rainfall to Chutia Nagpur, South Behar and West Orissa, or to those parts of the province which would receive the smallest amounts of rain from the direct action of the Bay of Bengal branch; that is, the combined effect of the two branches is to produce in normal years a fairly uniform rainfall over the whole province. The amount of the interaction between the two branches of the monsoon current will depend on two things—first, on the relative strengths of the two currents; and second, on the position or direction in which the currents meet, for as the Bengal current is changed by the physical configuration of the country over which it is flowing from a south-westerly wind at the head of the Bay, first into a southerly, then into a south-easterly, and line a seaterly current, it is evident that interaction with the westerly current will be more marked in Bchar, where the Bay of Bengal current is casterly, than it will be in Orissa, where it is south-westerly, Thus in normal years the rainfall in the western parts of Behar and of Chutia Nagpur is practically entirely brought about by the interaction above described.

It must, however, be remembered that the south-west monsoon winds are by no means steady. They blow vigorously for a few days, giving more or less general rain, and then fall off in strength, when the rainfall becomes local. A fresh inrush of winds then seems followed by general rainfall with subsequent lulls as just described. It is during these periods of comparative calm that conditions become favourable for the generation of small cyclonic storms, which in most cases are formed near the head of the Bay, though they also, but more rarely, may form over the land. With the advance of these cyclonic storms heavy rain generally occurs, and it depends to a great extent on the character of these small storms or atmospheric whirls, that is, whether they are of concentrated or of diffused nature, whether the rainfall which accompanies their advance falls only near the path of the storm, or whether it is widely diffused over a large portion of the province. With the advance of these storms, strong humid winds generally set in over the whole province, giving rise to general rain for some days. The precise conditions which determine the formation of these storms are, however, not clearly understood, and while in some years a constant succession of such storms will occur, in other years they may be almost absent, or at all events very few of any importance occur.

It will thus be seen that the meteorological conditions of July depend mainly on two points-first, on the character and intensity of the two monsoon currents from the Bay of

Bengal and Arabian Sea; and second, on the occurrence, nature and paths of the small cyclonic atoms which frequently occur in the rainy season.

Average distribution of the rainfall in July.—Two lines of maximum normal rainfall may be traced in Bengal during July. The first line is more or less parallel to the sea coast, and is caused by the humid winds from the Bay of Bengal. The second line of maximum rainfall is more or less parallel to the hill ranges in the east and north of the province, and this is accounted for by the well-known fact that these ranges cause ascensional motion of the Bay of Bengal current, and consequent precipitation of heavy rainfall. The line of 20 inches average rainfall in July runs through the Eastern Bengal districts at some little distance from the coast line, the distance from the coast increasing as it runs to the castward; the second line of 20 inches average rainfall is found along the Darjeeling Hills, running almost east and west. The line of 15 inches average rainfall starts from Saugor Island and runs in an easterly direction parallel to the first-mentioned

line till near the Tipperah Hills, when it suddenly turns in a north-westerly direction, finally passing through Bogra and Dinagepore, where it is more or less parallel to the line of 20 inches in the Darjeering Hills. The line of 12 inches average rainfall runs from Motihari in Northern Behar almost due south-east parallel to the 15-inch line to Rajmehal, and thence through Jessore along the borders of the Chutia Nagpur district into South Behar. Inside this area of average rainfall of less than twelve inches there are two areas of considerable interest. The first is the area of minimum rainfall of the month, which embraces the Jessore district, some parts of the Nuddea and Burdwan districts, as well as the Rajshahye district. This minimum fall is explained by the fact that this portion of Bengal is not influenced by either of the three causes which tend to produce increased minimum, it is not near the coast line when the hunid winds axpend their first force. rainfall: namely, it is not near the coast line when the humid winds expend their first force; it is not near any hill ranges where ascensional air motion will take place; and third, it is not under the influence of the interaction between the two branches of the monsoon current as previously described. The other area of interest is one of increased precipita-tion near Patna. The Chutia Nagpur Division receives during the month a normal rainfall of between twelve and fifteen inches, and this comparatively large amount is evidently produced by the interaction of the two branches of the monsoon current over this Meteorology of the month.—At the commencement of July the monsoon current blowing over the province from the Bay of Bengal was decidedly light, and during the first

six days the passage of the current over Bengal was partially stopped by the formation of a feeble whirl in the Bay of Bengal, which only reached the land on the 7th, close to Saugor Island. With the advance of the feeble storm over the land a moderately strong monsoon current then commenced to flow over Bengal, and gave moderate amounts of rain. This depression had practically disappeared on the 8th, but on the 9th a new depression was formed in Central Bengal, which commenced to move in a north-westerly direction, passing near Burdwan and then into the North-West Provinces, finally disappearing on the 13th in the north-cast of Rajputana. Again, with the advance of the depression a moderate monsoon current flowed over the province. This small storm was still advancing when, on the 11th and 12th, another small depression commenced to form at the head of the Bay, and over South-East Hengal, which depression afterwards moved in a north-westerly direction and only filled up and disappeared over Beluchistan on the 17th. The indraught towards this storm had ceased to affect Bengal after the 15th, and the most noticeable feature in the weather on the 16th was the setting in of a westerly wind current over the greater part of the province, due to the abnormal strength of the Bombay branch of the mousoon, which drove back the casterly and south-easterly wind current which had previously been blowing. A slight area of comparatively law pressure was also developed on the 16th over the eastern part of South Behar. Conditions on this day were not favourable for heavy rain, and only light and local falls were reported over the greater part of the province. On the 17th the weather conditions over Bengal became extremely abnormal, in the fact that at practically all stations in the province wind was north-westerly. This was apparently brought about by the unusual strength of the westerly Bombay current, which entirely drove back the very feeble monsoon current which was blowing from the Bay of Bengal, and thus practically at all stations from Buxar down to Negapatam winds became westerly and north-Under these circumstances, a short break in the rains became established, and on this day practically the whole province was rainless. Such abnormal conditions as these, however, could not continue long, and on the 18th the Bay of Bengal current commenced to strengthen slightly, and in South Bengal there were distinct indications of interaction between the two opposing wind currents, which gave rise to somewhat numerous and heavy local showers, but it was evident that the southerly winds would gradually drive back the abnormal north-westerly winds. On the 19th the advancing southerly current had made further progress, and at all, except a few stations in the west of Behar and Chutia Nagpur, winds had become southerly and south-easterly. The amount of interaction became larger, and in North Bengal heavy rain fell, but elsewhere rainfall was light and local. On the 19th, however, a rapid fall of pressure took place in the north-west angle of the Bay, and a new depression was formed, which, however, only passed over the land on the 24th and 25th and disappeared on the 28th. During the whole period of the existence of this feeble storm, the winds blowing in connection with it were very light. There was, however, the usual indraught towards the storm, and thus the rainfall-bearing current was deflected towards the depression, and the greater part of the province received only local showers during the existence of the storm at the head of the Bay, though the area in immediate proximity to the storm received more general and heavier rain. Directly, however, the feeble storm had passed inland, the mousoon current blowing from the Bay of Bengal commenced to increase in strength and to pass over the land, and on the 28th the wind velocity had strengthened at Saugor Island from 15 miles an hour on the 26th and 27th to 20 miles an hour on the 28th, white for the 24 hours ending 10 A.M. of the 29th the velocity had averaged 27 miles an hour. For the last two or three days of the week therefore the monsoon current blowing over the province was decidedly strong, and rainfall became general and in many cases heavy The weather conditions at the close of the month were in fact on the 17th; 20th, and 29th. decidedly favourable for the continuance of rainfall in Bengal, and more favourable than they had been awary previous time throughout the month.

Special generally, it may be said that the monsoon current blowing from the Bombay side during July has been abnormally strong throughout the month, and this has caused the

Bay of Bengal monsoon current to be deflected in a more westerly direction than is usual Hence the rainfall due to this current has been deflected towards the Burma coast, and particularly heavy rain has been reported along this coast, while the rainfall over Bengal has been correspondingly deficient.

been correspondingly deficient.

Bengal thus has been under the influence of no less than four distinct barometric depressions during the month, the formation and history of which may be shortly described

as follows :--

1 Feeble depression of 2nd to 8th July.—On the 2nd instant pressure became comparatively low off the Arakan coast, and winds showed a slight tendency to circulation along this coast. On the following day these indications of the formation of a feeble barometric depression or whirl were confirmed, and the depression was probably on this day near the centre of the Bay and south of a line joining Akyab and Gopalpore. On the 4th the whirl had developed to a sufficient extent to cause a distinct cyclonic circulation of winds over the whole of the northern half of the Bay, and on this day probably the centre of the whirl or feeble depression was to the west of the centre of the Bay, and to the east-south-east of Gopalpore. On the 5th it had distinctly developed and had advanced in a north-westerly direction, the centre being to the south of Saugor Island and about east-north-east of False Point. Not-withstanding that it had distinctly developed, it was still exceedingly feeble, and the wind velocities in connection with it were very small, though the circulation was completely cyclonic. On the 6th it had again advanced, and on this day apparently the centre was close to Saugor Island, but it was clear that it was not developing to any extent, but that it was rather becoming more feeble. On the 7th it had passed inland, but it had weakened to such an extent that it had almost disappeared, and on the 8th it had quite filled up. For the whole period of its existence the winds accompanying it, as judged by the coast stations were comparatively weak, but at sea it probably gave rise to strong winds and squally weather. In its advance it brought rather heavy rain, and on the 6th Balasore, Jellasore, Contai, Saugor Island, Devog, and other stations each reported about 2 inches of rain.

2. Depression of 9th to 18th July—On 9th July the pressure fell decidedly rapidly at some of the stations in Central Bengal, and a distinct barometric depression was formed

at some of the stations in Central Bengal, and a distinct barometric depression was formed over this area. The depression was accompanied by a decided cyclonic circulation of winds. On the 10th the depression had developed very rapidly, and had moved slowly in a westerly direction. On this day pressure fell rapidly at the stations in Central and Western Bengal and in Chutia Nagpur, the fall at some stations almost equalling 0.15", while many stations such as Calcutta. Burdwan, Bankoora, and Raneegunge, &c., showed falls considerably exceeding a tenth of an inch. Winds also decidedly increased in force, and there was again on this day a strong cyclonic circulation of winds round the centre of the feeble storm. The centre was near Burdwan, where a pressure of 29.361" was registered, and towards which point baric gradients were decidedly steep. The small storm was fed by a powerful monsoon current, and heavy rain was brought on both the 9th and the 10th to the districts affected by the storm. On the following day pressure fell rapidly at Allahabad and Benares, and the depression, which was on the previous day in West Bengal, had apparently been transferred to this district while on the 12th it had advanced into Bundlekund, and on the 13th into the north-east of

Rajputana, where it filled up.

3. Depression of 11th to 17th July.—On Monday, the 11th, also pressure began to fall off the east coast of the Bay, and this continued on the 12th, when pressure became decidedly low over South-East Bengal, and it was evident that a small barometric depression was forming either over the sea area just to the south of the Sunderbuns, or over the land area to the south of Jessorc. On the 13th a distinct depression was developed, and at 10 a.m. on this day its centre was nearly between Calcutta and Saugor Island. During the the same afternoon the centre passed only a short distance to the south of Calcutta in a westerly direction. This storm was small; but with a moderately steep gradient and pressure at Calcutta fell to about 29 3". On the morning of the 14th the small storm had passed into the Central Provinces and Central India. This storm again advanced in a westerly direction, and on the morning of the 15th it was near Hoshungabad. On the morning of the 16th the small storm had reached Hyderabad in Sind, and was disappearing across the Indus, while on the 17th it had disappeared over Beluchistan. The storm which appeared in South Bengal on the 12th had therefore a life history of from five to six days, and it travelled over a distance of from 1,500 to 1,600 miles quite unbroken; the direction of its movement was a little to the north of west. It was accompanied by a clearly marked cyclonic circulation of winds, but though the wind force at the land stations was only moderate, during its formation and advance very strong winds were blowing over the sea at the head of the Bay, and weather was decidedly squally, if not rather stormy, though at no time was the storm of any particular intensity.

Depression of the 19th to 28th July—On the 19th instant a rapid fall of pressure took place in the north-west angle of the Bay, the fall at False Point being 0.127". A distinct but feeble barometric depression was thus formed, the centre of which was to the south-east of False Point, and which was accompanied by a feeble cyclonic circulation of winds. This small depression was the principal feature in the meteorology of the last ten days of the month, and it continued to exist without intensifying to any material extent, and without any movement beyond a slight shifting of the centre from day to day up till the 24th. On the 20th the centre of the depression was apparently to the south of Sangor Island; on the 21st the centre of the wind circulation was between Sangor Island and Balasore, and on the 22nd the centre of the wind circulation was between Balasore and False Point.

多数,四次的基础的

On the 23rd pressure had fallen over the whole province, the fall being largest in the north-west angle of the Bay, and the small barometric depression which existed over this area decidedly intensified. The lowest pressure reported on this day was 29.518° at Balasore, and the centre of the depression appeared to be between this station and False Point. A very distinct cyclonic circulation of winds accompanied the very feeble storm, but wind velocities in connection with it were small. On the 24th pressure again fell generally over the province, the fall being very rapid in the north-west angle of the Bay, where at Saugor Island it amounted to 0.151°. This was produced by the further intensification of the depression, the centre of which on this day was decidedly nearer to the land and to Saugor Island than it was on the previous day, and on this date the centre appeared to to Saugor Island than it was on the previous day, and on this date the centre appeared to be almost equi-distant between Saugor Island and Balasore. Pressure at Saugor Island at 10 A.M. on the 24th was 29.391", and at Balasore 29.409". Winds again showed a very complete cyclonic circulation round the depression, and practically this circulation affected the wind directions at all the stations in the province. Wind velocities in the neighbour-hood of the disturbance, however, continued moderate only, though undoubtedly the weather over the sea area at the head of the Bay was decidedly squally. On this day the depression appears to have commenced to move in a north-westerly direction, and at 10 A.M. of the 25th it was in the extreme west of South-west Bengal, and passing into the south A.M. of the 25th it was in the extreme west of South-west Bengal, and passing into the south of Chutia Nagpur. On the morning of the 26th it had travelled towards Jubbulpur and Sutns, where on the 27th it rapidly diminished in intensity, and on the morning of the 28th it had practically disappeared. This small storm had therefore a life history of about eight days, of which for the first five it remained almost stationary, and it was only during the last two or three days of its existence that it moved in a north-westerly or west-northwesterly direction, gradually decreasing in intensity in its progress over the land.

These four depressions, it will be noticed, have all affected the central, western and south-western districts of Bengal only, and by the rainfall they have brought they have caused the rainfall of these districts to be heavier than they otherwise would have been, and thus many parts of these districts have received falls in excess of the normal, while considerable

tracts of the north and east of the province have received very deficient rainfalls.

Pressure.—The variations of pressure have been controlled to a great extent by the passage of the succession of depressions just described. For the first week of July the mean pressure of the province of Bengal was in excess of the normal by 0.019", while in Assam the excess was 0.015"; in the second week, as Bengal was under influence of two depressions, pressure was decidedly below the normal, the defects ranging from 0.123" at Burdwan and 0.113" at Calcutta, where these stations were fully influenced by the depressions, to a defect of 0.063" at Purneal. In Assam, too, the general defect was nearly 0.08". In the third week pressure was rather largely in defect at its commencement, while at its close it had become much more nearly normal, while in the fourth week pressure was again below the normal, the defects being largest at the stations affected by the depression, where at Saugor Island and Calcutta they amounted to about 0.06", while at Sibsagar and Purneah, which were unaffected by the depression, the pressure was almost normal. For the whole month the mean pressure has been below the normal at almost all stations, and taking only those stations into consideration from which means have been obtained for several years, the average defect in pressure of the province has been 0.017", while the extreme variations are from a defect of 0.037" at Calcutta, 0.032" at Chittagong, 0.028" at Saugor Island, and 0.027" at False Point to an excess of 0.007" at Purneah and 0.002" at These figures would therefore tend to show that pressure has been relatively low at the head of the Bay, and perhaps over the sea area, where one of the depressions remained stationary for several days.

Temperature.—The variations of temperature during the month have not been of great

importance, and the mean temperature of the various meteorological districts has in no case varied from the normal of the month by more than about half a degree, and thus while North and South Behar and East Bengal have recorded temperatures from 0.2° to 0.5° in excess of the normal, Orissa, South-West Bengal and Chutia Nagpur have recorded temperatures from 0.8° to 0.5° in defect of the normal, and in North Bengal temperature has been quite normal. For the whole province for July temperature has been on the average precisely normal. In Assam the mean temperature has been in excess of the normal Rainfall.—The causes which have affected the rainfall in Bengal during

have already been explained. The Bay of Bengal branch of the monsoon which has been blowing has on the whole been rather weaker than usual, but the Bombay granch blowing from the Arabian Sea has been of very great strength, and has swept across India to an abnormal extent, and has thus had the effect of deflecting the Bay of Bengal branch in a more westerly direction than usual. The rainfall from the Bengal current has been determined towards the Burma coast, and the greater part of Bengal (and particularly the eastern and northern districts, which depend almost wholly for their rainfall on this current) has received a rainfall rather largely in defect of the normal. This scarcity of rainfall has however been compensated for in some districts by the formation and passage of of rainfall has, however, been compensated for in some districts by the formation and passage of the four barometric depressions which have previously been described The districts which have been most affected by these depressions have been Southern and Western Bengal and parts of Orissa and Chutia Nagpur, and the distribution of the rainfall, as compared with the normal, exactly agrees with the area which has thus been affected. The rainfall in Bengal generally, owing to the deflection of the rain-bearing current, has been considerably below

the normal, but while this is the case, South-West Bengal has received a fall three per cent. in excess of the normal. In Chutia Nagpur the fall for the month has been seven per cent. in defect of the normal, and in Orissa the defect has been nine per cent. The defects in the other districts which have scarcely been affected by the passage of the depressions have been much larger, and thus in South Behar the defect has been equal to seventeen per cent. of the normal, and in East Bengal to twenty per cent. In the two northern districts the defects have been excessive, and thus in North Bengal the defect has been thirty-seven per cent., and in North Behar it has been no less than forty-one per cent. of the normal. If these various districts may be said to have an equal value in the calculation, then the average rainfall of the whole of Bengal for July may be said to have been equal to eighty-two per cent. of the normal.

The comparison of the actual rainfall of the various great divisions of the province during July with the normal is most accurately shown in the form of a percentage. The figures representing the rainfall for the month, calculated in this way, are included in the table below under the heading of July. This table really gives a condensed summary of the rainfall statistics of the present year up to date for each meteorological division, the first seven columns giving the actual rainfalls in each division in each mouth expressed as a percentage of the normal, while the eighth column of figures shows the actual rainfall for the first seven months of the year expressed as a percentage of the normal for the period; the figure 100 will therefore in this table represent a normal rainfall, a number larger than 100

an excess fall, and so on :--

Meteorological districts.	January.	Pebruary.	March.	April.	May.	June.	July.	Total actual rainfall of first seven months expressed as a percentage of the normal fall for the period.
Orissa South-West Bengal Reast Bengal North Bensal North Rehsr South Behar Chutis Nagpur	119 292 412 530 381 411 500	Nil. 2 14 2 Nil. Nil. Nil.	137 252 206 274 127 203	60 50 34 114 100 188 111	193 139 71 158 177 423 831	00 82 79 139 135 70 73	* 91 103 80 • 63 59 83 93	94 104 82 121 105 119 108

From the above table it will be seen that the districts in which the rainfall has been so largely in defect in July are those in which the falls were in large excess in the previous months; and that, taking the rainfall of the first seven months of the year into account, all districts, except East Bengal and Orissa, have received falls in excess of the normal, and that in North Bengal and South Behar the falls have been rather largely in excess, the excess

falls equalling about 20 per cent.

Taking up the rainfall of the Province more in detail, when compared with the normal for July, the province is clearly divided into three sections, and a tract of country which has received excess rainfall lies between two areas of decided defect. The district of excess rainfall may be roughly described as a band of country varying from about 50 to 100 miles in width, which starts from the Sunderbuns running northwards, and including the greater part of the 24-Pergunnahs district, then including parts of the Midnapore and Bankoorah districts, and the greater part of Burdwan and Moorshedabad. The band then suddenly turns towards the west and includes part of the Sonthal Pergunnahs, parts of the Monghyr and Gya districts, and a considerable part of Hazaribagh. There are also districts of excess falls in Cuttsck, Balasore and Chittagong. The excess falls in some of these districts are considerable, and in a good many instances exceed five inches, while at Tumlook in the Midnapore district the excess is 8.52 inches. On either side of this band of excess rainfall, the falls are all in defect, the district to the west and south-west of the excess region generally showing a defect of less than three inches, while to the east and north of the area of excess the defects are much larger, and the greater part of this area shows a defect exceeding three inches, and a large area a defect of more than five inches, while there is a small area in North Bengal represented by such stations as Julpigoree, Micklijunge and Buxa, and another area in South-East Bengal represented by Comilla and Fenny, which have received falls more than ten inches below the normal for the month. Taking the areas into consideration, only about one-fifth or one-sixth of the province has received an excess fall, while the remainder has been decidedly in defect.

The actual falls which have been received during the month have varied even more largely than usual, and while some stations in the province in North Bengal have received a fall of about 30 inches and upwards, and others in the extreme south-east have received a similar quantity, other districts in North Behar and one station in Cuttack have received falls of less.

than five inches during the month.

The districts which have thus received falls largely in defect of the normal are Pooree, Krishnagere, Jessore, Mymensingh, Tipperah, Furreedpore, all the districts in North Bengal and in North Behar, and all in South Behar, except the Southal Pergunnahs. In Chutia Nagpur Manbhoom has been also in decided defect.

The following table gives full data for the comparison of the actual and the normal rainfall of the month of July in all districts of the province. The figures are derived from the average and actual rainfall of the rain-recording stations in each district, due allowance or weight being given for the area which each station represents. This gives a more

1415 securate average than the arithmetical means given in the weekly and monthly meteorological tables. The first column gives the normal or average district rainfall as determined from the rainfall observations of the past 15 years. The second column gives the actual district rainfall as determined from the weighted actual rainfalls of the month at the report-

ing station in each district. The third column expresses the ratio of the actual district rainfall of the past month to the normal rainfall as a percentage. The fourth column gives

the same information as the third column in a slightly different form. It states as a percentre how much the district rainfall of the month varied in

normal rainfall, and	l is hence the difference betw	reen the number	rs in the	or defect third col	from the umn and

The average fall of the corresponding period				h w	od Thermores

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph. The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet The barometer readings are corrected approximately to those of the standard Newman's No. 86,

above the ground.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the formerly at the Surveyor-General's Office. Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. o overcast, g gloomy, d drizzling rain, p passing temporary showers, t thunder, < lightning, a dew.

A. PEDLER,

for Offg. Meteorological Kenorter to the Govt. of Irdia.

The variations are negative when the mean for the week is less than the corresponding normal mean, and positive, when greater.

geloud amount represents the part of the say covered, the whole sky being constead by 10. Under the need District observations of rainfall, the normal mean greater of the district are the numerical averages of the rainfall return received in the district, i.e., from the total rainfall at the sun-division

### SUPPLEMENT TO THE CALCUTTA GAZETTE, AUGUST 10, 1887.

tatement of Rainfall in Bengal for the week ending Friday (6 p.m.), the 5th of August 1887.

Explanation.—indicates that no rain has (alien. If the return for any day has not been received, the corresponding spaces in the total rainfall columns are left blank.

Calcutta, the 9th August 1887.

SUMMARY OF THE RAINFALL AND METEOROLOGICAL OBSERVATIONS BENGAL, AND OF THE METEOROLOGICAL OBSERVA-TAKEN IN TIONS TAKEN IN ASSAM, FOR THE WEEK ENDING FRIDAY, 5TH OF AUGUST 1887.

At the close of the previous we k, a small cyclonic storm, which had formed at the head of the Bay, had advanced inland through South-West Bengal, and had filled up and disappeared near Sutna on the 28th. In the rear of the storm a very strong monsoon current appeared near Sutha on the 20th. In the real of the storm a very strong monsoon current set in from the Bay of Bengal, and ou the 30th, the first day of the present week, conditions were decidedly favourable for general rainfall in Bongal. The strength of the monsoon current blowing at the head of the Bay may be inferred from the velocity of the wind as registered at Saugor Island, and on the 30th wind velocity was 23 miles an hour; on the 31st it was 21 miles an hour, on 1st August it had fallen to 12 miles, but on the 2nd it rose to 30 miles an hour, thus showing that a very strong monsoon current was passing over the province. Practically speaking, a strong monsoon has been blowing over the province for the whole of the week, and the only change in these meteorological conditions which has to be registered is the alternate preponderance of one or other of the two branches of the monsoon current. At the commencement of the week the westerly element in the wind directions, that is, the Bombay current derived from the Arabian Sea, was gradually strengthening, and this continued on the 30th and 31st of July. On 1st August, however, the south-easterly and easterly winds from the Bay of Bengal commenced to increase in strength, and gradually drove hack the westerly winds, and at the point where the two currents met, there was a slight, but distinct, cyclonic circulation set up, which continued on the 2nd. On the 3rd of August the Bombay current again strengthened, and drove back the casterly winds, and this continued up till the close of the week. Owing to the interaction of these two wind currents, conditions generally have been decidedly favourable to rainfall over the whole province, and practically the whole of the Province of Bengal has received a rainfall in excess of the normal. The week has thus been characterised by very simple meteorological conditions, and for almost the first time during the present monsoon season, conditions have been nearly normal for general rainfall, and the province has been free from such abnormal conditions as the formation and passage of barometric depressions.

-The changes of pressure, which have accurred during the present week, are of small importance. They have consisted merely of the usual oscillating movements which always occur even when the atmosphere is in a normal condition, and thus on the 30th of July pressure was rising slowly, and on 31st July and 1st August the rise was succeeded by a slow fall. Pressure again increased on the 2nd and fell on the 3rd and 4th, and on the 5th it was again rising. These changes have therefore not produced any very material alteration in the pressure distribution, and pressure has been above the normal by excess pressures are, however, recorded usually in Orissa and South-West Bengal, and at False Point the average excess for the week equals 0.069" and at Calcutta 0.057". In Assam pressure has been above the normal by amounts which average about 0.02" to 0.03". small amounts in all districts, the general excess being about 0.03" to 0.05". The largest

Temperature.—The variations of temperature from day to day have been of comparatively little importance; but owing to the heaviness of the rainfall, temperature has generally been decidedly lower than the normal in most districts. The only district where this has not been the case is Orissa, which shows a temperature no less than 1.4° in excess of the normal, but in this district rainfall has been comparatively light during the week. In all other districts temperature has been below the normal by amounts varying from 0.2° in East Bengal to 1.5° in Behar. The mean temperature of the whole Province of Bengal for the week has been 0.7° in defect of the normal. In Assam also temperature has been

in defect of the normal by 0.8°.

Rainfall—Has been fairly general throughout the week, and in most districts fulls have occurred on from five to six days ont of the seven. South-West Bengal, however, has only received rain on an average of 4.4 days, and in Orissa the number of rainy days has only been three. The falls which have been received have also been heavy: thus in North Bengal the average fall is about five and a half inches; in East Bengal it has exceeded five inches, and in South-West Bengal, South Behar, and Chutia Nagpur the falls have averaged In North Behar the fall has been rather less than three inches, and hetween 4 and 5 inches. in Orissa it has been less than one-and-a-half inches. Expressed as a percentage of the normal fall for the weck, the actual average amounts received in each meteorological district become-Orissa 48 per cent, South-West Bengal 136 per cent., East Bengal 121 percent., North Bengal 182 per cent., North Behar 119 per cert., South Behar 173 per cent., and Chutia Nagpur 130 per cent., or, taking each of these neteorological districts as having an equal value in the calculation, the actual fall over the whole province during the week has equalled 130 per cent. of the normal for the period.

Taking up the rainful rather more in detail, the following districts have received extremely large excess fulls during the week:—in South-West Bengal, Banksorah, Burdwan and Rangunge; in North Bengal, Dinagepore, Rungpore, and Julpigoree; in Behar, Chupra, Buxar, Dehree, Gva Bankipore, Bhagulpore and Nya Doomka; and in Chutia Nagpur, Lohardugga and Hazar bagh. On the other hand the following districts have received comparatively

small falls :- Prorec, Cuttack, Furreedpore, Dacca, Maldah and Motihari.

# 1424 SUPPLEMENT TO THE CALCUTTA GAZETTE, AUGUST 10, 1887.

In Assam the following amounts of rain have been received during the week:—Sibsagar 39 inches, Dhubri 4'79 inches, and Silchar 4'78 inches.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Friday, the 5th of August 1887:—

The total fair of rain from 31st July to 6th August 1887 ... 3.59

The mean temperature and humidity are obtained by applying to the mean of the 10n, 16h, and minimum readings a correction dependent on the range, and derived from the hourly observations at the Surveyor-General's Office, Chowningnee, in past years.

METROBOLOGICAL OFFICE, INDIA;

A. PEDLER,

The 8th August 1887.

for Offy. Meteorological Reporter to the Goot. of India.

#### MEMORANDUM.

THE number of deaths recorded during the month of March 1887, in the districts of Bengal under registration, amounted to 105,767 among a population of 66,163,884, yielding a death-rate of 19.08 per 1,000, as opposed to 18.36 per 1,000 during the preceding month, and 18.48 per 1,000 during the corresponding month of the past year.

2. The following districts returned the highest proportions of deaths:—

Districts.		Ratio per mille.	Districts.			latio per milla
Backergunge		39.00	Rungpore	•••		27.96
Puri	•••	35.40	Birbhum	•••		27.36
Jalpaiguri	<b></b> .	33.84	Balasore	•••	•••	32.80
Dinajpur	•••	29.64				

In comparison with the mortality during the corresponding month of the preceding mear, the death-rates from small-pox, fever and the maladies coming under the head of "Other Causes" presented no noticeable differences, and those from cholera, bowel-complaints and injury were stationary.

					nano per m	itte during-
					March 1887.	March 1880,

OFFICE OF SARITANY COMMISSIONER FOR BENGAL,

#### MEMORANDUM.

THE returns from the principal Municipalities in Bengal, for the week ending 23rd July 1887, disclose the following results:—

1. That the birth-rate in these Municipalities stood at 16.5 per 1,000 of population,

- ngainst the same proportion in the preceding week ending 16th July, and the death-rate at 29.2 against 28 per 1,000, indicating improvement in the registration of the events.
- 2. That the highest proportion of births was returned from the Comillah Municipality, viz., at the rate of 38.5 per 1,000 of population, and of deaths from the following Municipalities:—

	$\mathcal{D}_{c}$	aths.			$oldsymbol{Deaths}.$								
				Ratio per mills.	ı				:	Ratin per mille.

#### PROGRESS OF THE EDEN SANITARIUM, DARJEELING.

#### MUNICIPAL DEPARTMENT-MEDICAL.

Calcutta, the 9th August 1887.

#### RESOLUTION.

#### READ-

The Report on the working of the Eden Sanitarium, Darjeeling, for the year 1886, and the reports for the three previous years.

The Eden Sanitarium had its origin in the following note recorded by Sir Ashley Eden, Lieutenant-Governor of Bengal, on 11th June 1881:—

Now that the Tramway has been brought into Darjeeling, and that the Sanitarium is placed in direct and easy communication with Calcutta and with most of the civil stations of Bengal, and now that tea-planters from the unhealthy Docars and the Terai can reach this station easily and without exposure in a few hours, the question of providing a good, well-organized European hospital for the comfortable reception of patients and convalescents from the plains, forces itself upon the consideration of Government.

I have already received representations regarding hospital accommodation for sick persons and convidescents connected with the Eastern Bengal Railway, the Northern Bengal Railway, and the Darjeeling Tramway; and it appears that if nothing else be done, some arrangement must at once be made, in communication with the Managers of those lines, for supplying a great and growing need of this sort. But as Darjeeling increases—and it is now increasing daily—we shall have to provide hospital accommodation for the permanent residents of the station and district. There are the tea-planters and their assistants scattered about all over the district, some of them placed in very unhealthy situations. Cases in which young men are brought in suffering from fever of a severe type for medical attendance are very common, and a difficulty is frequently found in providing them with accommodation during their illness. The hotels and boarding houses are generally full, and a sick person is not always a welcome inmate in a public establishment of that sort; and it is feared that many useful men have

JPPLEMENT TO THE CALCUTTA GAZETTE, AUGUST 17, 1887.

lost their lives in the Dooars and the Terai, who would at once have come up for treatment if a comfortable hospital existed for their reception. Then, again, there are many cases of persons residing in outlying plantations, who desire attendance during their confinement, who can only obtain it at an enormous expense, altogether beyond their means, and who are not within reach of the Civil Surgeon, and cases are not unknown in which it has been found impossible to procure accommodation for such cases here on any terms.

But besides these there are frequent cases in the mofussil stations of persons pulled down after severe sickness or suffering from obstinate disease, who are unable to take the change to sea which richer persons could afford, but for whom a change and careful medical attendance are absolutely necessary. There are also persons who could undergo operations

in the cool climate of the hills, which they could not bear in the heat of the plains. Lastly, there are patients convalescing in the Calcutta hospitals, to whom a change to a convalescent ward in Darjeeling would be of the utmost importance. It therefore seems to me that as a European hospital has to be built, we should not keep in mind only the requirements of Darjeeling, but of the province generally. It will in the long run be a saving to Government if a number of its servants can be sent up here for a

or to linger on in a condition of inefficiency from ill-health at stations in the plains. The experiment of paying wards for first-class patients has been tried on a small scale in Darjeeling, as also in Calcutta, and with the greatest promise of success.

I think that the best plan of dealing with the matter will be by appointing a Committee

few weeks' treatment in a European climate, instead of having to take leave to Europe

to consider the whole subject—the site, the classes and quantity of accommodation, the rate of charges, the mode of admission, etc., etc. I accordingly appoint the following gentlemen to be members of a Committee for this

purpose :-The Hen'ble A. Mackenzie, President. Colonel Trevor.

The Deputy Commissioner of Darjeeling.

Mr. Christie. They should consult the present Hospital Committee, who have already given the subject their attention.

Mr. Martin. Dr. Birch.

There are several sites which suggest themselves-

Vale Pleasant, which could at once be made available for the purpose. It has every

advantage except that the houses are entirely out of repair. It has a bright look-out, and is near the Mall. There are three houses; one has seven rooms with ample bath-room accommodation, which could be made into a hospital for paying-patients of the first class.

Then there is one large ward in a separate building which would do for patients of the third class, who would be inmates of a general ward. It is airy, light, and has a teak-boarded floor; it would hold probably 14 or 16 beds at least. There is a row of little separate rooms

attached to this, which would be very comfortable for second-class patients. And there is the Retreat, a very comfortable four-roomed cottage, which would be available for special cases requiring quiet, such as midwifery or operations.

This site, with the buildings, is, I believe, valued at Rs. 10,000, and I should be glad to transfer it to the Hospital Committee, and to make a grant towards its repair.

buildings would require a new roofing, and a good deal is required in the way of repairs. Proper servants' quarters are required, and a room for the hospital assistant would also be neces-But after inspecting the buildings, I am afraid that they are so much out of repair

that practically they would have to be rebuilt; and if this is to be done, the money will be better spent in constructing an entirely new hospital, on the most improved principle, than in repairing and adapting old buildings-never a satisfactory process. 2. Then there is the Bhootea School site. A magnificent site might be secured by pulling down the old Post Office, now used as a Bhootea School, and cutting down the hill

12 or 14 feet. Upon this site a really good two-storied hospital might be constructed, capable of providing between 50 and 60 beds. Of these, about 15 or 16 probably should be separate rooms for Government officers and other first-class patients, 20 might be for second. class, and 20 for third-class patients. 3. Then there is the site at the back, or at the south, of the Bengal Office; but this

is perhaps bringing the hospital too much into the station. There is a Government site at Lowland's Place; but this is perhaps too far down

the hill and is not very accessible; otherwise it is a very fine site. I have indicated above the various classes which would probably have to be accommo-

I should say that-First-class patients should pay Rs. 2 a day, making their own arrangements for

Second-class patients should be men and the families of men drawing, say, less

than Rs. 800 a month in salary, or an equivalent income from other sources. The charge for them might be Rs. 8 a day including diet. They should have a ward to themselves, or rather two wards - one for males, the other for females.

Third-class patients should be men of official or other incomes of less than Rs. 100 a month. They should pay probably Rs. 1-4 a day including diet, on the scale of the General Hospital. They must be inmates of the general ward set apart for their sex.

When patients of the third class are servants of a State or Guaranteed Railway, or public company or of a public department, they should be received only on a guarantee that their cost at the fixed rate per diem will be paid or recovered by their employers or the head of the department, who will make arrangements for recovering it when necessary from the patient. Where convalescents of the third class are seut up from Calcutta by the public hospitals, the hospitals must be responsible for their fees here.

I leave, however, the rate of fee to be settled by the Committee, but have merely

suggested these rates for their guidance.

It seems to me to be of great importance to give the scheme an immediate trial, and I am therefore willing to make a grant of Rs. 2,000, which should enable the Hospital Committee to adapt the whole of the Police Hospital at once for the reception of European The Executive Engineer could arrange for accommodating the few police patients there are elsewhere. A proper establishment would have to be provided and eventually paid for by the Hospital Committee. I think a good English nurse or matron essential. A trustworthy woman could probably be induced to take the place in this climate on very favourable terms. If no one is available locally, the Ladies' Committee at Calcutta might find some one suited to the place. I do not wish the hospital to be a charity hospital. It should

pay its expenses, the building having been once provided and equipped. I am disposed to give a grant from Provincial Services of Rs. 50,000 to Rs. 60.000 for the purpose of establishing the hospital provided such a hospital is erected as shall afford accommodation to invalids from all parts of the Lower Provinces. For a merely local hospital, or for accommodation for the railway servants, I could not sanction more than half the amount. I gather from the Civil Surgeon that he thinks a considerable sum might be raised from subscription for such a useful purpose as this. The fees should be so fixed that they afford a reasonable prospect of the hospital covering its expenses. Five or six first-place five a reasonable prospect of the hospital covering its expenses. Five or six first-class, five second-class, and twolve or fourteen third-class patients ought to cover every expense.

After the report of the Committee had been considered, the following

Resolution was issued under Sir Ashley Eden's orders :-

In the note which is appended to this Resolution, the Lieutenant-Governor stated

his reasons for thinking that Government should take measures to provide a European hospital at Darjeeling for the reception of patients and • Hon ble A. Mackenzie, President.
Colonel Trevor, B. R.
The Deputy Commissioner of Darconvalescents from the plains, and appointed a Committee to examine the subject, and to submit proposals for earrying the scheme into effect. The Lieutenant-Governor expressed jeeling.
Mr. Martin, Superintending Engineer.
Dr. Birdh,, Civil Surgeon.
Mr. Christie, Executive Engineer. his willingness to make a grant from Provincial Services of Rs. 50,000 to Rs. 60,000 for the establishment of such a hospital as would afford accommodation to invalids from all parts of the Lower Provinces. 2. The Committee, after careful consideration of the different sites available, recommended that the site of the Bhoteah School should be adopted. They have considered a

rough plan of a two-storied hospital to accommodate 16 first class, 20 second-class, and 20 third class patients at an estimated cost of about Rs. 52,000, and they propose that the plans and estimates should be completed by the Public Works Department for submission to the Lieutenant-Governor. They are of opinion that little difficulty would be found in raising public subscriptions to provide for the equipment of the hospital and the maintenance of the poorer classes of patients, and they recommend that measures should be taken to ascertain what assistance may be expected from the public.

3. The Lieutenant-Governor approves the suggestions put forward in the Committee's report. The Public Works Department will be requested to take measures at once to level. the Bhoteah School site, demolishing the old buildings and cutting down the hill so as to secure sufficient space for a substantial structure of the dimensions proposed. Plans and estimates of the work should be prepared with as little delay as possible, and as soon as they have been approved by the Lieutenant-Governor, a special grant will be made of the amount required for the construction of the building. Meanwhile a grant of Rs. 2,000 is sanctioned to admit of the Police Hospital being at once adapted for the reception of European patients, so that accommodation may be available during the current season.

The Commissioner of the Division will be desired to submit suggestions regarding

4. The Commissioner of the Division will be desired to submit suggestions regarding the constitution of the governing body of the new institution. It is necessary that a Committee should at once be formed with authority to receive subscriptions. The Committee will also have to consider various questions connected with the administration of the hospital, and to submit, for the approval of Government, a scheme for its general management. As recommended in paragraph 8 of the Committee's report, the Chamber of Commerce, Calcutta, the Trades' Association, and the Agents of the East Indian and Eastern Bengal Railways, will be invited to say to what extent the Committee may expect donations for furniture now, and subscriptions for other purposes hereafter. The Surgeon General will be requested to ascertain to what extent advantage would probably be taken of the hospital by the different classes of patients, and to offer suggestions regarding the system under which the officers in charge of the metropolitan hospitals should be authorized to transfer patients to the Darjeeling Hospital.

2. A Committee of Management was subsequently appointed, and the building was commenced in November 1881, but owing to the delay on the part of the contractors, it was not ready for occupation till the 22nd April 1883, when it was formally thrown open to the public. Meanwhile a temporary hospital was opened in a building adjoining the municipal dispensary at Darjeeling, partly at the cost of Government and partly from funds raised by private subscription, and from the proceeds of a bazar held in Darjeeling during the Doorga Poojah holidays of 1880. The accommodation provided in the temporary hospital was of a very limited character, but so great was the demand for it that the public appreciation of such an institution was placed beyond doubt.

On the opening of the Sanitarium, several patients were transferred to it from the temporary hospital, which was then closed, and their number was largely added to by patients and convalescents from the plains, who were only awaiting the opening of the Sanitarium. The Sanitarium being an institution where only paying patients are received, and being, therefore, unlike any ordinary hospital, the rules of the institution are of a special character. A liberal provision in the rules is that in all cases where this is desired, a relative or attendant is admitted with the patient, and no restriction is put upon

the stay of such relative or attendant.

The following statement shows the number of patients and their relatives and attendants admitted into the Sanitarium during the past fouryears : -

Patients Relatives and attendants	•••	1893. 88 33	1884. 153 73	1885. 192 68	1886. 273 120
Total	•••	121	226	260	393

Infants in arms, of whom several have been admitted, are not included in the above figures. The steady increase in the number of admissions is an indication of the growing popularity of the institution, and it is hoped that as the benefits which it is capable of conferring on invalids become generally known, it will be more largely resorted to. Patients come to the Sanitarium not only from all parts of the Lower Provinces of Bengal, but from Assam, the North-Western Provinces, Burman, and the Straits Settlements.

Experience having shown that the Sanitarium is only required by the public from about the beginning of March to the end of November, this period has been constituted the working season of the institution. During the winter months, December, January, and February, the Sanitarium is practically closed to the public, and with the view to economy the establishment is reduced to a minimum. Admission is, however, not denied to patients at this season, and as a matter of fact there have been on an average three patients in the

Sanitarium during the winter months in each of the past three years.

6 The daily average number of persons in the Sanitarium during the working season was 18.54 in 1883, 25.87 in 1884, 38.22 in 1885, and 28.96 in These figures vary according to the length of stay of the patients. Thus it is that though the total number of admissions in 1885 was less than in 1886, the daily average was greater. The average stay of each patient in the Sanitarium was 39.2 days in 1893, 31.20 days in 1884, 28.04 days in 1885, and 20.26 days in 1886. The average, though gradually lessened since 1883, is still high in comparison with the average stay of patients in hospitals in the plains. This, as explained by the Committee of Management, will always be the case, as the Sanitarium is more apt to get chronic cases such as phthisis, paralysis, general debility and anæmia, which require a lengthened stay in a good climate before any real improvement is effected. Many cases of phthisis have been treated at the Sanitarium, and in nearly every instance great benefit has been derived by the patients. Experience has shown that the climate of Darjeeling is specially suited to persons suffering from this complaint.
7. The following statement shows the number of patients treated at the

Sanitarium during the last four years and the results :-

	PATIENTS TREATED.		TED.	Total,	Cured.	Relieved or	Discharged	Died.	Benarie.

The mean temperature of the seven days

The total fall of rain from 7th to 13th August 1887

The total fall from 1st January to 13th August 1887

The average fall of the corresponding period for 24 years, S. G.'s Office .. 40.27 The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, nd from observations made at 6h, 10h, 16h and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. hermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet bove the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, ormerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula. The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. o overcast, g gloomy, d drizzling rain, p passing temporary showers, a dew.

The average fall of the corresponding period for 24 years, S. G.'s Office ..

tion. Indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns the corresponding spaces in the total rainfall columns are left blank.

1457

# SUMMARY OF THE RAINFALL AND METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE WEEK ENDING FRIDAY, THE 12TH OF AUGUST 1887.

The meteorological corditions prevailing over the province for the previous week were almost normal for the rainy season, and a fairly strong monsoon currenthad been blowing, which had given rise to good general rain. The two branches of the monsoon current had alternately increased and decreased in strength, and on the 5th the province was about equally influenced by the current blowing from the Bay of Bengal and by the Bombay monsoon current, and westerly winds from the Arabian Sea current were blowing in Chutia Nagpur and South Behar and over parts of South-West Bengal and Orissa. On the 6th the monsoon current blowing from the Bay of Bengal commenced to increase in strength, and the interaction between the two currents over the central parts of the province produced a distinct cyclonic circulation of winds over part of Behar, and also produced more or less disturbed weather generally over the province, and rather heavy and general rain was reported. On the following day there was a slight increase in the strength of the westerly monsoon current, but otherwise conditions were unaltered, and again rainfall was general, though the amounts received were rather irregular. On the 8th there was a distinct tendency to the formation of a cyclonic circulation of winds over the central parts of the province, and rainfall continued general in all districts, and also rather heavy, except in the south-western districts. Conditions remained practically unchanged on the 9th, and rainfall continued, and on the 10th a great decrease in the strength of the westerly current took place, and rather strong south-easterly and easterly winds prevailed at almost all stations. On this day also general rainfall was reported, and very heavy falls were received in some of the districts of North Bengal and North Behar. On the 11th similar conditions as to the direction and intensity of the monsoon current obtained, but the area of rainfall commenced distinctly to contract, and parts of the east and north of the province became to a great extent rainless. On the 12th the westerly element again commenced to make itself felt slightly, but it was evident that both branches of the monsoon had become decidedly weaker as rain-bearing currents, and on this day the area of rainfall again rapidly contracted, and the greater part of the province received little or no rain.

It will thus be seen that the meteorology of the week has again been of very simple nature, and that a good monsoon current has been blowing over the province throughout the week: first one branch of the current predominating, and then the other, but at the close of the week the two currents were rapidly decreasing in force as measured by the amount of rainfall received.

Pressure.—As is usual when the conditions of the atmosphere are nearly normal, the varations of pressure have been of a more or less oscillating nature, but, with the reduction in the strength of the monsoon current blowing over the province, these oscillations have had an upward tendency, and pressure at the close of the week was very decidedly above the normal. For the first two days pressure generally rose, it then fell for one or two days, and rose generally for the remainder of the week, and on the 12th the average pressure was decidedly more than a tenth of an inch in excess of the normal, and at some stations, such as Purneah and Durbhanga, the excess was larger than 0.17." Taking only those stations into consideration from which observations have been received for a considerable number of years, and which therefore furnish reliable averages, the mean pressure of the whole province of Bengal for the week may be said to have been 0.058" in excess of the normal, while the extreme variations are from an excess of 0.089" at Durbhanga to about 0.04" in the extreme west of the province. In Assam the mean pressure has also been in excess of the normal by 0.057", and the smallest excess is at Silchar, where it equals 0.047", and the largest at Sibsagar, where it is 0.067".

Temperature—Variations during the week have been of little importance, but owing to the heavy rainfall the mean temperature has been below the normal in all districts. The largest defects are in North and South Behar and in Chutia Nagpur, where they range from 2° to 2½°; in North Bengal the defect is 1·1°, while in East and South-West Bengal and Orissa the defects are less than 1°. For the whole province of Bengal the mean temperature has been below the normal by 1·4°. In Assam also temperature has been below the normal by an average amount of 1·5°.

Rainfall.—The daily distribution of the rain has already been referred to, and with the

general and rather heavy falls that have occurred, rainfall has been in excess of the normal over the greater part of the province. Compared with the normal fall for the period, and expressed as a percentage of this amount, the actual falls in each meteorological district will become in Orissa 85 per cent.; in South-West Bengal 105 per cent.; in East Bengal 95 per cent.; in North Bengal 109 per cent.; in North Behar 153 per cent.; in South Behar 126 per cent, and in Chutia Nagpur 159 per cent. Taking each of these districts to have an equal value in the calculation, the actual average rainfall of the whole province for the past week has equalled 119 per cent. of the normal. Taking up the rainfall more in detail, the following are the districts which have received very heavy rain, that is amounts largely in excess of the normal:—Bankoorah, Moorshedabad, Chittagong, Dinagepur. Rungpur,

Purneah, North Bhagulpore, Durbhunga, Chumparun, Shahahad, Gya, Sonthal Pergunnahs Hazaribagh and Chyebassa; while the following have received decidedly defective falls:—Balasore, Midnapur, Burdwan, Burrisal, Furreedpur, Bogra, and Pubna.

A few very heavy falls have been reported during the week, and thus on the 10th, Darjeeling received 6 inches, and on the 7th Buxar in the Darjeeling hills district reported the excessive fall of 16:10 inches. At many stations falls in excess of three inches have been

received on single days, while in several instances four and five inches have been recorded. At the Assam stations the following are the amounts recorded during the week :- At

Dhubri 5.61 inches, at Silchar 5.01 inches and at Sibsagar 4.65 inches.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Friday, the 12th of August 1887 :-

METROROLOGICAL OFFICE, INDIA;

A. PEDLER.

The 15th August 1887.

for Offg. Meteorological Reporter to the Goot, of India.

the month of April 1887, are the following:-

1. That 126,212 persons died among a population of 66,163,884, representing a casualty-rate of 22.80 per 1,000 per annum, against 19.08 per 1,000 in the preceding month, and 20.88 per 1,000 during the corresponding month of the past year, indicating, as compared with both the periods, a considerable improvement in the registration of deaths.

2. That the highest death-rates were reported to have occurred in the following

districts :-

Districts.		Districts.						
			uille.			·	Ratio per mille.	
Backergunge	•••		17:88	Maldah	•••	•••	28.20

#### MEMORANDUM.

THE table annexed to this memorandum indicates-

- 1. That during the week ending 30th July 1887, the birth and death-rates of the principal Municipalities in Bengal amounted to 21.9 and 39.1 per 1,000 of population, respectively, as opposed to 16.5 and 29.2 per 1,000, respectively, in the preceding week ending 23rd July, showing a very considerable increase in the registration of both the events,
- notably of deaths.

  2. That the following Municipalities returned the highest proportions of births and deaths:—

•	R	irths.		Ratio per		Dec	a <b>ths</b> .		Ratio per
Patna	•••	•••	•••	64.1	Patna	•••	•••	•••	124.0
Comillah		•••	•••	30.8	(7ya	•••	***	•••	69.7
Puri	•••	•••	•••	29.4	Puri	•••	*	•••	54.6
					Arrah		•••	•••	46.7
				į	Suburbs of Ca	ilcutta	•••	•••	35.6
					Beaulealı Purnezh	•••	•••	•••	34.1
					Miduapore	•••	••• ·	•••	31·1 31·0
				- 1	Bhagulpore	•••	•••	***	30.8
					Scrampore		•••	•••	29.4

3. That, contrasted with the results of the preceding week, it appears that there occurred much increase of mortality from fever, the discases classed under the head of "Other causes" and bowel-complaints, in the order named; fractional increases in fatal results for cholera and injury; and no variation in fatality from small-pox:—

Ratio per mille during the weeks ending-

							<u> </u>
						301h July 1887.	23rd July 1987.
	Cholera	•••	•••	•••	•••	8.0	7.4
	Small-pox	•••	•••	•	•••	·1	1
	Fover	•••	•••	•••	•••	14.2	10.3
	Bowel-complaints	•••	•••	•••	***	5.1	3.2
	Injury	***	•••	•••	***	•7	•3
	Other causes	•••	•••	***	•••	11.0	7.5
4	Mhat mhile the	following	1/:	aimalitiaa	arhibitad	onumiananal <del>u</del>	high montality

4. That while the following Municipalities exhibited conspicuously high mortality from cholera, fever and the maladies classed as "Other causes," in the rest of the Municipalities no noticeable severity from the other diseases, indicated above, occurred, excepting in l'atna, where 13-3 per 1,000 of the population died from bowel-complaints:—

		F	ever.		Other	Causes.	
3	Ratio per millo.					R	stio per mille.

SUPPLEMENT TO THE CALCUTTA GAZETTE, AUGUST 17, 1887.

1468

# General remarks on the fluctuation of principal staples carried over the East Indian Railway during the month ended 30th June 1887.

# INCREASES.

Coal and coke. - There was an increase in both upwards and dawnwards despatches; that in the former was due to demands by the Public and Foreign Railways. The downward increase may be ascribed to the facilities afforded by the new route over the Jubilee Bridge; a considerable quantity was despatched to stations on the Eastern Bengal State Railway and to

Sealdah. Rice (husked and unhusked). - The reason for the increase in this commodity is much the same as that given in previous reports, namely, full stocks at stations and high prices prevailing up-country, Other rain and spring crops.—The increases were principally from stations on the Allahabad district to meet demands at

Howrah and also local requirements. Lac. - This increase can be accounted for in no other way than that the traffic in June 1886 was very poor. Railway Material, Foreign .- Due to despatches from Howrah for the Oudh and Robinkund and Indian Midland Railways,

and from via Jubbulpore for the latter system only.

# Cotton.—The cotton season closed at about the middle of May 1887, somewhat earlier than in 1886, hence this decrease,

Turmeric.—This small decrease may be attributed to competition by river steamers and to the diversion by the Bengal and North-Western Railway. Piece-goods, European .- Due to slack domand, which is usual at this time of the year.

DECREASES.

Wheat .- The decrease is attributable to a bad crop, sudden collapse in the home markets, and to dealers holding back for better prices. Grain and Pulses. The decrease was principally in the despatches from the Punjab owing to the produce being required

for local consumption, and to heavy despatches from Cawapore in 1886 to meet a demand in Calcutta partly for shipment to Madran, Iron. - The decrease was due to a falling off in the despatches from Howrah, whence considerable quantities of machinery were sent to Campore in 1886.

Opium. - Due to the arrangements made by the Government Opium Department.

Salt.-This decrease is assignable to the diversion from this system of the Sambhar salt by the Bombay Baroda and Central India Railway to Cawapore.

Sugar, refined and unrefined .- There was an increase in the weight carried attended with a decrease in earnings, and this is due to the following causes: -

(1).—Better crops in the North Western Provinces.

(2) .- Cheaper market rates up-country, which deterred sales of Shalmbad produce.

(3) .- A poor crop in the Shahabad district.

Tobacco. - This decrease is attributable to bad crops in Tirhoot.

Seeds .- Due to low prices quoted in Calcutta and stocks being kept back for a rise in the market prices.

N. St.L. CABTER, Traffic Manager.

TRAFFIC MANAGRE'S OFFICE, JAMALPUR, the 9th August 1887.

# Weekly Return of Traffic Receipts on Indian Railways.

#### No. 3870A.

GENERAL .- The 6th August 1887 .- Baboo Doorga Churn Ghose, Sub-Deputy Collector, Chittagong, is vested with the powers of a Deputy Collector under Regulation IX of 1833.

The 10th August 1887.—Moulvie Syed Wajid Hossein, Special Butwara Deputy Collector,

Mozufferpore, is transferred to Patna.

Moulvie Majibar Rahman, Special Butwara Deputy Collector, Patna, is transferred to

Mozufferpore.

The 11th August 1887 .- Baboo Bangsidhar Rai, Deputy Magistrate and Deputy Collector, Moorshedabad, is allowed leave for two months, under section 72 of the Civil Leave Code, with effect from the 10th instant.

Baboo Dwarka Nath Sen, Deputy Magistrate and Deputy Collector, on leave, is posted to the Sudder station of the district of Moorshedabad, during the absence, on leave, of

Baboo Bangsidhar Rai, or until further orders.

In modification of the order of the 1st ultimo, Baboo Rakhal Das Haldar, Deputy Magistrate and Deputy Collector, is allowed furlough from the 8th July last to the 20th December next, inclusive, under section 132, chapter X of the Civil Leave Code.

Baboo Nilkant Sarkar, Assistant Magistrate and Collector, Pubna, is vested with the

powers of a Deputy Collector.

The 13th August 1887.—Mr. G. E. Mauisty. Officiating Magistrate and Collector, Shahabad, acted in the first grade of Joint-Magistrates and Deputy Collectors from the forenoon of the 7th to the afternoon of the 26th April 1887, and from the forenoon of the 27th June to the afternoon of the 5th July 1887.

Mr. W. M. Clay, Magistrate and Collector, Khoolna, is allowed furlough for one year, under section 50, chapter V of the Civil Leave Code, with effect from the 28th October 1887, or such subsequent date as he may avail himself of it.

Baboo Umesh Chunder Scu, Officiating Deputy Magistrate and Deputy Collector, Dacca, is transferred to the Sudder station of the district of Moorshedabad.

Baboo Abinash Chunder Sen, Officiating Deputy Magistrate and Deputy Collector, Moor-

shedabad, is transferred to the Sudder station of the district of Dacca.

Mr. J. L. Herald, Officiating Joint-Magistrate and Deputy Collector, 24-Pergunnahs, is transferred to Nuddea, and is appointed to have charge of the Meherpore sub-division of that district.

Baboo Tariny Kumar Ghose, Deputy Magistrate and Deputy Collector, 24-Pergunnahs,

is appointed temporarily to have charge of the Baraset sub-division of that district.

Mr. G. Toynbee, Magistrate and Collector, Hooghly, is allowed leave for two months and one day, under section 72 of the Civil Leave Code, with effect from the 3rd September next.

Heinig, Assistant Conservator of Forests, 1st grade, at present in charge of the Chittagong Forest Division, is appointed to act in the 4th grade of Deputy Conservators of Forests, with effect from the 16th June 1887, during the absence of Mr. W. M. Green, Deputy Conservator of Forests, on privilege leave, or until further orders.

W. C. MACPHERSON, Offg. Secy. to the Government of Pengal.

#### NOTIFICATION.

The 12th August 1887.—The following rules prescribed in the Resolutions of the Government of India, in the Department of Finance and Commerce, Nos. 1596, 2036, and 1370, dated, respectively, the 28th June 1886, the 27th July 1886, and the 15th March 1887, for the oustody, supply, and sale of all kinds of stamps and stamped papers now in use, are published for general information. Those portions of the rules which apply to general and court-fee stamps are adopted and issued by the Lieutenant-Governor under the authority conferred on him by section 55 of the Indian Stamp Act of 1879 and section 27 of the Indian Court-fees Act of 1870. the Indian Court-fees Act of 1870.

> COLMAN MACAULAY, Secretary to the Government of Bengal.

Rules for the custody, supply, and sale of stamps of all descriptions, namely, General stamps used to denote the duties payable under the Stamp Act, 1879; Court-fee stamps used to denote the fees payable under the Court-fees Act, 1870; Telepraph stamps and Postage stamps,

# CENTRAL DEPÔTS. There shall be three central depôts for stamps of all descriptions, in charge of the

Superintendents of Stamps at Madras, Bombay, and Calcutta, respectively. These central depôts shall maintain a stock of stamps sufficient for two years' consumption. Superintendents of Stamps in Madras and Bombay shall, for this purpose, forward, not later than the last week in September in each year, indents for the supply of the various descriptions of stamps required in the following year for the territories dependent on them for the supply of stamps to the Superintendent of Stamps, Culcutta. The Superintendent of Stamps, Calcutta, shall prepare a general consolidated indent for stamps of all descriptions, showing separately the demand for the following year for each of the three presidencies, including in it the indents of the Superintendents of Stamps, Madras and Bombay; and shall forward this general indent to the Government of India, in the Financial Department, for transmission to the Secretary of State so as to reach him not later than the 1st November in each year. The Superintendent should forward a copy of the section of the general indent relating to Postage stamps to the Director-General of the Post Office, and of the section relating to Telegraph stamps to the Director-General of

Stamps for the Madras Presidency, including Coorg, and local depôts subordinate to Madras, shall be supplied from the central depot at Madras on the indent of the officers in

charge of local depôts.

Telegraphs.

3. Stamps for the Presidency of Bombay, including Sindh, the Berars, the Central Provinces and local depôts subordinate to Bombay, shall be supplied from the central depôt,

Bombay, on the indent of officers in charge of local depôts.

4. Stamps for the Bengal Presidency, including the North-Western Provinces and Oudh, the Punjab, Contral India, Rajputana, Assam, and British Burma, and local depôts subordinate to Calcutta, shall be supplied from the central depôt, Calcutta, on the indent

of officers in charge of local depôts.

The Superintendents of Stamps, Madras, Bombay, and Calcutta, on receiving an indent from a local depôt, shall have the indent examined to ascertain that the indent is such as to ensure the local depôts having a proper supply, and may comply with the indents in full or in part as he thinks fit. If he thinks that the indent should be increased, he should request the officer who submitted the indeut to submit a supplementary indent. The Superintendents of Stamps should also, if the monthly statements of transactions (Rule 33) show that the balance of any kind of stamp in any local depôt is falling too low, call the attention of the officer in charge to the fact. The Presidency Post Offices of Calcutta, Madras, and Bombay may indent for supplies on the central depôts.

#### LOCAL DEPÔTS.

6. Every treasury throughout India, including those attached to political and salt agencies, shall be a local depôt for the custody and sale of stamps of all descriptions. Local Governments may establish local denots at places where there is no treasury.

7. Each local depot shall, unless the Local Government otherwise directs, maintain

a supply of stamps equal to the probable consumption of five mouths. Local Governments may direct that the supply to be maintained either generally or in respect of any particular kind of stamp or in certain local depôts shall be equal to the probable consumption of such other period as they deem expedient.

8. As soon as the number of stamps in the local depôt falls below the number issued

from the depôt in the preceding six months, the officer in charge of the depôt shall prepare an indent for a supply equal to the probable consumption of three months. The indent shall show in separate columns for each denomination of stamp of which a supply is required the total of the balance in the local depôt and any branch depôts subordinate to it, the quantity sold in the preceding six months, and the quantity indented for, which should

<sup>\*</sup> For branch depôts the figures of the latest periodical return received at the local depôt showing details of atamp balances may be used for the purpose of calculating the total required for sutry in each column.

be approximately one-half of the quantity sold in the preceding six months. The periods of "six months" and "three months" of this rule may, like that of five months in Rule 7, be altered by Local Governments to such other periods as they may deem expedient. This indent will be ferwarded direct to the Superintendents of Stamps. Madras, Bombay, or Calcutta as the case may be; but the Local Government of any province may direct that the indents shall be forwarded through any other officer, such as the Superintendent of Stamps of the province, or that a copy of the indent shall be forwarded to such officer.

9. If the supply of stamps in any local depôt sheuld run short before the receipt of the supply from the central depôt, the officer in charge of the local depôt should indent for a supply from a neighbouring depôt, sending a copy of the indent to the Superintendent or Commissioner of Stamps of the province, or such other officer as the Local Government may direct. It is the duty of the Superintendent of Stamps, Madras, Bombay, or Calcutta, to report to the Local Government (or such authority as the Local Government may direct) in the case of General and Court-fee stamps, to the Director-General of the Post Office in the case of Postage stamps, and to the Director-General of Telegraphs in the case of Telegraph stamps, any case in which it may come to his knowledge that the stock of stamps in any local depôt of any description has fallen below the prescribed amount.

10. As soon as possible after the arrival of a supply of stamps from the central depôt or from amother local depôt, the efficer in charge of the local depôt shall have the boxes er packets opened in his presence, and the contents of each box or packet counted either by himself or in his presence immediately on being opened. The number of stamps received shall be compared by the officer in charge with the number in the invoice, and a receipt shall

be sent as soon as possible to the officer who despatched the stamps.

11. Local Gevernments may issue such orders as may be thought necessary regarding the detailed counting of stamps received in a local depêt, and as to the descriptions of stamps which the officer in charge must count with his own hands. Such orders may include instructions that a certain percentage only of sealed packets marked as containing a certain number of stamps need be opened and counted at the time of receipt, and the remainder, if the percentage opened are all found correct, left with seals unbroken to be counted as they are required on being given out from double lock. The officer in charge is responsible for observing any such instructions and for satisfying himself as to the number of stamps received before signing the receipt.

12. If any of the stamps received are found to be unfit for issue, they should be at once returned to the Superintendent of Stamps. Stamps which are through any accident rendered unfit for issue at any time after receipt should be similarly returned to the Superintendent as soon as their unfitness is discovered. The necessary entries on account of stamps so returned should be made in the monthly statement (Rule 33,) and in the plus and

minus memoranda (Rule 35).

13. Immediately after the stamps received have been counted, they shall be placed in proper receptacles in the store under double lock, arranged in parcels or packets containing known quantities, the amount of each denomination being entered in a register maintained to show the receipts and issues to and from the store under double lock.

14. The treasurer, or such other officer as the Local Government may direct, shall be the ex-officio vendor of all descriptions of stamps in each local depôt. Sales to the public or to licensed vendors shall be made direct from the stores under double lock, such sales being made by the ex-officio vendor from the supply entrusted to him for this purpose to be

kept by him under single lock, as prescriled in the following rules

15. The stock to be made over to the ex-officio vendor to be kept by him under single lock should ordinarily be sufficient for the probable demand of one menth. On a fixed date near the beginning of each month the ex-officio vendor shall prepare an indent for the quantity required for the month in a form shewing the balance in his hands, an average month's consumption, and the quantity required. When this indent is approved by the officer in charge, who should examine the balance under single lock, and ascertain that the quantities shown agree with the quantities shown in the indent, he shall give out the quantity required from the store under double lock. The same precedure shall be followed if any stamps should be required at any intermediate date. Local dovernments may reduce the period of one month mentioned in this rule to one week or any other period less than a month if they consider this desirable with reference to the amount of the treasurer's security or for any other reason.

16. From the stock so made over to his charge and kept by him under single lock, the cx-officio vendor shall sell stamps to the public and to licensed vendors for cash. He shall keep in such language as the Local Government may direct any account of the daily sales for each of the four descriptions of stamps in a ferm showing for each denomination the balance in his hand at the beginning of the day, the quantity sold during the day, and the balance in his hand at the end of the day. He shall pay daily into the treasury the cash received by him for stamps seld, the amount realised on account of each of the four descriptions of stamps—namely, General, Court-fees, Postage, and Telegraph—being paid in separately. The account of daily sales should be inspected every day by the officer in

charge of the depôt.

17. The rules regulating the grant of discount and the grant of licenses to licensed vendors for the sale of General and Court-fee stamps vary in different provinces, and are prescribed by Local Governments, subject to the general rule that no change in the rate of discount shall be made without the previous sanction of the Governor-General in Council.

[PART I

THE CALCUITA GAZETTE, AUGUST 17, 1887.

Local Governments may direct that the sales to the public of General and Courtfee stamps by ex-officio vendors shall be limited to stamps of a value higher than named amount, the sale to the public of stamps of lower value being left to licensed vendors. Telegraph stamps shall be sold to the public for cash by the ex-officio vendors,

provided that the quantity of stamps sold to one person at one time shall not be less in value

than Rs. 5, and that the quantity sold shall not include less than one rupee worth of any particular denomination. On such sales no discount is allowed.

Telegraph Masters shall obtain supplies of Telegraph stamps from the local depôts, subject to the same conditions in regard to the quantity supplied at one time as those of the preceding rule, and shall sell to the public Telegraph stumps of all descriptions

and to any value. No discount is allowed to Telegraph Masters for the sale of stamps; but they are allowed permanent advances of Telegraph stamps without payment, the amount of the permanent advance being fixed by the Director-General of Telegraphs. When the

permanent advance of Telegraph stamps has once been taken, subsequent issues to Telegraph Masters are made only on each payment. But when the local depôt is closed for holidays of more than one day's duration, officers in charge of local dopôts are authorized to issue Telegraph stamps to Telegraph Masters without payment in excess of the value of the permanent advance, these temporary advances being adjusted when the treasury re-opens by the return of the stamps or the payment of their value if sold

the return of the stamps, or the payment of their value if sold. 21. Service Postage stamps shall be sold for each from local depôts to Government officials and to persons specially authorised to purchase and use service stamps on a written

application. On such sales no discount is allowed. Ordinary Postage stamps shall be sold to the public for cash from local depôts provided that the value sold to any person at one time shall not be less than Rs. 5, and shall not include any fraction of a rupee, and that embossed envelopes and post-cards shall be sold

in complete packets only. No discount is allowed on such sales. Soldiers' envelopes are sold from certain selected local depats only to Commanding Officers in complete packets, no discount being allowed. 23. The officer in charge of every post office, receiving office, tehsil, tham, and police-station at which letters are received for despatch, and every person licensed under the rules framed under the Stamp Act, 1879, to sell General stamps, are required to keep a

supply of ordinary postage stamps for sale to the public, sufficient for the probable demands of one week. To such persons ordinary postage stamps, except soldiers' envelopes, are sold from local depâts for cash on the same conditions as to quantity as those prescribed in the preceding rule; and on such sales discount at the rate of quarter of an anna in the rupee is allowed.

The officers in charge of post offices, receiving offices, tehsils, thanas and police stations at which letters are received for dospatch, are also required to keep a supply of one-anna revenue stamps for sale to the public. To such officers one-anna revenue stamps are sold from local depôts on the same conditions as to quantity as those prescribed in Rule 22. On such sales discount at the rate of one-half anna in the rupec is allowed. A District Officer may authorise the grant of discount at the same rate to any bona fide retail vendor of ordinary postage stumps, provided he is not employed in a Govern-

ment treasury. Such authority shall be in writing, and shall remain in force for one year. It may contain conditions in all or any of the following respects, namely, the maintenance of a sufficient supply of stamps of all or any specified denominations of postage stamps for retail sale; the sale of the stamps at one or more particular shops or places, and the prohibition of sales at other shops or places; and the days and hours of sale. The District Officer shall keep a register showing the name, residence, and occupation of

every person to whom he grants such authority.
25. Superintendents and Inspectors of Post Offices within their respective, jurisdictions, and any other officers of the Post Office authorized on that behalf by the Postmaster-General or Deputy Postmaster General, are empowered to examine the stock of postage stamps kept by any of the persons required or authorized to keep postage stamps for sale to the public under Rules 23 and 24.

# BRANCII DEPÔTS.

Every subordinate, branch, or tehsil treasury shall be a branch depôt for the sale of stamps of all descriptions. The sub-treasurer, or such other officer as the Local Government may direct, shall

be the ex-officio vendor of stamps at a branch depôt.

28. The officer in charge of the branch depôt shall obtain his supplies from the local

depôt to which the branch depôt is subordinate in the same manner as the ex-officio vendor at the local depôt obtains his supplies, except that the indent and the stamps must be sent by post or messenger to and from the local depôt; and that the examination of the balance in hand and the comparison of the amounts shown with those shown in the indent shall be done by the officer in charge of the branch depôt.

The ex-officir vendor shall obtain his supplies from the officer in charge of the branch depôt in the same manner as the ex-afficio vendor at the local depôt obtains his supplies from the officer in charge.

The supply to be kept in a branch depôt should be equal to the probable demand for three months; but Local Governments may direct that the supply shall be equal to the demand of any other period instead of three months which they may consider expedient. The

stock should be kept up to this amount by indenting and obtaining supplies from the local

depôt from time to time as may be necessary.

30. Local Governments shall fix the period a supply sufficient for which shall be kept under single lock by the ex-officio vendor, and the remainder of the stamps in the branch depôt shall be kept under double lock of the officer in charge of the branch depôt and of the ex-officio vendor, and given out to single lock as required.

31. Sales from branch depôts will be made subject to the same rules as those from

local depôts.

#### RETURNS TO AND BY THE SUPERINTENDENT OF STAMPS AND ACCOUNTANTS-GENERAL.

32. On the last open day of September and March each year, the officer in charge of each local depôt will count, or have counted in his presence, the stamps in the depôt, both those under double lock and those under single lock, and will require the officers in charge of the branch depôts subordinate to him similarly to count the stumps in the branch depôt. He will attach to the monthly statements for September and March rendered to the Superintendent of Stamps, Madras, Bombay, or Calcutta, a cortificate in the following form:—

"I do hereby certify that I have personally examined and counted, or had counted in

my presence, the stamps of all descriptions in store in this local depôt on the september 18 and found the value of each description to be as state

			Rs.	and found the value of each description to be as stated in

which amounts agree with the balance shown in the monthly statement for September to which this certificate is attached." If there is any difference, add "with the exception of the following differences:-

explanation of which is as follows :-

33. Monthly statements showing the receipts and issues of each local depôt, including the transactions of the subordinute branch depôts, shall be prepared by the officer in charge of the local depôt, and forwarded in the first week of the succeeding month to the Superintendent of Stamps, Mudras, Bombay, or Calcutta, separate statements being prepared for

General stamps, Court-fee stamps, Telegraph stamps, and Postage stamps.

These statements shall show for each denomination of stamp the values of the balance in hand at the beginning of each month, of the quantities received from the Superintendent of Stamps or other officer during the month, of the quantity sold during the month, and of the balance in hand at the end of the month. Those statements may be forwarded to the Superintendent of Stamps, Madras, Bombay, or Calcutta, either direct, or, if the Local Government so order, through any officer named by the Local Government.

34. These statements shull be checked by the Superintendents of Stamps by comparison with previous statements and the accounts of the Central Depôt, and shall be used by them

to elicek indents and to watch the balances in the Local Depôts.

35. Treasury Officers and other officers in churge of Local Depôts shall forward to the Accountant-General or Comptroller such returns of the receipts and sales of stamps as the Comptroller-General may direct, in the form of plus and minus Memoranda or otherwise.

36 The Superintendents of Stamps, Madras, Bombay, and Calcutta, shall send to the Accountant-General or comptroller such accounts of the transactions of the Central and

Local Depôts as the Comptroller-General may prescribe.

37. They shull also every six months intimate to the Accountant-General or Comptroller for comparison with the amounts shown in the return received from Treasuries and other Local Depots under Rule 35, the receipt of the certificates prescribed in Rule 32, and the amount of stock certified to be in balance in each Local Depot.

The Comptroller-General shall prescribe such rules as he considers necessary for the disposal of the accounts mentioned in the foregoing rules, and for the check of the receipts, issues and sales.

39. The Local Governments of Madras, Bombay, and Bengal shall arrange for a periodical verification by counting of the stock of stamps in the respective Central Depôts. The verification shall be carried out in the manner and form to be prescribed by the

Comptroller-General, to whom the result will be reported.

The Superintendents of Stamps, Madras, Bombay, and Calcutta, shall forward every month to the Directors-General of Telegraphs and of the Post Office statements showing the balances and receipts in the Central Depôt and the issues to each Local Depôt of Telegraph and Postage stamps, respectively, during the month. They shall also send monthly to the Comptroller, Post Office, a statement of the sales during the past month of the several denominations of Postage stamps in the Local and Branch Depôts subordinate The Accountant-General or Comptroller will, with his monthly account current with the Examiner of Telegraph Accounts, forward a statement showing the total realizations at each Treasury from the sales of Telegraph stamps during the month.

#### NOTIFICATION.

The 12th August 1887.—In exercise of the powers conferred on him by section 55 of the Indian Stamp Act I of 1879, and section 27 of the Court-fees Act VII of 1870, and with the sanction of the Government of India, the Lieutenant-Governor is pleased to make the following rules supplementary to the rules for the custody, supply, and sale of stamps of all descriptions proscribed in the Resolutions of the Government of India, in the Department of Finance and Commerce, Nos. 1596. 2033, and 1370, dated respectively the 28th June 1886, the 27th July 1886, and the 15th March 1887, and published at pages 738 to 742, Part I of the Calcutta Gazette, dated the 17th August 1887:—

Under Rule 7 of the Rules of the Government of India, each local depôt should ordinarily maintain a supply of stamps equal to the Supplementary to Rule 7 of the Rules of the Government of India. probable consumption for five months. The whole stock of certificates to Pleaders, Muktears, and Revenue Agents should, however, be in the depôt by the beginning of December

The Collector of Calcutta should ordinarily maintain a supply equal to the probable

consumption for one month.

II(a). On the receipt of a supply of stamps in a local depôt from the central depôt or from any other local depôt, packets or boxes containing Supplementary to Rule 11 of the Rules of the Government of India. stamps above the value of (eight) 8 annas shall be opened. one at a time, and within the day after their receipt at the latest, in the presence of the officer in .charge, who shall count every stamp of the value of Rs. 8 and upwards. Stamps of the value of less than Rs. 8 shall be counted

in the presence of the officer in charge. The number and value of the stamps received shall then be compared with the invoice, so that any deficiency may at once be detected. Packets containing stamps of the value of (eight) 8 annas and less shall be closely inspected by the officer in charge in order to ascertain that they have not been opened or tampered with in transit; and if they do not present any suspicious appearance, they shall be taken as containing the full number of stamps and in the invoice and looked up in the stamp objects or present with a copy of the invoice. stated in the invoice and locked up in the stamp-chosts or presses with a copy of the invoice and the letter of advice. A receipt shall then be forwarded by the first post to the depôt from which the stamps have been supplied. Under Rule 11 of the Rules prescribed by the Government of India, the officer in charge is responsible for carefully observing these instructions and for satisfying himself as to the number of stamps before signing the receipt.

On the receipt of a supply of court-fees stamps, the seals of the packets containing the stamps shall be broken, and the packets opened in the presence of the officer in charge, who shall, with his own hands, count all sheets containing stamps of the value of (four) 4 annas and upwards, so that any deficiency may at once be detected. Court-fees stamps being supplied in sheets, each containing a number of stamps, the officer in charge shall, for his own security, see that each sheet contains the full number. Stamps of the value of less than four) 4 annas shall be counted also in the presence of the officer in charge. They shall then be compared with the invoice, and a receipt shall be forwarded by the first post to the depôt from which they have been supplied. The officer in charge is responsible for carefully Observing these instructions and for satisfying himself as to the number of stamps received before signing the receipt.

The stock to be made over to the ex-officio vendor at a local or branch depôt to

CIVIL ENGINEERS' PROVIDENT FUND. I.—The institution of a Provident Fund under the conditions specified in Rule II is sanctioned for

The institution of a Provident Fund under the conditions specified in fluid 11 is safetimed for the following officers of the Public Works and Telegraph Departments:—

 Civil Engineers on the effective list of the Public Works Department.
 Civil Engineers transferred to the Accounts Branch, or the Superior Railway Revenue Establishment, or to forcign service under Chapter III of the Civil Pension Code.
 All civil members of the Superior Accounts Establishment who are not Civil Engineers.

 Superior civil officers of the Indian Telegraph Department.

 The monthly deposit may be not less than 5 per cent, and not more than 10 per cent. on the

The monthly deposit may be not less than 5 per cent, and not more than 10 per cent, on the salary (as defined in the Financial Codes) of each depositor for that month.
 In the case of officers in the Public Works Department on the 4th February 1885, or in the Telegraph Department on the 18th October 1886, the deposits will be voluntary, and may be discontinued and renewed at the option of the depositor. Those who wish to join the fund

may pay up arrears within the authorized limits from the commencement of service, or from any shorter time, in one sum, interest on which will be allowed from the date of payment. But officers joining either of these Departments after the dates given above for the Department concerned must contribute 5 per cent. of their salary to the fund, and may contribute up to 10 per cent. of salary. Apprentices may contribute to the fund, but will not be compelled to do so.

PART I

- (3) An officer on leave of any kind may, at his option, subscribe any sum he pleases, subject to a minimum of 5 per cent. on his leave allowances, and a maximum of 10 per cent. on the salary
- he would draw if on duty. Note.—When an officer's leave allowances are drawn in India, the subscriptions will be dealt with as usual on audit of pay bills—see paragraph IV. When, however, they are payable out of India, or when an officer is on leave without allowances, he can contribute such amount as he pleases between the minimum and maximum as above, but must make his own arrangements for the payments. (4) Compound interest at 4 per cent. on such payments will be annually credited by Government to
  - each officer subscribing.
  - (5) The sum which will thus accumulate to the credit of an officer will be his absolute property, to be handed over to him unconditionally on quitting the service, or, in the event of his death
- before retirement, to his legal representatives.

  III.—The deposits received under the foregoing resolution will be placed in a Government Savings

  Bank named "Civil Engineers' Provident Fund." The administration of the fund. "The administration of the fund will rest with the Government of India in the Public Works
- Administration of the fund. Department.
- IV.—Deposits will be received in the case of officers of the Public Works Department by the various Examiners of Public Works and Railway Accounts throughout India, and in the case of officers of the Telegraph Department by the Examiner of Telegraph Accounts. They will be recovered by deduction from the pay bills, or may be made in cash. Deposits cannot, except in the cases provided for in the next rule, be made otherwise than through an Examiner or an Executive Engineer or Divisional Superintendent of Telegraphs who is in account with an
- Examiner.

  V.—An officer who is not on the books of any Examiner, but receives his allowances either from the Civil Department or from a local fund or a Foreign State, may, if he has already been admitted as a depositor, pay his contributions either in cash into the nearest treasury, or, if he is paid by the Civil Department, by deduction from his salary bill. He must in either case specify the number of his account. His contributions will be passed on by the Civil Accountant-General, in the case of an officer of the Public Works Department to the Examiner, Public Works Accounts of the Province, and in the case of an officer of the Telegraph Department, to the Examiner of Telegraph Accounts. The Examiner to whom the contributions are passed on will exercise the responsibility mentioned in Rule IX.

  An officer of this class who has not already been admitted must apply for admission (and assignment).
- An officer of this class who has not already been admitted must apply for admission (and assignment of number) to the Accountant-General, Public Works Department. Note.—For the purposes of this rule, so far as concerns officers of the Public Works Department, the Examiner for the Province is, in the case of India Treasuries, the Examiner of Military Works Accounts.
- VI.—No withdrawal will ordinarily be allowed from the deposit until the depositor quits the service or dies. But on Local Governments or Administrations being satisfied that the pecuniary circumstances of a depositor are such that the indulgence is absolutely necessary, a deposit may be temporarily withdrawn under orders issued by the respective Local Governments and Administrations—
- (i) to pay for the passage of the depositor going on leave out of India on medical certificate or returning after such absence;
   (ii) to pay for the passage of any member of the depositor's family coming from beyond the sea, to join him, or going beyond the sea, sick, or from some urgent cause.
   A withdrawal thus sanctioned will be made after reference to the Comptroller-General to ascertain it is concerned by the amount at credit.
- that it is covored by the amount at credit.
- that it is covored by the amount at credit.

  Note.—In the case of depositors of Telegraph Department, the Director-General of Telegraphs exercises the powers of a Local Government.

  VII.—Withdrawals under Rule VI will be recovered in 20 equal monthly instalments compalsorily deducted from salary in addition to contributions under Rule II whenever full salary is drawn, until the whole is refunded. Such instalments may be paid in advance.

  VIII.—The believes of decreased de
- VIII.—The balances of deceased depositors will be paid according to Rules 51 and 52, Chapter 21 of the Civil Account Code, 4th edition, and Act V of 1878.

  Rules 51 and 52 of Chapter 21 of the Civil Account Code, 4th edition:— Deceased depositors. 51.—The cases of decease and lunsoy of depositors are provided for by Act
- V of 1873.

  As regards deceased depositors, Act V of 1873, applies to those balances only which do not exceed Rs. 1,000. Balances in excess of Rs. 1,000 should be paid on production of probate, letters of administration, or a certificate under Act XXVII of 1860, unless otherwise ordered by the Local Government, which has a discretionary power to dispense with such evidence in cases where it is of opinion that to require it would cause hardship, and to dispense with it would involve no appreciable risk.

  52.—When repayment is made of a deposit belonging to the estate of a depositor deceased, the list of deposits repaid must be supported by a certificate from the Secretary, setting forth that probate of the deceased's will or letters of administration to his or her estate, or a certificate granted under Act XXVII of 1860 (see Form 62) in favour of the actual pavee, has not been produced before him. V of 1873.
- Act XXVII of 1860 (see Form 62) in favour of the actual payee, has not been produced before him.

  1. Form 63 is prescribed for certificate under section 8 of Act V of 1873 (Savings Banks Act) required for proceedings regarding deceased depositors estates. IX.—For the proper admission of depositors, the correct realization of the receipts, and the admission
- Responsibility of Examiners.

  and payment of the withdrawals, the Examiners, as audit officers, will be entirely responsible. The functions of the Comptroller-General are purely those of keeping the account of the receipts and withdrawals as reported by the Examiners.

  X.—All sums received from depositors will be credited, and all sums withdrawn will be charged by the Examiners under the head "Civil Engineers' Provident Fund." Examiner's account of deposit.
- XI.—The Examiner will, at the end of each month, forward to the Comptroller-General, Savings Bank Department, a statement, in Public Works Department Form No. 82A, of the sums he has received on account of the fund. This statement will contain (1) the dates of receipt; (2) the numbers of the depositors' accounts; (3) names and official designations of the depositors; and (4) amounts of deposits. The total of this statement must agree with the corresponding credit in the Examiner's account as rendered to the Accountant-General. For number of depositor's account see below, Rule XV.

  XII.—The Examiner will similarly forward a monthly statement of withdrawals in Public Works Examiner's account of with Department Form No. 82B. This statement will give the following particulars, and the total of it must agree with the corresponding debit in the Examiner's monthly account as rendered to the Accountant-General':—(1) dates of payments; (2) number of depositors' accounts; (3) names and official designations; (4) amounts paid; (5) number and date of the orders of the Local Government or Administration for payment as prescribed in Rule VI. For number of account see below, Rule XV.

of account see below, Rule XV.

Dated ...

The Accountant-General will, together with his monthly account, send to the Comptroller-General a complete statement, by Examiners, of the total receipts and withdrawals on account of the Provident Fund.

XIII.—The yearly receipts and charges on account of the Civil Engineers' Provident Fund will be cleared from the books of the various Examiners by transfer to those of the Examiner of Accounts, Military Works, in whose books, consequently, Accounts of Fund to be trans-ferred annually to the books of Examiner, Military Works Acthe transactions of the whole Fund will be recorded.

XIV.—The account of each depositor will be posted in a ledger, to be kept by the Comptroller-General, Savings Bank Branch. The ledger will be closed as soon as possible after the 31st March of each year.

XV.—Every account in this ledger will receive a distinct number. The number so given to the depositors' accounts will be consecutive. When a new depositor is admit-Numbers of depositors' accounts.

Numbers of depositors' accounts.

ted, the Comptroller-General will, on reference, notify to the Examiner concerned, or in the case of depositors not on the books of any Examiner, to the Accountant-General, Public Works Department, the number to be given to his account, and this number will be quoted and all withdrawals in the attenuants. against all further deposits, and all withdrawals in the statements prescribed in Rules XI and XII. A depositor's number will not be altered, nor will the numbers of closed accounts be given to new depositors. In the event of the depositor's transfer, the number will be noted on his lastpay certificate, in order that the next Examiner may be able to quote it in his deposit statements. The amount contributed during the last six months prior to transfer should also be noted on the last-pay

XVI.—Interest will be allowed for each calendar month upon the minimum balance of the depositor's account, between the close of the fourth day and the end of the month.

In calculating interest under this rule, the deposits received by deduction from salary will be considered as paid into the Fund on the 1st of the month succeeding that for which the salaries from which the deductions are made are due. The interest will be salaried monthly as provided for in the form of ladger, but will not be added to the principal until the be calculated monthly as provided for in the form of ledger, but will not be added to the principal until the

be calculated monthly as provided for in the form of ledger, but will not be added to the principal until the end of the official year, except when the account is to be finally closed, in which case the interest will be paid, after reference, as prescribed in the next section.

XVII.—When an account is to be closed, the Examiner who at the time is charged with the receipt of the deposits will submit to the Comptroller-General a statement of the transactions of the past four months, certifying them to agree with the debits and credits in his accounts (or submitting such certificate of any other Examiner in whose accounts they were included), and will apply for an order for payment of interest and principal up to date. The account will be made up in advance by the Comptroller-General, and issued in the Form A attached, with an order directing the debit.

XVIII.—The amount of interest to be added to the balance of the Fund will be calculated each year by the Comptroller-General, who will issue a direction to the Acceptation of interest.

Countant-General, Public Works Department, to credit the amount to the Addition of interest. Fund by debit to Civil Department in the Exchange account between the Comptroller, India Treasuries and the Examiner of Accounts, Military Works. This transaction must include the debits on account of interest paid during the year on closed accounts, which, during the currency of the year, is debited to the

### NOTIFICATION.

The 15th August 1887.—Whereas a notification, dated the 25th February 1887, declaring the intention of the Lieutenant-Governor to confirm the bye-laws given below, which have heen framed by the Commissioners of the Goalundo Municipality, under section 350 of Act 111 (B.C.) of 1884, was published at pages 60-63 of Part IB of the Calcutta Gasette of the 2nd March last, and whereas no objection has been raised to them, it is hereby notified that, in exercise of the power conferred on him by section 351 of the Act, and on the recommendation of the Commissioners of the Goalundo Municipality, made at a meeting, the Lieutenant-Governor confirms the said bye-laws.

> COLMAN MACAULAY, Secretary to the Govt. of Bengal.

For the regulation of the conduct of business at the meetings of the Commissioners.

1. An ordinary general meeting of the Commissioners shall be held on the last Saturday of every month, unless the Chairman, for any special reasons, shall fix any other day. 2. All such meetings shall be convened by the Chairman or Vice-Chairman, by

notice to be served on each Commissioner not later than three days before the day of the

meeting.

2. Should the Chairman or Vice-Chairman determine to call an extraordinary general meeting, not less than two clear days' notice shall be given to the Commissioners of the day fixed for such extraordinary general meeting.

4. Every notice, convening a meeting, shall be accompanied by a list of the business

to be brought forward at such meeting, signed by the Chairman or Vice-Chairman. 5. Any Commissioner wishing to bring forward any business shall give notice of such intention in writing to the Chairman a week before the next ordinary meeting, when

laid before such meeting. 6. No business shall be considered or proposition received at any meeting if it does not appear in the list of business, unless the Commissioners present, by a majority of two-thirds,

the Chairman or Vice-Chairman shall include such business in the list of the business to be

permit such business to be considered. 7. At all ordinary general meetings, the proceedings shall commence by the Chairman Vice-Chairman reading the minutes of the last ordinary or extraordinary general meeting,

with a view to ascertain if the resolutions passed at such meeting have been accurately recorded in the words used by the mover of such resolution, or, if amendments thereto shall

have been passed, in the words used by the mover of such duly passed amendments. 8. In the event of any Commissioner being of opinion that any such resolution has not been accurately recorded, it shall be competent to such Commissioner to state his opinion

to that effect, and thereupon the President shall refer to the original draft of such resolution, written and signed by the mover, and if he finds the minute to be inaccurate, he shall then and there make the necessary corrections in the minute-book. In the absence of a written draft, the President alone small rule whether the resolution has been correctly recorded or not. and his decision shall be final.

The order in which the several subjects shall be discussed at a meeting shall be determined by the order in which they are mentioned in the list of business; but the President may, for any special reason, if a majority of the Commissioners present do not

- object, depart from that order. On the Commissioners proceeding to the consideration of any subject, the Chairman or Vice-Chairman shall first read to the Commissioners the letters and papers connected with such subject, and thereupon any Commissioner may make a proposition regarding such Every such proposition made shall be written out by the proposer and signed by subject. nim.
- No such proposition shall be discussed, or put to the vote, unless it is seconded. Any Commissioner may propose an amendment to a proposition; all amendments 12.
- shall be written out, signed, and seconded before being discussed or put to the vote.

On all points of order, the President's decision shall be final. In the event of several amendments having been proposed, the President shall put

them in order to the meeting, beginning with the last. If any amendment is carried, that shall be the resolution of the meeting, and if no

amendment is carried, or no amendment has been proposed, the original motion shall be declared " carried."

No Commissioner shall be allowed to vote by proxy.

The minutes of the procedings of all meetings shall show the names of all the Commissioners attending, and the words of every proposition and any amendment.

### For the regulation of the mode of callecting taxes.

Every tax-collecting officer shall be provided with a certificate of his authority to collect, and every such certificate shall bear the seal of the municipality, and the signature of the Chairman or Vice-Chairman. Every collecting officer at the time of demanding payment shall be bound to show such certificate, if required.

For the regulation of the conduct of persons employed by the Commissioners.

- All persons employed by the Commissioners, whose services may no longer be
- required, shall be liable to discharge after receipt of previous notice, or pay in advance for the period of one month, and no such person shall withdraw from the duties of his office without having given previous notice for the period of one month, on pain of the forfeiture of one
- month's salary.

  20. The Commissioners shall have power to inflict for neglect of duty a fine not exceeding one month's pay upon any person employed by them.

# For the regulation and management of privies.

Every owner or occupier of any house, land or premises from which sewage or offensive matter is not removed by the said owner or occupier snall give free access to the servants of the municipality to such parts of his house, land or premises where sewage or offensive matter is kept for the removal of such sewage or offensive matter within such hours as may have

been fixed on by the Municipal Commissioners. The penalty for infringement shall be a fine not exceeding Rs. 5.

his privy or premises with a suitable moveable receptuols of metal or earthenware. The p-nalty for infringement shall be a fine not exceeding Rs. 50. No owner or occupier of any house, land or premise- in or on which any privy may be situated shall allow sewage, urine or offensive matter to flow or be discharged from such

Such latrine shall be open to the inspection of the Commissioners, or of any officer deputed by

them at any hour of the day.

The penalty for infringement, or for opposing the Commissioners or any officer deputed by them in the execution of this duty, shall be a fine not exceeding Rs. 50.

58. All licensed serais or lodging houses shall be open to the inspection of the Commissioners, or of any officer deputed by them, at all hours of the day or night.

The penalty for opposing the Commissioners, or any officer deputed by them for the purpose, shall be a fine not exceeding Rs. 20, and the Commissioners may withdraw such license.

59. The names of all persons employed at a licensed serai or lodging-house shall be registered at the Municipal Office by the owner of such serai or lodging-house. Any person failing to comply with these bye-laws within one week after obtaining a license shall be subject to a fine not exceeding Rs. 10; penalty for continued infringement Re. 1 daily.

### For the regulation of markets.

No owner, or occupier, or farmer of any market for the sale of butchers' meat, poultry, fish, or vegetables within municipal limits, shall keep or allow the same to be kept, in an unclean state.

The penalty for infringement shall be a fine not exceeding Rs. 20; and for continued

infringement a daily fine of Rs. 5.

61. Every owner, occupier, or farmer of any market within the said limits shall remove. or cause to be removed, once in every twenty-four hours, any offensive matter which may have accumulated within such period.

The penalty for infringement shall be a fine not exceeding Rs. 20, and for continued

infringement Rs. 5 daily.

62. Every owner, occupier, or farmer of any market shall, within fourteen days after he shall have received notice from the Commissioners so to do, provide such urinal or latrine as in the opinion of the Commissioners may be necessary for the cleanliness and health of the said market, and the site and construction of which shall be approved by the Commissioners.

The penalty for infringement shall be a fine not exceeding Rs. 20, and for continued

infringement Rs. 5 daily.

63. No person resorting to a market and intending to satisfy a call of nature shall have recourse to any other place within the market for that purpose except the urinal or latrine provided under the preceding section.

The penalty for infringement shall be a fine not exceeding Rs. 20.

64. No owner, occupier, or farmer of, or vendor in, any market or shop, shall sell or expose, or permit to romain in any such market or shop, any noxious meat, or fish, or decomposed vegetable matter, but such owner, occupier, or farmer shall, without any delay, cause such ment, fish, or vegetable matter to be at once removed to a place to be notified to him by the Commissioners.

The penalty for infringement shall be a fine not exceeding Rs. 20.

COLMAN MACAULAY,
Secretary to the Govt. of Rengal.

### DECLARATION.

The 16th August 1887.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz, for the further extension of the Pultah Waterworks, it is hereby declared that for the above purpose the three plots of land described below, measuring 57 bighas, more or less, of the standard measurement, and situated in the villages of Manirampore, Kapileswar and Dhitara, pergunnah Calcutta, district 24-Pergunnahs, are required—

Plot A.—Bounded on the north and east by the pipe line; on the west partly by a road and partly by land belonging to the Corporation of the Town of Calcutta; and on the south by lands belonging to Radha Prosad Rai Chowdhury and others of Manirampore.

Plot B.—Bounded on the north by river Hughli; on the east and south by lands recently acquired by the Calcutta Municipality; and on the west by a road and land

originally acquired for the Water-works.

Plot C.—Bounded on the north by the Gar garden lands of Bemola Sundari Devi and co-sharers; on the east and south by lands in the occupation of Wooma Churn Kalia and others, the Fanshitola and Dhitara Roads and Sahiban Bagicha lands; and on the west by the embankment of the new settling tank.

A plan of the land may be inspected at the office of the Municipal Commissioners for

the Town of Calcutta.

This declaration is made, under the provisious of section 6 of Act X of 1870, to all whom it may concern.

COLMAN MACAULAY, Secretary to the Govt. of Bengal.

[N.B.-Advertisements, Notices, &c., intended for insertion in this part of the Gazette, cannot be received after Noon on Monday.]

### PUBLIC WORKS DEPARTMENT,—BENGAL.

### DISTRICT ROAD FUND.

NOTIFICATION No. 280.

The 10th of August 1887.

The annual accounts and reports of the Road Cess Committees of the districts of Burdwan, Bankoora, Beerbhoom, Midnapore, and Hooghly, for the cess year 1885-86, together with the remarks thereon of the Commissioner of the Burdwan Division, are published for general information.

W. B. BESTIC.

Under-Secy. to the Govt. of Benyal, P. W. Dept.

No. 102, dated Burdwan, the January 1887.

From-T. E. COXHEAD, Esq., Chairman, District Board, Burdwan, To-The Commissioner of the Burdwan Division.

I have the honour to submit the annual road cess report of works done and in progress during the cess year 1885-86, together with the detailed accounts of receipts and expenditure prepared by the Vice-Chairman and examined and certified to by the Finance Committee.

2. The total demand and collections of cesses for the year is shown in the report submitted by the Collector with his No. 240, dated 24th November last.

3. The year opened with a balance of Rs. 32.835-8-4, and closed with a balance in hand of Rs. 16,003-14-7. It is needless to dwell on the details of the receipts and expen-

diture, as the enclosed accounts supply the necessary particulars.

4. Original works.—It appears from the District Engineer's report that the construction of the bridge over the Choonee khal on the second section of Dewangunge and Culna road, and a temporary wooden bridge over the Khurry river, on the Burdwan and Cutwa road, were completed during the year, and that part of earthwork to be done on the Kurmoon extension road has been furnished.

5. The construction of a bridge over the Tumla khal on the Undal to Ukhra read was not finished, as the contractor failed to provide materials of sufficiently good quality; and when his contract was cancelled the season was far advanced to permit any other arrangement being made for the carrying out of the work. The work on the Buddipur to Culna road could not be taken up in hand, as the estimate for the road was sanctioned very

late in the year.

The trees already planted on 24 miles of road were maintained during the year, and one hundred new trees were planted on the Cutwa and Sooree road, and the tree nursery at Negone was replenished.

Burdwan to Jehanabad. . Pandus to Culna. Burdwan to Culna (second section).

With the exception of the roads noted on the margin, 7. the repairs to all the other roads undertaken are reported to have been completed during the year, though final payments for some roads have not yet been made.

It is reported that the contractor of the Burdwan to Jehansbad road failed to collect a sufficient quantity of metal to complete the repairs by the close of the year, and that the contractor of the roads from Burdwan to Culna (second section) and Pandua to Culna failed to complete the works until after the close of the year.

Village roads.—Rupees 7,500 for the Sudder sub-division and Rs. 2,500 for each of the other sub-divisions were allotted for improving village roads. It appears that out of the above allotments, the following sums were spent, though the accounts of actual expenditure of the same were not received during the year-

	•	•				Rs.
Sudder	sub-division	***		•••		7,205
Cutwa	>>		•••	•••		2,500
Culna	**	•••	•••	•••	•••	2,500
Raneegun	ge ,,	•••	•••	•••	•••	850

The Chairman, Branch Road Committee of Culna, raised a local subscription of Rs. 165 in addition to the above allotment, and spent the whole amount, Rs. 2,665.

the allotment made for his sub-division. He states that the reason of this inadequate expenditure is due to the illness of the Vice-Chairman for three-fourths of the year, the illness of

The Chairman, Branch Road Committee of Ranigunge, spent only about one-third of

another useful member, who has since died, and the apathy of the other members. expenditure for the other sub-divisions does not call for any remark.

10. Establishment.—The District Engineer Mr. E. A. Stoney's work and the work of

the various members of the establishment has been satisfactory.

No. 6.—Part I.

No. 164, dated Bankoora, the 23rd March 1887.

From—W. V. G. TAYLER, Esq., Chairman, District Board, Bankoora, To—The Commissioner of the Burdwan Division.

I HAVE the honour to submit herewith the Annual Administration Report of the late Bankoora District Road Fund for the cess year 1885-86, commencing from 1st October 1885 to 30th September 1886.

3. The District Committee consisted of 17 members—5 official and 12, non-official—at the commencement of the year, but by the appointment of Mr. Whiffin the personnel of the Committee was increased to 18 members since December 1885. Towards the close of the year, however, several members ceased to be such, having been absent at six consecutive meetings of the Committee.

4. Owing to the introduction of the Bengal Local Self-Government Act III (B.C.) of 1885 into this district from the 1st of October last, the existence of the District Road Cess Committee terminated along with the coss year 1885-86, on the 30th September 1886. It has now been succeeded by the District Board, almost half of which were members of the former Road Cess (hope itter)

of the former Road Cess Committee.

5. There were eight meetings of the District Road Cess Committee during the year under report, at which an average of 6.5 members attended. The attendance of all the official members excepting that of the Executive Engineer whose head-quarters is at Chinsura, was satisfactory, whereas that of the non-official members was not so.

THE CALCUTTA GAZETTE, AUGUST 17, 1887.

[PART II

- 1590
- The Sub Divisional Officer of Bishenpore reports that the Branch Committee met only once during the year, and that, with the exception of the Vice-Chairman, none of the members took any interest in the business of the Committee. 7. The road cess was levied at the maximum rate in the district during the year
- under report. It was realized on the whole, without much difficulty from all revenue-paying and revenue-free estates, excepting the Ghatwali estates. Out of the gross demand of Rs. 52,931 from lands and mines, Rs. 41,798 (inclusive of the amount collected in advance on account of the demand or this year, but exclusive of the amount collected on account of future year) were realized up to the end of the year, and Rs. 3 remitted, leaving a balance of Rs. 11,130 unrealized; of this Rs. 2,416 were outstanding against Ghatwaliand Rs. 8,714
- against revenue-paying and revenue-free estates, including lakhraj lands valued under section 68 of Act IX (B.C.) of 1880. Revaluation-The sanction of the Board of Revenue and of the Government of Bengal, was received at different times to revalue 504 estates in this district (313 revenue-paying
- and 191 revenue free). These 504 estates represent almost the whole district, viz. 7-8ths of the acreage of the revenue free-parts of the old district and about 18-19ths of the transferred tracts. The valuation of 23 estates and 7,116 tenures has been completed during the year, against 38 estates and 7,891 tenures in the previous year. Besides this, 108 small rent-free tohures and 187 jalkar tenures or fisheries were exempted during the year, the former as

being below Rs. 5 in value, and the latter under the orders of the Board of Revenue, as conveyed in their circular No. 5 of January 1884. The decrease in the number of tenures

- valued is due to the difficulty in obtaining boundaries of the lakhraj lands valued under section 68 of the Cess Act. Thus up to the end of September 1886, 467 estates and 32,501 tenures (including 9,418 lakraj tenures valued directly under section 68 of the Act, have been valued, and 27 estates have been exempted, leaving only 8 estates to be yet revalued and about 3.000 rent-free tenures to be valued under section 68 of the Act: The eight estates, including the two largest estates in the district, Bishenpore and Burchazari have been revalued since the close of the year; but the valuation statements of Bishenpere and Barohazari, which contain no less than 13,000 tenures are still being written up. The work of revaluation is therefore completed, and the establishment is now
- All the above 467 estates and 32,501 tenures have been valued on returns after due enquiry, and not one was valued summarily.

chiefly occupied with the valuation of the remaining lakhraj tenures.

- 12. A not increase of Rs: 2,36,051 has been effected in the annual value of the estates and tenures valued up to the end of September 1886. This increase is of course
- exclusive of the increase of about Rs. 1,50,000 effected in the annual value of the tenures comprised in estates Bishonpore and Barchazari, the revaluation of which was not completed
- within the year under report. 13. On the other hand decided relief has been given to those suffering from summary valuation, as is evident from the fact that there has been a net decrease of Rs. 24,52 in
- the annual value of the estates which were valued summarily at the time of the original valuation, 14. Of the rent-free tenures covered by the petitions made under section 67 of the Cess Act, 1880, 9,418 have been valued and 500 exempted from assessment as being below
- Rs. 5 in value up to the end of September 1886. All the above 9.418 rent-free tenures, as already stated, have been valued on returns after taking boundaries in each case from
- the owners, and the total annual value assessed thereon is Rs. 1,57,478, yielding a total cess of Rs. 9,842. Making all reasonable allowance I have reason to expect an increase of revenue not less than Rs. 14,000 from the lakhraj lands alone valued directly under section 68. 15. The procedure adopted by the Deputy Collector is the same as followed in the previous years. He has, by his usual scrutinizing enquiry and testing of the returns, been able to effect a large increase in the annual value of the khas

He has also been able to class 4,314 persons who were wrongly returned as mere

- cultivating rayats, as tenure-holders, under section 26 of the Act, and thereby to secure an increase of Rs. 1,37,×15 in the annual value of the lands and lakhrajdars in part IV, he issued notices invariably. To tenure-holders in part III Baboo Siti Kanta Ghose, Deputy Collector, was in charge of the department
- throughout the year, and great credit is due to him for the favourable results abovementioned.

ORIGINAL WORKS.

17. The following are the works of an important naturo that were executed or in progress under the head "original works." Bridge on the 6th mile of Bankoora and Taldangra road.—This work was let out in contract during the previous year, but in consequence of the excessive rain the Committee postponed the work to the year under report. The work has now been fluished and flually

paid for. Construction of the first two miles of Taldangra and Simlapal road. -- The work has (2).

been completed, but the final bill has not yet been submitted.

during the year.

from beyond the first two miles up to Simlapal has boon obtained from Government work of acquiring the required quantity of land is in progress under the Land Acquisition Deputy Collector. The work will be commenced ere long. (3). Indpore and Khatra road — This is a line of road joining the Khatra police station where there is also a munsifi to Bankoora. Under a previous estimate the first five miles

Sanction to the project for the construction of the remaining portion of the line of road

of the road from Khatra to Rangametia were constructed at a cost of Rs. 5,557-12. project for the construction of the remaining portion of the road from Rangametia to Indpore was sanctioned by Government, and the work has been already lot out in contract. Possession of land has been taken by the Land Acquisition Deputy Collector and the work of

construction has been commenced. (4). Indas and Kotulpore Road.—The diversion of a portion of this road near Indas was effected during the year under report. The diversion has cost Rs. 598-9-1. Raipore and Salvani Road.—The project for this important line of communication has been sanctioned by Government. Arrangements for acquiring lands are in progress under the Land Acquisition Deputy Collector.

(6). Onda and Chabra Road.—An estimate for the bridging and metalling of this line of road amounting to Rs. 2,090 was sanctioned. Mr. Sceales on behalf of his company, Messrs. Gisborne and Company, has very handsomely contributed towards this work, viz. Rs 638-2. The work has been completed and finally paid for during the year

The other works worthy of notice under the head "original works" are the construction of village roads and the planting of trees on the road sides. In the Sudder sub-division the allotment for village reads was its. 1,500, and

in the Bishenpore sub-division Rs. 7,685 for the year under report. The reason for the allotment of such a large sum in the Bishenpore sub-division was that during the year before large sums were advanced for the improvement of village communications, only to provide work

These were received during the year under report, and finally passed of by the Committee at their meeting hold on the 30th Soptember 1886. The Committee sanctioned 10 estimates for village roads within the Sudder sub-division amounting to a cost of Rs. 1,329, of which six villagers have provided an aid of Rs. 186. There were only some advances made on account of these roads, none of which have, however, been completed; consequently no expenditure has been shown under the village roads in the Sudder subdivision. In the Bishenpore sub-division only three new villago roads were constructed 20.

for the needy labourors who were hardly pressed in consequence of partial failure of crops in that tract of the district. All these advances were outstanding pending the receipt of detailed

both in point of means of communication and sanitation. Owing to the shortness of funds much could not be done, however, in this respect. The planting of trees received also due share of attention within the year. There were no new plantings, but the trees that were planted p evicusly were properly maintained. On most of the roads the work was done by paid coolies; only in a few the tree planting was done by piece work agreement system. The total number of trees that were maintained during

The improvement of these village communications is very beneficial to the people,

the year were 4,631. The state of the trees in general is reported to be good All the existing roads of the district were repaired as usual during the year. During my last cold weather tour I visited almost all the roads and their state

was on the whole found to be fair.

The Sub-Divisional Officer reports that the condition of the roads lying within his sub-division is fairly good. He speaks also of some defects in the most important road, a

railway feeder, from Bishenpore to Panighar, and complains of the very bad state of the ghats of the Jasoda khall, specially during the rainy season. His suggestion as to the appointment of a permanent set of coolies to look after and remove defects and inconveniences like those will receive due attention by the Board.

Character of officers.—The Vice-Chairman, Baboo Pratap Narayan Singh has continued to discharge his duties satisfactorily. The District Engineer, Baboo Naba Gopal Banerjee too has given satisfaction in the performance of his duties, so much so that the Committee recommended him for increase of pay. I have nothing to add to what I reported last year in regard to the efficincy of the Accountant, Baboo Bama Charan De, who has been as usual most useful to the Committee.

### EXPLANATORY NOTE ACCOMPANYING THE ANNUAL ACCOUNTS OF THE DISTRICT ROAD CESS COMMITTEE FOR THE CESS YEAR 1885-86.

Establishments—The excess cost over the budget allotments under the heads "Establishment of collection office." "Administration," "Establishment of Public Works," and "Staging bunglow establishment" is due to the fact that the pay of all establishments for the month of September last was in consequence of the Durga Puja holidays paid on the 30th of the same month under the Account of Conseller involve.

of the same month under the Accountant-General's circular.

Public Works—Original Works. Road No. 14, Baliatore to Damooda.—The excess over the budget grant is due to the fact that a culvert broken by the recent flood had to be rebuilt with sufficient waterway. The necessary cost was sanctioned by the Committee at their meeting held on the 5th April 1886, to be met from the allotment under head "Prob ble balance."

F. H. Skrine, Chairman, District Board, Beerbhoom.

Вевивноом,

F. H. SKRINE,

The 18th March 1887.

Chairman, District Board, Beerbhoom.

From-R. CORNISH, Esq., Chairman, District Board, Midnapore,

To-The Commissioner of the Burdwan Division.

I HAVE the honour to submit the annual account and report of the Midnapore District

Read Fund for the cess year 1885-86.

bren completed.

- The annual accounts were duly examined and audited by the Finance Committee.

No. 595, dated Midnapore, the 7th March 1887.

- The percentage of average attendance of members was 42.9, while that
- of the previous year was 43.7. During the year under report there were three meetings of the
- Branch Committee at Tumlook, four at Ghattal and one at Contai. In all the meetings of the
- Branch Committee, there was a quorum.
- The following are the most important original works that were constructed or were in course of construction during the year under report :-
  - Materials for construction of a bridge of 4 spans each of 30'-4" over the Rohar kbal on the 22nd mile of Road No. 3, Ladhasye to Parihatty, and for renewal of platform and construction of two additional spans to the bridge
- over Gaburdhun khal on the 22nd mile of Road No. 6, Burdwan road, are being collected. The 10th and 11th mile of Road No. 5, Ghattal to Chunderkona, have been raised (b) and widened.
- Materials for the construction of a bridge over Baromesha khal in the 10th (c) mile of Road No. 8 from Gurbetta to Ramghur, and for the construction of bridges and culverts on road No. 10, Satbankoorah to Gowaltore, are being collected. The bridge over the Jashpore khal on road No. 12 Dohijuree to Sildah, has almost (d)
  - A portion of road No. 23, from Kheerpoy to Buddengunge, and of road No. 15, (e) from Debrah to Ghattal, has been raised and widened. Arrangements made for acquiring lands for the construction of road No. 77 (f)
  - from Balichuck to Sobung. Trees planted on both sides of the principal roads have been maintained, and their
- growth appears, on the whole, satisfactory. 7. All the important roads of this district were kept during the year in good and drivable order, and repaired as far as funds were available. The unmetalled roads were also all maintained during the year and kept fit for wheel traffic. 8. A statement showing the number and length of village roads repaired and constructed

Name of sub-division.		Name of village reads repaired and cons- tructed during the year 1885-86.	Approximate length of the village roads.	Actual expenditure in- curred during the year 1880-80.	Rewares.
Sudder sub-division Contai ditto Ghattal ditto Tumlook ditto	•••	72 41 12 22	192 106} 80.\ 99	Rs. A. P.  8,952 3 0 4,882 7 0 3,397 7 0 4,905 15 0	

<sup>9.</sup> Work on village roads has been carried out chiefly by village punchaets under the supervision of the Sub-divisional officers and the members of the Branch Committees, and in

some cases by contractors where suitable local agency was not found. 10. The establishment under the Committee worked very well and hard. District Engineer gave me complete satisfaction, and among the subordinates, I would specially

mention Baboo Chunder Siker Dass. The books and accounts of the Committee were regularly kept, and the auditor was satisfied with the manner in which the accounts were entered in the books.

13. The collections of road cess during the year under report were Rs. 1,61,413-5-8, against Rs. 1,46,992-1-3 in the preceding year. Baboo Upendro Chunder Mookerjee, the Road Cess Deputy Collector, was in charge of collection work throughout the year, and descrete much condition to the condition with the condition work throughout the year, and descrete much condition to the condition with the condition work throughout the year, and descrete much condition to the condition with the co erves much credit for the good collections.

### Explanatory Memorandum to accompany the Annual Accounts.

Expenditure side — The expenditure as shown in the annual account under the heads of "Original" and "Repairs" is ks. 26,048-9-6 and Rs. 1,12,537-1, while the expenditure in the monthly accounts against those heads amounts to Rs. 26,078-1-6 and Rs. 1,12,507-9 respectively, that is the expenditure of original work is less by Rs. 29-8 and that of repairs exceeds by the same amount. The reason of this difference is owing to the fact that materials worth Rs. 29-8 were at first bought and charged to original work, and subsequently after the submission of the accounts the materials were transferred to the head of " Repairs " and used in repairing the bridges.

BEPIN BEHARY DUTT,

No. 277, dated Hooghly, the 5th February 1887. From-G. TOYNBRE, Esq., c.s., Chairman of the District Road Committee, Hooghly To-The Commissioner of the Burdwan Division.

I HAVE the honour to submit the report on the administration of the Hooghly and Howrah

- District Road Fund for the cess year 1885-86. The District Committee had six meetings, the Howrah Branch. Committee five, and the Serampore and Johanahad Branch Committees had three meetings each,
- The Branch Committees had very little business to transact, and consequently the number of meetings was small. There was no increase or decrease in the mileage of either metalled or unmetalled
- roads. The original works undertaken and completed and paid for during the year consisted
- of four masonry culverts on Road No. 81 from Goghat to Shambazar, and of four culverts on road No. 80 from Pursurah to Jehanabad.
- All repairs entered in the budget estimate were undertaken, and were completed with the exception of repairs, amounting to Rs. 280, on road No. 32 from Mossat to Juggut-
- bullubhpore. The District Engineer points out that while the average annual grant for repairs during the seven years from 1878-79 to 1884-85 amounted to Rs. 98,901, and the average annual value of work done and paid for during the cess year amounted to Rs. 84,605 or 85.54 per cent. of the grant, the grant in the year under report amounted to Rs. 81,790 and the value of work done and paid for to Rs. 80,248 or 98 per cent. of the grant.
- The state of the culverts and bridges on the district roads is fairly satisfactory, but the condition of many of the roads both metalled and unmetalled has been the subject of complaint. This is probably due to a great measure to the wants of funds, the available income of the Committee not being sufficient to keep the large mileage of roads in existence in efficient and satisfactory repair. The system under which the work has been done and the small

amount of supervision exercised by the District Engineer over the work of contractors were also to some extent the cause of the dissatisfaction felt in the condition of the roads. It is to be

- hoped that the District Board recently constituted will be more successful in these matters. To be so, however, they must have a new District Engineer. The condition of the village roads, and the system under which they were maintained and repaired, and the work done was supervised and paid for remained unchanged. Very little new work was, however, done, as the sum available for this kind of roads was very small
- during the year under report. The trees planted along the sides of the district roads were properly looked after and
- are now, in the case of most of the roads, in a very thriving condition.
- The different clerical establishments under the Committee have generally speaking done their work satisfactorily. It was, however, discovered in the course of the year that the
- head clark of the Committee's office had been for a considerable time past misappropriating a sum of Rs. 30 which the Committee had been receiving monthly from the Municipal Commissioners of Hooghly and Chinsuran as rent of a part of the Committee's Office building which was occupied by the Municipal Commissioners for their Office. On the discovery of the embezzlement, the entire amount defalcated was recovered from the culprit, and he was prosecuted

and sentenced to 4 years' rigorous imprisonment. On appeal, the conviction was upheld by the High Court, but the sentence was reduced to one of imprisonment for three years. The District Engineer's work has not been satisfactory in my opinion. He is not energetic or active enough, and does not see to small matters himself. I consider that he is decidedly not the best man the District Board could get for the money and would recommend that he be not confirmed. I have arrived at this conclusion deliberately after three years' experience of his work.

for Chairman.

B. Dr., Opendra Narain Nundy, S. Members. Soshi Bhuson Banerjer,

SHYAMDHUN ROY,
for Vice-Chairman.

No. 93, dated Burdwan, the 16th May 1887.

From—E. V. Westmacott, Esq., Offg. Commissioner of the Burdwan Division, To—The Secretary to the Government of Bengal, Public Works Department.

WITH reference to section 179 of the Cess Act of 1880, I have the honour to submit herewith, in original, the annual reports and accounts of the receipts and expenditure of the Road Cess Funds of the several districts of this division for the cess year 1885-86.

2. The reports and accounts of the districts were received in this office on the dates

noted below:-

Burdwan	•••	4+1	•••	•••	21st January 188	1.
Boerbhoom	•••	•••	•••		3rd February "	
Hooguly	•••	•••	• • •	•••	9th ditto.	
Midnapore	•••	•••	•••	•••	10th March ,,	
Bancoorah	•••	•••	•••	• • •	28th ditto.	

but all of these had to be returned for correction and further explanation, and the revised accounts were received on the dates undernoted:--

19th March and 19th April 1887. ... Burdwan 28th ditto and 28th ditto. ••• Hooghly ... 23rd March 1887. Beerbhoom 14th April ,, Midnapore ••• 7th May " Bancoorah

3. The total receipts of all the districts in the division for the cess year 1885-86, including balances on let October 1885, and sums under the heads, advances and deposits, amounted to Rs. 8,12,695, viz:—

Rs.

Burdwan	•••	• • •	••	•••	1,93,029
Beerbhoom	• • •	•••	•••		1,17,878
Hoogisty and Howrah	•••	•••	•••	•••	1,90,523 2,40,262
Midnapore	•••	•••		•••	71.002
Bancoorah	•••	•••	•••	•••	11,00%
		•	Total	•••	8,12,695

4. The net disbursements of the year (excluding advances and deposits, Rs. S4,136) amounted to Rs. 6,12,314, viz:—

***	•••	•••	•••	54,957
•••	•••	•••	•••	81,135
•••	•••	•••	•••	1,33,522
•••	•••	•••	•••	1,62,841 1,75,859
	•••	•••	•••	3,75,505
		Total	•••	6,12,314
	•••	••• •••		••• ··· ··· ··· ··· ··· ··· ··· ···

5. The available balance on 30th September 1886 aggregated Rs. 1,16,245, viz :-

Midnapore	•••	•••	Total	•••	1,16,245
Burdwan		•••	•••	•••	40.802
Hooghly and Howrah	•••	•••	•••	•••	16,601
Beerbhoom .	•••	•••		•••	21.527
Bancoorah	•••	•••	•••	•••	7,32 <b>1</b> 30,59 <b>1</b>

6. Attention has been given by every District Committee to arboriculture, the existing trees have been maintained in all the districts. New trees have been planted along road sides in the three districts of Burdwan, Beerbhoom and Midnapore; no new trees have been planted in Bancoorah and Hooghly districts.

PART II

7. Village roads in the districts of this Division have been maintained so far as funds permitted. I have very good reason to believe that much of the money shewn as spent on village roads has been frittered away on petty foot-paths for the internal communications of villages and not on roads to bring villages into communication with the main lines of district roads, and so with the enter world. It appears to me that the main lines should be completed first, and that it is premature to spend money on village roads till main or branch lines are brought into the neighbourhood of the villages.

8. Generally as a whole the roads of the division have been well maintained with the exception of those in the Hooghly district. The District Road Committee of Hooghly report that for want of funds the condition of many of the roads both metalled and unmetalled is unsatisfactory, and that they are unable to do all that is necessary with their small income. I am of opinion that expenditure on the construction and maintenance of metalled roads has been

much heavier than is warranted by the Road Cess income, and while benefiting certain localities

generally in the neighbourhood of head-quarters of districts, has deprived other tracts of all benefit from the funds to which they contribute. In the district of Howrah the three southern thannahs of Bagnan, Shyampore and Oolooberia have no Road Cess roads, on account of the large amount spent on metalling, entirely within thirteen miles from the centre of the town of Howrah. The Road Cess funds are scarcely adequate to meet the district requirements in bridging and unmetalled roads, and where metalling is wanted, I am of opinion, that the cost

should be provided by tolls, which, moreover, would secure a contribution from the mercantile classes, instead of expecting the land alone to pay for benefits which are enjoyed by all classes.

9. With the exception of the Hooghly District Engineer who is reported to have been wanting in energy, the District Engineers of all the districts of this division have during the year worked well.

# LAND SALE NOTICES.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates or shares of estates in the district of Bhagulpore will be put up for sale at the Collector's office of that district on the 23rd August 1887, Tuesday, for arrears of revenue and other demands which, by the Regulations and Acts in force, are directed to be realised in the same manner as arrears of revenue.

When in columns 5, 7 and 9 of the appended statement it is stated that only a share is to be sold, a separate account is kept for such share, and the other share or shares in the estate are excladed from the sale:—

Subscribers are therefore requested to send in their subscriptions for the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

#### H. A. D. PHILLIPS.

Under-Secy. to the Govt. of Bengal.

The 24th November 1886.

The following revised advertisement is published in substitution of that which appeared at page 1084, Part II of the Calcutta Gasette of the 9th July 1884:—

#### The Indian Law Reports,

#### Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council authority of the Governor-General in Council appear in monthly parts, published as soon as possible after the first of each month at Calcutta. Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series. reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat; the copies for subscribers registered by Messrs. Thacker, Spink & Co., are distributed by that firm; and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1885, the terms of subscription and sale will be as follows :-

Terms of subscription payable annually in advance. For the complete series, including postage, Rs. 22-8.

## THE CALCUTTA GAZETTE, AUGUST 24, 1887. .

#### No. 3943A.

GENERAL.—The 10th August 1887.—Baboo Deno Nath Dey, Deputy Magistrate and Deputy Collector, is appointed to perform the functions of a Collector under section 4 of Act VII (B.C.) of 1880 in the district of Gya, in supersession of Government notification, dated the 13th May 1887, vesting Baboo Raj Kishore Narain Sing with powers of a

Collector in Gya under the Act abovementioned. The 18th August 1887 .- Baboo Kustori Lal, Temporary Deputy Magistrate and Deputy Collector, on leave, is posted to the Sudder station of the district of Sarun.

The 20th August 1887 .- Mr. R. H. Anderson, Officiating District and Sessions Judge, Beerbhoom, acted in the first grade of Joint-Mugistrates and Deputy Collectors on the 16th

and 17th July 1887.

Baboo Kumnd Nath Mookerjee, Deputy Magistrate and Deputy Collector, Ghattal, Midnapore, is vested with the powers of a Collector under Act X of 1870 in the district

of Midnapore. The 22nd August 1887.—Moulvic Shere Ali, Deputy Magistrate and Deputy Collector, is posted to the Sudder station of the district of Shahabad, with effect from the 15th June

1887 Baboo Kristo Chunder Chuckerbutty, Temporary Sub-Deputy Collector, Chittagong Hill Tracts, is allowed leave for one month, under rule 2. section 138 of the Civil Leave

Code, with effect from the 22nd September next, or such subsequent date as he may avail himself of it. Bahoo Gouri Sunker Biswas, Deputy Magistrate and Deputy Collector, Nowgong, Rajshahye, is transferred to the Sudder station of the district of Tipperah. Baboo Surrut Chunder Das, Deputy Magistrate and Deputy Collector, Tipperah, is transferred to Rajshahye, and is appointed to have charge of the Nowgong sub-division of

that district. Mr. Syud Nurul Huda, Assistant Magistrate and Collector, Mozufferpore, is trans-

ferred to the Sudder station of the district of Shahahad. Mr. J. G. Ritchie, Joint-Magistrate and Deputy Collector, Serampore, Hooghly, is appointed to act as Magistrate and Collector of the 24-Pergunnahs, during the absence, on leave, of Mr. A. Forbes, or until further orders.

Mr. F. W. Duke, Assistant Magistrate and Collector, Durbhunga, is transferred to

Hooghly, and is appointed to have charge of the Serampore sub-division of that district, during the absence, on deputation, of Mr. J. G. Ritchie, or until further orders. The 23rd August 1887.—Mr. Nunda Krishna Bose, Officiating Joint-Magistrate and Deputy Collector, Backergunge, is appointed to act as District and Sessions Judge of

Noakholly, during the absence, on leave, of Mr. W. H. M. Gun, or until further orders.

This cancels the order of the 16th instant appointing Mr. G. W. Place to act as

District and Sessions Judge of Noakholly. The privilege leave for one month granted to Baboo Kali Prosonno Chowdry, Temporary Deputy Magistrate and Deputy Collector, Noakholly, under the order of the 5th July last, is commuted to leave for six months, under sections 128 and 141, chapter X of the Civil Leave Code, with effect from the 15th July 1887.

Police. - The 23rd August 1887 .- Mr. C. E. Fabre-Tonnerre, District Superintendent of Police, Southal Pergunnahs, is transferred to Beerbhoom, and is appointed to act as District Superintendent of Police of that district. Mr. H. E. C. Paget, Officiating District Superintendent of Police, Beerbhoom, is

transferred to the Sonthal Pergunnahs, and is appointed to act as District Superintendent of Police of that district. Mr. C. P. Crouch, District Superintendent of Police, Balasore, is allowed leave from the date on which he may be relieved up to the 15th October 1887, under section 72 of the

Civil Leave Code. Mr. G. A. Patton, Assistant Superintendent of Police, in charge of the Gurjhat Mehals Police, is appointed to act as District Superintendent of Police, Balasore, during the absence, on leave, of Mr. C. P. Crouch, or until further orders.

Ecclesiastical.—The 23rd August 1887.—The Revd. A. S. Dyer, Chaplain of Kidderpore and of the Presidency Jail, is allowed leave for two months, under section 122, chapter 1X of the Civil Leave Code, with effect from the 19th September next.

The Revd. J. Ellis is appointed to act as Chaplain of Kidderpore and of the Presidency Jail during the absence, on leave, of the Revd. A. S. Dyer, or until further orders.

EDUCATION.—The 23rd August 1887.—Mr. W. T. Webb, Professor, Presidency College, is appointed to act, until further orders, in class II of the Bengal Educational Service, with effect from the 24th May 1887, vice Mr. A. Ewbank, on furlough.

Mr. A. Macdonell, Professor, Presidency College, is appointed to act, until further orders, in class III of the Bengal Educational Service, with offect from the 24th May 1887, vice Mr. W. T. Webb.

Mr. E. F. Mondy, Professor, Government Engineering College, Seebpore, is appointed to act, until further orders, in class III of the Bengal Educational Service, with effect from the 18th June 1887, vice Mr. A. C. Edwards, on leave.

OPIUM .- The 16th August 1887 .- Moulvie Abdul Mujid, Probationary Assistant Sub

Deputy Opium Agent, Behar Agency, is allowed privilege leave for two months and tw weeks, with effect from the 8th instant, or such subsequent date as he may avail himself of it The 22nd August 1887.—Mr. A. F. Mackenzie, Sub-Deputy Opium Agent, Cawnpore, is allowed leave for three months, under section 72 of the Civil Leave Code, with effect from the 2nd proximo, or such subsequent date as he may be relieved.

Mr. J. R. Mawson, Assistant Sub-Deputy Opium Agent, Benares Agency, is appointed to act as Sub-Deputy Opium Agent, Cawinpore, during the absence, on leave, of Mr. A. F. Mackenzie, or until further orders. -The 20th August 1887.—In supersession of the notification dated the 25th MEDICAL.-

July 1887, published at page 675, Part I of the Calcutta Gazette of the 27th idem, it is notified that Assistant Surgeon Poorno Chunder Singh held medical charge of the civil station of Doomka from the forenoon of the 29th May to the afternoon of the 17th June 1887.

The following is republished from the Assam Gazette:-

#### Instructions.

- Dhubri and Goalundo route to Assam .- (a) When emigrants are to proceed vid Dhubri, the person in charge must place them for inspection, together with their way-bill, before the Hospital Assistant at Jaipore Hat, and the Embarkation Agent at Dhubri, who will endorse his remarks on the way-bill, and then either make it over to the master of the steamer should the batch proceed to destination by water, or return it to the person in charge should the batch proceed to destination by land. In the former case, the master must be careful, when emigrants are being finally landed, to make over the way-bill to the Debirkation or final Inspecting Officer concerned for its roturn with his remarks endersed thereon to the person in charge of the batch for delivery to the employer. After perusal and entry of casualties on the journey to garden, the employer must forward the way-bill to the Magistrate of the district or sub-division, who in turn should forward it to the Embarkation Agent at Dhubri for information and transmission to the Superintendent of Emigration at Calentta. In the latter case, the person in charge must, on arrival in the district or sub-division in which the garden where the labourers are to work is situate, place the emigrants, with their way-bill, before the Magistrate, who will, after endorsing his remarks on the way-bill and filling in abstract, return it to the person in charge of the batch for delivery to the employer. After perusal and entry of casualties on the journey to garden, the employer must return the way-bill to the Magistrate of the district or sun-division, who in turn should forward it to the Embarkation Agent at Duubri for information and transmission to the Superintendent of Emigration at Calcutta.
- Durbit for information and transmission to the Superintendent of Emigration at Calcutta.

  (b) When emigrants are to proceed via Goalundo, the person in charge must place them for inspection, together with their way-bill, before the Embarkation Agent, or, in his absence, the Magistrate at Goalundo, who will endorse his remarks on the way-bill, and then make it over to the master of the steamer in which the batch is embarked. The naster, on the steamer's arrival at Dhubri, must place the way-bill before the Embarkation Agent at Duubri for his endorsement after inspection of the emigrants, and on the completion of the voyage, or when any batch is about to be landed at its destination, make over the document to the Debarkation or final Inspecting Officer concerned for its return with his remarks endorsed thereon to the person in charge of the batch for delivery to the employer. After perusal and entry of casualties on the journey to garden, the employer must forward the way-bill to the Magistrate of the district or sub-division, who in turn should forward it to the Embarkation Agent at Goalundo for information and transmission to the Superintendent of Emigration at Calcutta.
- 2. Goalundo route to Cechar or Sylhet.—(a) When emigrants are to proceed by steamer, the person in charge must place them for inspection, together with their way-bill, before the Emuschation Agent, or, in his absence, the Magistrate at Goalundo, who will endorse his remarks on the way-bill, and then make it over to the master of the steamer in which the batch is embarked. The master, on the completion of the voyage, or when any batch is about to be landed at its destination, must make over the way-bill to the Debarkation or final Inspec ing Officer con ened for its return with his remarks endorsed thereon to the person in charge of the batch for delivery to the employer. After perusal and entry of cosmalties on the journey to garden, the employer must forward the way-bill to the Magistrate of the district or sub-division, who in turn should forward it to the Embarkation Agent at Goalundo for information and transmission to the Superintendent of Emigration at Calcuta.

  (b) When emigrants are to proceed by country boat, the person in cause must place
- them for inspection, together with their way-bill, before the Embarkation Arent, or, in his absence, the Migistrate at Goulando, the Sub-divisional Officer at Narainguage, and the Magistrate of the district or sub-division in which the garden where the labourers are to work is situate, who will after endorsing his remarks on the way-bill and filling in abstract, return it to the person in charge of the batch for delivery to the employer. After perusal and entry of casualties on the journey to garden, the employer must return the way-bill to the Magistrate of the district or sub-division, who in turn should forward it to the Embarkation Agent or Magistrate concerned in the embarkation for information and transmission to the Superintendent of Emigration at Colontia.
- Chittagong Hill Tracts viâ Ca cutta, the person in charge must place them for inspection, with their way-bill, before the Superintendent of Emigration at Calcutta, who will enderse his remarks on the way-bill, and then make it over to the master of the steamer in which the batch is embarked. The master, on the steamer's arrival at Chittagong, must place the way-bill before the Magistrate at the place of disembarkation, who will, after endorsing his remarks thereon and filting in abstract, return it to the person in charge of the batch for delivery to the employer. After personal and entry of casualties on the journey to garden, the employer must return the way-bill to the Magistrate of the district or sub-division, who in turn should forward it to the Superintendent of Emigration at Calcutta, for information.

4. Treatment of emigrants on the journey.—The person in charge must take every nare of the emigrants during the journey. He must give them a cooked meal before they start; and if the journey is likely to occupy more than six hours, he must distribute biscuits and sugar in the proportion of two biscuits and one ounce of sugar to each emigrant of and above ten years of age, and one biscuit and half an ounce of sugar to each emigrant under the age of ten years; and if more than eight hours, dry provision must be supplied, such as choora, suttoo, and the like, in such quantity as may be determined by the Superintend at of Emigration or other authorised officer. It must be seen that the clothing provided is worn by the emigrants whenever the weather renders such a precaution necessary. At the close of every day's march, or of a train journey, the emigrants must be properly housed, and provided with a cooked m-al and wholesome supply of water for drinking and ablution purposes.

5. Any special instructions.

6. Obedience to instructions.—The instructions on the way-hill must be strictly complied with; and any failure to do so, or ill-treatment of any emigrant, will render the person in charge of the batch liable to punishment under the provisions of section 148 of Act I of 1882, or in case he is a licensed person, to cancellation and refusal of license thereafter.

#### Instructions.

- Dhubri and Goalundo route to Assum .- (a) When emigrants are to proceed via Dhubri, the sardar or person in charge must place them for inspection, together with their way-bill, before the Hospital Assistant at Jaipore Hat and the Embarkation Agent at Dhubri, who will endorse his remarks on the way-hill, and then either make it over to the master of the steamer should the batch proceed to destination by water, or return it to the sardar or person in charge should the batch proceed to destination by land. In the former case, the master must be careful, when emigrants are being finally landed, to make over the way-bill to the Debarkation or final Inspecting Officer concerned for its return with his remarks endorsed thereon to the sardar or person in charge of the batch for delivery to the emplayer. After perusal and entry of casualties on the journey to garden, the employer must forward the waybill to the Magistrate of the district or sub-division, who in turn should forward it to the Embarkation Agent at Dhubri for information and transmission to the Superintendent of Emigration at Calcutta. In the latter case, the sardar or person in charge must, on arrival in the district or sub-division in which the garden where the labourers are to work is situate, place the emigrants, with their way-bill, before the Magistrate, who will, after endorsing his remarks on the way-bill and filling in abstract return it to the sardar or person in charge of the batch for delivery to the employer. After perusal and entry of casualties on the journey to garden, the employer must return the way-bill to the Magistrate of the district or sub-division, who in turn should forward it to the Embarkation Agent at Dhubri for information and transmission to the Superintendent of Emigration at Calcutta.
- (b)—When emigrants are to proceed sid Goalundo, the sardar or person in charge must place them for inspection, together with their way-bill, before the Embarkation Agent, or, in his absence, the Magistrate at Goalundo, who will endorse his remarks on the way-bill and then make it over to the master of the steamer in which the batch is embarked. The master, on the steamer's arrival at Dhubri, must place the way-bill before the Embarkation Agent at Dhubri for his endorsement after inspection of the emigrants, and on the completion of the voyage, or when any batch is about to be landed at its destination, make over the document to the Debarkation or final Inspecting Officer concerned for its return with his remarks endorsed thereon to the sardar or person in charge of the baten for delivery to the employer. After perusal and entry of casualties on the journey to garden, the employer must forward the way-bill to the Magistrate of the district or sub-division, who in turn should forward it to the Embarkation Agent at Goalundo for information and transmission to the Superintendent of Emigration at Calcutta.
- 2. Goalundo route to Cachar or Sylhet.—(a)—When emigrants are to proceed by steamer, the sardar or person in charge must place them for inspection, together with their way-bill, and throughout the year, before the Embarkation Agent, or, in his absence, the Magistrate at Goalundo, who will endorse his remarks on the way-bill, and then make it over to the master of the steamer in which the batch is embarked. The master, on the completion of the voyage, or when any batch is about to be landed at its destination, must make over the way-bill to the Debarkation or final Inspecting Officer concerned, for its return with his remarks endorsed thereon to the sardar or person in charge of the batch for delivery to the employer. After perusal and entry of casualties on the journey to garden, the employer must forward the way-bill to the Magistrate of the district or sub-division, who in turn should forward it to the Embarkation Agent at Goalundo, for information and transmission to the Superintendent of Emigration at Calcutta.
- (b)—When emigrants are to proceed by country boat, the sardar or person in charge must place them for inspection, to gether with their way bill, before the Embarkation Agent, or, in his absence, the Magistrate at Goalando, the Sub-divisional Officer at Narainguage, and the Magistrate of the district or sub-division in which the garden where the labourers are to work is situate, who will, after endorsing his remarks on the way-hill, and filling in abstract, return it to the sardar or person in charge of the batch for delivery to the employer. After perusal and entry of casualties on the journey to garden, the employer must return the way-bill to the Magistrate of the district or sub-division, who in turn should forward it to the Embarkation Agent or Magistrate concerned in the embarkation for information and transmission to the Superintendent of Emigration at Calcutta.
- 3. Calcutta route to Chittagong.—When emigrants are to proceed to Chittagong or Chittagong Holl Tracts via Calcutta, the sardar or person in charge must place them for inspection with their way-bill before the Superintendent of Emigration at Calcutta, who will endorse his remarks in the way-bill, and then make it over to the master of the steamer in which the batch is embarked. The moster, on the steamer's arrival at Cuittagong, must place the way-bill before the Magistrate at the place of disembarkation, who will, after endorsing his remarks th reon, and filting in abstract, return it to the sardar or person in charge of the batch for delivery to the employer. After perusal and entry of casualties on the journey to garden, the employer must return the way-bill to the Magistrate of the district or sub-division, who in turn should forward it to the Superint indent of Emigration at Calcutta for information.
- 4. Treatment of emigrants on the journey.—The sarder or person in charge must take every care of the emigrants during the journey. He must give them a cooked meal before they start; and, if the journey is likely to occupy more than six hours, he must distribute biscuits and sugar in the porportion of two biscuits and one ounce of sugar to each emigrant of and above ten years of age, and one biscuit and half an ounce of sugar to each emigrant under the age of ten years; and if more than eight hours, dry provision must be supplied, such

as choors, suttoo, and the like, in such quantity as may be determined by the Superintendent of Emigration or other authorized officer. It must be seen that the clothing provided is worn by the emigrants whenever the weather renders such a precaution necessary. At the close of every day's march, or of a train-journey, the emigrants must be properly housed, and provided with a cooked meal and wholesome supply of water for drinking and ablution purposes.

5. Any special instructions.

6. Obedience to instructions.—The instructions on the way-bill must be strictly complied with; and any failure to do so, or ill-treatment of any emigrant, will render the sardar or person in charge of the batch liable to punishment under the provisions of section 153 of Act I of 1882, or, in case he is a sardar, to refusal of recruiting certificate thereafter.

#### [First Publication.] NOTIFICATION.

The 23rd August 1887.—The following Notice to Mariners is published for general information.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

#### GOVERNMENT OF BENGAL, FINANCIAL DEPARTMENT.

#### NOTICE TO MARINERS-(No. 51).

#### RED SEA.

#### (1). Reported sunken rocks Northward of Jebel Zukur island.

With reference to Notice to Mariners No. 47, of 22nd July 1887, on the reported sunken rocks northward of Jebel Zukur island, the Admiralty has notified that a close examination has been made on two occasions by H. M. S. Griffon of the area in which the dangers reported by the steam-vessels Avocet and Teddington are said to lie, without the discovery of any sign of shouling of the water.

Pending the report of the inquiry into the loss of the latter vessel, and the receipt of evidence as to her position, no furthur search will be made, but vessels are warned to pass to the westward of a line joining Centre Peak island, Zebayir islands, and High island, Jebel

Zukur.

#### (2). Dahalak Bank-Position of wreck Northward of Seghalah island.

Information has been received from Commander Hon'ble H. Lambton, H. M. S. Dolphin, through the Admiralty, that the steam-vessel Graville lies stranded about two miles northward of Seghulah island, Dahalak Bank.

The vessel, the mast and funnel of which were still standing, lies in a depth of three

fathoms, with the following bearings and distance:-

North-cast point of Seghalah island South-west point of Bilhah island ... S.S.E., distant nearly two miles.

... N.W. by  $W_{-\frac{1}{2}}$  W.

Position.—Latitude 15° 47′ 15" N.; longitude 40° 44′ 0" E.

Note.—It does not appear likely that the Graville will break up for some time.

The bearings are Magnetic. Variation 4° westerly in 1887.

By direction of the Government of Bengal,

ARTHUR W. STIFFE. Captain, 1.M.,

Port Officer of Calcuita.

A Company of the Company

#### [Third Publication.] NOTIFICATION.

The 9th August 1887.—The following Notice to Mariners is published for general information.

> COLMAN MACAULAY, Secretary to the Govt. of Bengal.

#### GOVERNMENT OF BENGAL, FINANCIAL DEPARTMENT.

#### NOTICE TO MARINERS-(No. 50). ARABIAN SEA AND INDIAN OCEAN.

Reported non-existence of shoals.

THE Admiralty has given notice that, resulting from recent examination made by H. M.'s Surveying Vessel Flying Fish, the following reported shouls have been expunged from the Admiralty charts:—

(1) City of Boston bank in the Arabian Sea, latitude 9° 31' N.; longitude 59°

55' E.

(2) Behar bank in the Indian Ocean in latitude 6° 04' N.; longitude 79° 13' E. By direction of the Government of Bengal,

> ARTHUR W. STIFFE. Captain, I.M., Port Officer of Calcutta.

PORT OFFICE, Calcutta, the 5th August 1887.

#### JUDICIAL DEPARTMENT.

#### No. 3944A.

The 20th August 1887.—Under the authority vested in him by the final clause of section 357 of the Code of Criminal Procedure, Act X of 1882, the Lieutenant-Governor empowers Moulvi Hushmah Hussain, Sub-Deputy Magistrate, Paina, to take down evidence in criminal cases in the English language.

The 22nd August 1887 .- Mr. J. C. Chambers is appointed to be an Honorary Magistrate for the Municipal Bench at Naraingunge, in the district of Dacca, and is vested with the powers of a Magistrate of the third class.

Mr. F. W. Duke, Assistant Magistrate and Collector, Scrampore, Hooghly, is vested

with the powers of a Magistrate of the first class.

Baboo Satis Chandra Bose, Temporary Deputy Magistrate and Deputy Collector, Noakholly, is vested with the powers of a Magistrate of the second class.

Baboo Surendra Nath Ghose, Officiating Deputy Magistrate and Deputy Collector, Khoolna, is vested with the powers of a Magistrate of the second class.

The 23rd August 1887. - Baboo Purno Chunder Shome, Officiating Subordinate Judge and Small Cause Court Judge of Monghyr, in the district of Bhagulpore, is appointed to be an Additional Subordinate Judge of the third grade, in the district of Shahabad, for one year, but will be employed as Additional Subordinate Judge of Gva.

> J. WARE EDGAR, Offg. Chief Secy. to the Govt. of Bengal.

#### · NOTIFICATION.

The 20th August 1887.—It is hereby notified that Upcadra Nath Banerjee, late a Mohurir in the Dankooni Drainage Department of the Hooghly Collectorate, who has been convicted of criminal breach of trust, is declared incapable of serving Government again in any capacity.

NOTIFICATION.

Simla, No. 1245, the 29th July 1887.

THE following Proclamation by Her Majesty the Queen, which appeared in the Supplement to the London Gazette of the 17th June 1887, is republished for general information :-

> For extending pardons to soldiers who may have deserted from Our Land Forces. VICTORIA, R.

Whereas We are desirous to mark the completion of the fiftieth year of Our Reign by extending Our pardon to soldiers who may have deserted from Our Land Forces previously to the issuing of this Our Royal Proclamation, we have thought fit, by and with the advice of Our Privy Council, to publish this Our Royal Proclamation, and do hereby accordingly grant Our Most Gracious pardon to all mon who having, before the date of this Proclamation, deserted or absented themselves without leave from Our Regular Forces, Militia, or Reserve Forces, or having frauduleutly enlisted within the meaning of section 13 of the Army Act, or having while in the Army Reserve irregularly enlisted in Our Regular Forces or Militia, shall report themselves within two months from the date of this Proclamation, if residing in the United Kingdom, the Channel Islands, or the Isle of Man, or within four months therefrom, if residing elsewhere; and We do hereby declare that such men shall, an so reporting themselves, be released and discharged from all prosecutions, imprisonments, and penalties, other than loss of service, pay, deferred pay, or pension, commenced or incurred by reason of such offences; and We do further declare that all such mon who enlisted before the 21st June 1877, or who have been in a state of desertion or absence without leave for a period exceeding five years, or who may be physically unfit for military service, will not be called upon to rejoin for service, but will be granted protecting certificates on their so reporting themselves. WHEREAS We are desirous to mark the completion of the fiftieth year of Our Reign by extending Our

ing thomselves.

The men to whom this Our Proclamation applies are not to report themselves in person but are to do so by letter, giving full particulars by which they can be identified, and if they are suffering from physical disability rendering them unable to rejoin the Service, they are to state the same clearly.

The 23rd August 1887.

No. 291. - Notification. - The following notification, issued by the Government of India.

Public Works Department, is republished for information:—
No. 265.—The 18th August 1887.—Major R. A. Sargenunt, R.E., class 1, grade 2, Superior Revenue
Establishment of State Railways, is promoted temperarily to class 1, grade 1, with effect from the 3rd June 1887.

#### RAILWAY.

#### The 23rd August 1887.

No. 292.—Declaration.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by the Government at the public expense for a public purpose, viz., for the construction of the Tirhoot State Railway extension in the following villages of Bhagulpore district :-

Gurhia, Pergunnah Naridigar, Pipra, Narainpur, Piprahee, Rampur, Doorgapur, Rambissenpur, Pergunnah Harawut, Doulutpur, Chilownee, Sireepur, Bhawanipur,

it is hereby declared that for the above purpose a strip of land measuring, more or less, 14 miles in length, with an average width of 200 feet or thereabout, is required in the aforesaid villages of Bhagulpore district.

This declaration is made, under the provisions of section 6, Act X of 1870, to all whom

it may concern.

No. 299 .- Declaration .- Whereas it appears to the Lieutenant-Governor of Bougal that land is required to be taken by Government at the public expense for a public purpose, viz., for the extension of the Buxar Railway Station premises, in the village Misrowlia, pergunnah Bhojepore, zillah Shahabad, it is hereby declared that for the above purpose a piece of land measuring, more or less, 5 beegahs 4 cottahs and 11 chittacks of standard measurement, bounded on the north by the land of the late Mr. J. Watts in Sohneputty Khalsa; on the south by Thakur Kumkar's fields in Misrowlia; on the cast by the Itari road; and on the west by the Buxar Station premises, is required within the aforesaid village of Misrowlia.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all

whom it may concern.

C. M. BROWNE, Col., R.E., Offg. Secy. to the Govt. of Bengal, P. W. Dept.

#### IRRIGATION.

#### The 23rd August 1887.

No. 293 .- Notification .- The Orissa Coast Canal, Range IVB, between Soolpatha on the Panchpara river and Nulcool on the Burrabulong river, measuring 61 miles, will be opened to traffic on the 1st September 1887.

No. 294.—Notification.—With reference to Bengal Government Notification No. 293, dated 23rd August 1887, and agreeably to Section II of Act V (B.C.) of 1864, it is hereby declared that the provisions of the said Act shall, from and after 1st September 1887, apply

to Range IVB of the Orissa Coast Canal.

No. 295.—Notification.—With reference to Bengal Government Notification No. 294, dated 23rd August 1887, it is hereby declared that, under Section VI of Act V (B.C.) of 1864, the Lieutenant-Governor of Bengal has been pleased to fix temporarily the following rates for the levy of tolls at the undermentioned places in Range IVB of the Orissa Coast Canal :-

f Rates of Tolle to be charged on Range IVR.

#### Notice.

TENDERS in Public Works Department form No. 7M will be received up to 31st instant, by the Chairman of the District Board, Furrecedpur, for the supply of 587,000 (1st and 2nd class) bricks, and 135,000 brick-bats. Estimated rate Rs. 10-12 and Rs. 7-8 per 1,000, respectively.

The bricks are to be manufactured at the 13th and 15th mile of the road from Furreedpur to Madhukhali.

The manufacture work to be commenced within the first week of November, but the roal must be brought to site not later than the end of September next, i.e. before the flood subsides.

The supply is required before the 31st March next.

Each tender must be accompanied with carnest-money of Rs. 200 in currency notes.

The Chairman reserves the right of rejecting the whole or any of the tenders.

For further particulars apply to the District Engineer,

Furreedpur.

GANGADHAR MAJOOMDAR, Vice-Chairman in charge. Furreedpur District Board's Office, the 15th August 1887. (537-2)

# RESOLUTION ON THE REPORT OF THE PROTECTOR OF EMIGRANTS ON EMIGRATION TO BRITISH AND FOREIGN COLONIES FOR THE YEAR 1886.

GENERAL DEPARTMENT—COLONIAL EMIGRATION.

Calcutta, the 23rd August 1887.

RESOLUTION.

READ-

The Report by the Protector of Emigrants on emigration to British and Foreign Colonies for the year 1886.

The year 1886 is marked in the history of Emigration from India to the Colonies by the coming into force of Act XXI of 1883 which repealed the Indian Emigration Act of 1871. The introduction of the Act of 1883 was postponed until rules had been framed for its administration. Draft rules under the Act were published in January 1885, and were considered at a Conference held in August of the same year, in which the Agents for Colonies receiving Indian emigrants took part. The alterations approved at the Conference were for the most part adopted by Government, and the Act and Rules framed under it came into force simultaneously from 1st April 1886. The changes made by the new law are chiefly matters of detail with regard to the registration of emigrants, appointment of registering officers, execution of contracts, the accommodation to be required on emigrant vessels, and the fees to be levied on emigration. The Protector reports that the new provisions of the law have

generally worked smoothly, with the exception of the provisions contained in section 35 of the Act, and section IV of Chapter II of the Rules which require that emigrants' agreements shall be executed in triplicate. The Lieutenant-Governor has recently called on Commissioners of Divisions to report on the

working of the present system of registration and execution of contracts, and

he reserves for the present remarks on this subject. Among the administrative measures of the year may be mentioned—

(a).—The notification of the Government of India, of April 1886, fixing

Rs. 2-8 as the fee leviable under sections 38 and 73 of the Act on account of each emigrant embarked.

(b).—The orders of this Government, of September 1886, sanctioning, as an experimental measure, the payment of remuneration to magisterial clerks for the registration of emigrants to the Colonies at rates of one-anna for each labourer and half-an-anna for each dependent, when the numbers exceed 50 in a month,

and within a limit of Rs. 15.

noticed in last year's Resolution, has not been fully maintained.

Emigration to the Colonies during 1886 was on a somewhat larger

scale than in the preceding year, but the number Colonies from which requisitions were received for labourers. were received for labourers. of emigrants did not nearly come up to that of 1844-85, before the decline of the sugar industry, when ten Colonies had agencies working in Calcutta. Only four Colonies indented last season for labourers, viz., British Colonies-Demerara, Trinidad, Fiji, and the Dutch Colony of Surinam. On the whole, requisitions were received for 7,010 labourers against 6,430 in 1885-86 and 18,639 in 1884-85. Of the total number for whom requisitions were received in the year under review, Demerara indented for 3,710, or a little more than half, Trinidad indented for 2.050, Fiji 930, and Surinam 320. The increased demand for Indian labour in Fiji,

From the recent official reports received from the Colonies which import Indian labour, it does not appear that there is likelihood of an early return to the large requisitions for labour which were received some years ago. Jamaica, Government—directed immigration has been suspended. The Protector of lumigrants in Natal reported in March last that there was no immediate prospect of improvement in the sugar industry. In the last report received from St. Lucia, the Protector of Immigrants writes:--" The prospect of sugar is so bad that it cannot be known how soon one or more of the central factories may be forced to abandon operations. In such an event, if Demerara or Trinidad do not relieve us of the coolies thrown out of work, the one course for the Colony will be to send them back to India without the loss of a day." The same report states that the Indian immigrants in St. Lucia have suffered con-

siderably from sickness caused by employment in malarious lands and from want of work. The authorities of this Colony refused to sanction the departure of labourers no longer under indenture to Panama, where high wages, which have attracted large numbers of immigrant labourers from Jamaica, are paid on the Panama Canal Works. This refusal was prompted by considerations of the interests of the immigrants for whom the Colony is bound to provide work for five years after the term of their first indenture. The Colonial Agencies employed 466 recruiters during the year. Dr. Grant reports that applications have been more freely made for recruiting licenses

since Act XXI of 1883 came into force, no fee being now leviable. It is noticed with satisfaction that the licenses of only four Recruiters' licenses.

recruiters were cancelled for misconduct. recruiters collected 8,302 persons, an average of 18 persons to each recruiter.

The total number of persons registered during the year as intending to emigrate to the Colonies was 8,302. In the classification of these according to the provinces where they

were registered, the North-Western Provinces with Oudh come first with 4,271 registrations, while Bengal and Behar had 4,031. The largest numbers of emigrants were registered in the 24-Pergunnahs (1,388), Shahabad (1,038), Patna (990), Benares (931), Allahabad (725), and Faizabad (538). Classified according to districts of birth or residence, the largest numbers of emigrants came from Shahabad (1,060), Ghazipore (504), Patna (478), Basti (463), Azamgarh (435), Gya (332), and Allahabad (328). With regard to these figures, Dr. Grant remarks:-

"If the two emigration seasons of 1884 and 1885 be excluded, it may be said that for years past natives of the North-Western Provinces and Oudh have responded in the largest numbers to the labour requisition of the Colonies, for excepting the natives of Behar, those of the Lower Provinces generally, unless pressed by privation, have always proved, more or less, reluctant to emigrate to the Colonies, notwithstanding the favourable terms offered by the recruiters. may be noticed, accordingly, that Colonial emigrantion from the districts of the Lower Provinces, which rose into prominence during the scarcity that prevailed in them in 1884 and 1885, subsided during the comparative abundance that followed in 1886, when Colonial recruiters had therefore to revert for the majority of their recruits to the North-Western Provinces and Oudli. But in so doing they obviated the competition, however slight, that may have arisen between themselves and licensed recruiters for the toa districts. In 1886, as in 1885, the Colonial recruiters in Bengal and Behar were most active during the months-June to October-when licensed inland recruiters-sardars were least so; and the work of the one set was drawing to a close, when that of the other was extending '

Out of 8,302 persons registered, 8,121\* were admitted into the Calcutta

depôts. Of the casualties accounting for this decrease, 96 were desertions en route, 34 were detained in the mofussil depôts, and 49 were re-\* Includes one birth en route. jected by the agencies as unfit; these figures compare favourably with the casualties of the preceding year. Including persons remaining at the end of the preceding year, 8,171 persons were accommodated in the depôts during the year, 22 of whom died, 187 deserted, and 911 were rejected or discharged by the recruiting agencies for one cause or another; these figures also compare favourably with those of the preceding year. The year was healthy in the depôts, and the general average mortality was much below that of former years. Cholera, which was prevalent during the year in Calcutta and the Suburbs, caused only one of the 22 deaths in the depôts. The Medical Inspector writes:-

"It is remarkable that not a single case of cerebro-spinal fever occurred in any of the depôts; the contrast in this respect with the preceding year being noteworthy, although it is difficult to suppose that the general hygicuic condition of the depôts was very different from that which obtained in 1885. There is no doubt that the etiology of this disease has not yet been determined."

The average period for which emigrants are detained in the depôts is not given, but from the statement on page 12 of the report, it appears that only 113 persons were detained for a period exceeding three months; an outbreak of measles in the Surinam depôt was the chief cause of delay in embarkation. The general sanitary arrangements in all the depôts are reported by the Medical

Inspector to be excellent Of the 6,423 persons who actually embarked for the Colonies during

the year, 3,964 were men, 1,613 women (or 40.6 Outward Voyages. women for every 100 men) and 846 children. culating the percentage of females on the whole number embarked, including

children, the proportion was 45.4 females for every 100 males. Nine hundred and fifty-nine persons of both sexes and all ages, or 14.93 per cent of the whole number, were "return emigrants," the majority having come back from Demerara, St. Vincent and Trinidad. The emigrants were carried to the Colonies in sailing vessels (no steamers were employed on this service in 1886), and the voyages varied in length from 69 days—the fastest voyage to Fiji, to 106 days—the slowest voyage to Demerara.

• Not 2:21 as stated on page 13 of Dr. Grant's Report.

number embarked. On six of the 12 ships the death-rate was below 1 per cent., and only on two ships did the percentage of deaths exceed two. Cerebro-spinal fever caused six deaths, and measles caused much of the mortality amongst infants and young children.

Five thousand six hundred and twenty-one emigrants re-embarked from the Colonies for India during the year, bringing Return emigrants. with them savings amounting to six and a quarter

aggregate mortality\* on the voyages was 77, giving the not excessive percentage of 1.19 on the whole

lakhs of rupees, an average of Rs 111-4-4 per head. As in former years, those returning from Trinidad and Domerara brought back most money, and The death-rate on the those returning from Mauritius had saved least. return voyages was below 2 per cent. on all the voyages, except those of the *Mount Tabor* and *Mairi Bhan*. The emigrants who returned in the *Mount Tabor* had embarked from Guadaloupe in the *Jorawar*, which was dismasted by a violent gale whilst rounding the Cape of Good Hope, and at Port Elizabeth they were transferred to the *Mount Tabor*. The excessive mortality of 9 per cent. on this voyage appears to have been due to the

severity of the passage, which lasted five-and-a-half months, and to the feeble health of some of the passengers. The voyage of the Mairi Bhan from Trinidad, which lasted six-and-a half months, was also a trying voyage on account of the insubordination of the crew and the defective state of the water condenser; the mortality of this ship was 5.8 per cent., chiefly among invalids.

The work of the Protector in the tracing of heirs to vacant estates of emigrants who had died in the Colonies or on the return voyage continued to increase, 235 vacant estates, valued at Rs. 38,823, having come under his administration during the year.

The Lieutenant-Governor's acknowledgments are due to Dr. Grant for his

efficient discharge of his duties.

By order of the Lieutenant-Governor of Bengal,

W. C. MACPHERSON,

Offg. Secretary to the Govt. of Bengal.

### RETURNS OF JOINT-STOCK COMPANIES FOR THE YEAR 1886-67.

Explanation. Indicates that no rain has taken. If the return for any day has not been received, the corresponding space is left blank. If any of the return are wanting, the corresponding spaces in the total rainfall coordina are left blank.

SUMMARY OF THE RAINFALL AND METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE WEEK ENDING FRIDAY, THE 19TH OF AUGUST 1887.

It was mentioned in the report for the previous week, that at its close both branches of the monsoon blowing over Bengal had become most decidedly weaker, and at the commencement of the present week, and throughout the greater part of it, similar conditions have obtained. During this period, however, a feeble cyclonic storm has formed in the Bay, which only crossed the west coast south of Gopalpore on the 19th. This storm has naturally formed the most prominent feature in the meteorology of the week, and during its formation and advance towards the west coast, the monsoon winds have been mainly deflected towards it, and thus for the greater part of the week the rain falling in Bengal has been both local and scanty, and a distinct break in the rain has been established for the whole of the week.

On Saturday, the 13th, the conditions over Bengal and the sea area to the south of it

were those of an ordinary very light monsoon, except that pressure was decidedly low along the coast of Madras from Copulpore to Masulipatam. Winds also were rather more strongly casterly along the west coast than is usual. Conditions remained almost anchanged for the following two days at the stations in the northern half of the Bay and in Bengal, but the strength of the monsoon blowing in the south of the Bay began to increase very considerably. On Thesday, the 16th, winds became north-easterly at many stations in Bengal, and also along the Orissa coast and at Akyab, while to the south winds were westerly. It was therefore clearly evident on this day that a distinct depression had formed in the centre of the Bay. On the 17th the centre of the feeble storm was off the South Orissa coast, but it had not strengthened to any material extent, though there was a distinct eyelonic circulation of winds accompanying it. On the 18th it had approached rather nearer the land, but it still remained a feeble storm, and on the morning of the 19th it was crossing the South Orissa coast, and the centre of the storm on this day was a little distance inland. The storm afterwards drifted into the Central Provinces, where, after a day or two, it filled up. It was a remarkably persistent storm, though the barometric depression at its centre was feeble, and though the winds in connection with it were comparatively light; but at sea it gave rise to somewhat squally weather and rough sea. In the rear of the storm also a strong monsoon was blowing, and it was only after the feeble storm had advanced inland, that it became possible for the monsoon winds to again flew over liengal. It will thus be seen that the conditions during the present week have been decidedly unfavourable for rainfall. It is in fact only along the line of the hills at the stations in North Behar and North Bengal that maything like general rain has occurred during the week, but in these districts, for the first two or the days, general and rather heavy rain was rec

Pressure.—The changes of pressure during the week have not been very important. On the 13th pressure tell generally. This fall continued on the 14th, but on the 15th it was confined to the southern and western districts only. This local fall continued on the 16th and 17th, but on the 18th the fall again became general, and on the 19th again the fall was confined to the south-western stations, while over the remainder of the province pressure was rising. These changes were of course clearly connected with the development of the depression above described. Pressure at the close of the previous week was rather largely above the normal, and the effect of these changes has been to somewhat reduce this excess, particularly in the districts most affected by the formation of the depression. Thus the mean pressure for the whole week has been only 0.019" in excess of the normal at Gopalpur and 0.025" in excess at False Point, while at Purocah the excess has been 0.114" and at Dacca 0.072". The mean pressure for the week in Assam has also been above the normal, the excess averaging 0.043".

Temperature.—Owing to the comparative absence of rainfall, the temperature of the province has risen considerably, and the general average temperature has been decidedly above the normal. The only districts in which the mean temperatures for the week have been below the normal are North and South Behar, but in neither case does the defect equal one degree. In North Bougal the excess above the normal temperature has been small and is only 0.8°, but in Orissa, South-West Bongal and Chutia Nagpur, the excess has varied from 1° to 2°, and in East Bengal the excess has equalled no less than 2.6°. For the whole province the mean temperature for the week has been 0.9° in excess of the normal. In Assam, also, temperature has been almost steadily above the normal, and the excess has averaged 0.8°.

Rainfall—Has been light and local in all districts except North Behar and North

Bengal, but the only district in which the fall has been at all heavy is North Behar. In this district an average full of 3.50 inches has been received, which is no less than 1.32 inches in excess of the normal fall for the period. North Bengal has received the next largest fall, but in this district the average fall has only been 1.80 inches, which is 1.33 inches in defect of the normal. In Orissa the fall has averaged 1.30 inches, or 1.63 inches less than the normal. In all other districts the average amounts received

or 1.63 inches less than the normal. In all other districts the average amounts received have been less than one inch, and in most cases the defects vary between two and three inches. The smallest average fall in any district is 0.22 inch in Chutia Nagpur, and this is only about one-fifteenth of the usual fall for the week. Compared with the normal fall, and expressed as a percentage of that amount, the actual average falls in the seven

meteorological districts during the past week are.—Orissa 44 per cent., South West Bengal 19 per cent., East Bengal 17 per cent., North Bengal 57 per cent. North Behar 160 per cent., South Behar 30 per cent., and Chutia Nagpur 7 per cent. If each of these districts be considered to have an equal value in the calculation, the general average rainfall of the province for the week has only equalled 48 per cent. of the normal. Some districts in fact have scarcely received any rain at all during the week, and thus the following districts have received average falls of less than a fifth of an inch:—Burdwan, Pubua, Mymensingh, Sonthal Pergunnals, Hazarsbagh Chychassa.

In Assam the following amounts of rain have been received during the week :- Dhubri

1.18 inches, Sihsager 0.81 inch and Silchar 0.78 inch.

The tollowing table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Friday, the 19th of August 1887:—

#### MEMORANDUM.

THE mortuary statistics of the districts of Bengal for the month of May 1887 present

the following rosults:—
1. That the deaths of 140,829 persons were registered among a population of 66,163,884, representing an annual casualty-rate of 25.44 per 1,000 against 22.80 per 1,000 in the preceding month, and 18.24 per 1,000 in the corresponding month of 1886, indicating, as compared with both the periods (ospecially with the latter), a considerable increase in the registration of deaths.

2. That the following districts returned the highest proportions of deaths:—

Districts.				Districts.

3. That the total mortality of the month, distributed under the following specific heads of disease, stood as follows:—

					Ratio per m	ille during—
					May 1887.	May 1886.
Cholera	•••	•••	•••	•••	5.88	1.68
Small-pox		•••	•••	•••	*i#	.13
Fever	•••	•••	•••	•••	15:36	12.96
Bowel-complaints	***	•••	•••	•••	.87	.72
Injury	•••	•••	•••	•••	•:36	<b>·3</b> 6
Other causes	•••	•••	•••	•••	2.61	2.16

indicating chiefly, in comparison with the mortality of the corresponding mouth of the preceding year, a considerable increase in the death-rates from cholera and fever, particularly from the former.

4. That while the following districts exhibited exceptional high mortality from cholera and fever, the rest did not display any noticeable severity from the other diseases mentioned in the foregoing table, excepting Puri, where 12.96 per 1,000 of the population died from the maladies coming under the head of "Other causes":—

(	Cholera.				Fever.		
			Ratio per mille.				Ratio per mulle.

OFFICE OF SANITARY COMMISSIONER FOR BENGAL,

THE birth and death returns from the principal Municipalities in Bengal afford the following results for the week ending 6th August 1887:—

1. That births were registered at the rate of 16.7 per 1,000 of population, and deaths at 28.4 per 1.000 as opposed to 21.9 and 39.1 per 1,000, respectively, during the preceding week ending 30th July, indicating a considerable falling off in the registration of both the events.

2. That the highest proportions of births and deaths were returned from the following Municipalities:—

	B	irths.				Dec	ths.		
				Ratio per mille.					Ratio per mille.
Comillah		•••	•••	38.5	Arrah	•••	•••		81.4
Arrah	•••	***	•••	33.5	Gya Puri	•••	•••	•••	690
				ì	Puri	***	•••	•••	62.8
				1	Beauleah	•••	•••	•••	39 4
				1	Serampore	•••	•••		39.3
				ì	Suburbs of Ca	alcutta	•••		35.4
				ì	Patna	•••	•••		34:4
				i	Ranaghat	•••	•••	111	29.9

3. That, in comparison with the results of the preceding week, there was a considerable reduction in the death-rates from cholera, fever, bowel-complaints, and the unspecified diseases coming under the head of "Other causes," and only fractional diminution of mortality from injury, small-pox presenting no variation:—

					Katto per mene during	the weeks ending-
					6th August 1887.	30th July 1887.
Cholera		•••	***	•••	6.0	8.0
Small-pox	•••	•••	•••	•••	.1	11.0
Fever	•••	•••	•••	•••	10.2	14:2
Bowel-complaints	•••	•••	•••	•••	3.6	5·1 •7
Injury	•••	•••	•••	•••	·6	11.0
Other causes	***	•••	•••	•••	7.9	110

4. That the following Municipalities suffered pre-eminently from cholera, fever and the maladies grouped under the head of "Other causes," the rest of the diseases above named manifesting no noticeable severity:—

0	holera.		Fever.			Other	Causes.	
C	noiera.	Ratio per mille.			Ratio per mille.		B	atio per mille.
Arrah Puri Gya Patna Chupra Suburbs o	   f Calcutta	ચ લ ી	Beaulcah Ranaghat	•••	31·5 29·9	Scrampore Gya Arralı Puri Suburbs of	Calcutta	19.6 19.0 16.8 12.6 11.6

That the death-rates in relation to Sex, Class and Age, stood as follows:-

According to Sex.		Accordin	g to Class.		Ac	cordin	g to Age	3.	
Males  Yemales Ratio of male deaths to every 100 female deaths	Ratio per mille. 29:7 26:9 125	Christians Hindus Mahomedans	•••	30.5	5 ,, 10 ,, 15 ,, 20 ,, 30 ,, 40 ,,	nider ,, 10 ,, 1 ,, 2 ,, 3 ,, 4 ,, 5 ,, 6	5 ,, () ,, () ,, () ,, () ,,		62·6 16·3 14·5 24·0 19·8 12·1 21·7

#### [First Publication.]

NOTIFICATION. The 30th August 1887.—The following Notice to Mariners is published for general information.

> COLMAN MACAULAY, Secretary to the Govt, of Bengal.

GOVERNMENT OF BENGAL, FINANCIAL DEPARTMENT.

NOTICE TO MARINERS-(No. 52).

EASTERN ARCHIPELAGO.

SINGAPORE STRAITS.

Intended discontinuance of the Horsburgh light.

THE following information has been received from Commander Alfred Carpenter, R. W., in charge of the Marine Survey of India:

The Rear Admiral Commanding the Naval Forces in Netherland India has given notice, dated Batavia, 14th July, that, according to Notice to Mariners, Singaporc, 29th June 1887, after the 5th August next, the revolving light on the Horsburgh lighthouse will be discontinued during alterations.

Until the new light is exhibited, the light-ship Formosa will be moored on the North-

East end of the reef, one cable's length from the base of the light-tower.

The light-ship will exhibit a bright revolving light in all respects similar to the Hors-

burgh light, but visible at a distance of only 10 miles.

In addition, there will be two bright lights shown from the balcony of the light-house tower, N. and S., at an elevation of 85 feet and visible about 15 miles.

By direction of the Government of Bengal,

ARTHUR W. STIFFE, Captain, 1.M., Port Officer of Calcutta.

## [Second Publication.]

#### NOTIFICATION.

The 23rd August 1887.—The following Notice to Mariners is published for general information.

> COLMAN MACAULAY, Secretary to the Gort. of Bengal.

## GOVERNMENT OF BENGAL, FINANCIAL DEPARTMENT.

## NOTICE TO MARINERS—(No. 51).

#### RED SEA.

## (1). Reported sunken rocks Northward of Jebel Zukur island.

WITH reference to Notice to Mariners No. 47, of 22nd July 1887, on the reported sunken rocks northward of Jebel Zukur island, the Admiralty has notified that a close examination has been made on two occasions by H. M. S. Griffon of the area in which the dangers reported by the steam-vessels Avocet and Teddington are said to lie, without the discovery of any sign of shoaling of the water.

Pending the report of the inquiry into the loss of the latter vessel, and the receipt of evidence as to her position, no further search will be made, but vessels are warned to pass to the westward of a line joining Centre Peak island, Zebayir islands, and High island, Jebel Znkur.

> Dahalak Bank-Position of wreck Northward of Seghalah island. (2).

Informacion has been received from Commander Hon'ble H. Lambton, H. M. S. Dolphin, through the Admiralty, that the steam-vessel Graville lies stranded about two miles northward of Seghalah island, Dahalak Bank.

The vessel, the most and funnel of which were still standing, lies in a depth of three fathoms, with the following bearings and distance:-

North-cast point of Seghalah island S.S.E., distant nearly two miles. South-west point of Bilhah island N.W. by W.1 W.

Position.-Latitude 15° 47′ 15" N.; longitude 40° 44′ 0" E. Note. - It does not appear likely that the Graville will break up for some time. The bearings are Magnetic. Variation 4° westerly in 1887.

By direction of the Government of Bongal,

ARTHUR W. STIFFE, Captain, I.M., Port Officer of Calcutta.

PORT OFFICE, Calcutta, the 19th August 1887.

#### JUDICIAL DEPARTMENT.

#### No. 4024A.

Cosserat, Deputy Magistrate and Deputy Collector, Sungoo, Chittagong Hill Tracts, is also vested with the powers of a Magistrate of the first class, and with the power to try summarily the offences mentioned in section 260 of the Code of Criminal Procedure, to be exercised in the district of Chittagong.

The 27th August 1887 .- Mr. II. H. Heard, Temporary Deputy Magistrate and Deputy Collector, Monghyr, is vested with the powers of a Magistrate of the first class, and with.

powers under section 110 of the Code of Criminal Procedure. Baboo Shama Churn Mitter, Deputy Magistrate and Deputy Collector, Monghyr, is

vested with powers under section 110 of the Code of Criminal Procedure.

Baboo Troyluckho Nath Sen, Deputy Magistrate and Deputy Collector, Jessore, is vested with the power to try summarily the offences mentioned in section 260 of the Code of Criminal Procedure.

The 29th August 1887 .- Baboo Bhola Nath Dutt is appointed to be an Honorary Magistrate for the Bench at Begooserai, in the district of Monghyr, and is vested with the powers of a Magistrate of the third class.

Baboo Hurbans Narain is appointed to be an Honorary Magistrate for the Jamui Bench, in the district of Monghyr, and is vested with the powers of a Magistrate of the

third class.

Baboo Hari Narain Banerjee, Sub-Deputy Collector, Jehanabad, Hooghly, is vested with the powers of a Magistrate of the third class.

Baboo Nogendra Nath Pal Chaudhuri, Deputy Magistrate and Deputy Collector, Rajshahye, is vested with powers under section 110 of the Code of Criminal Procedure.

The Lieutenant-Governor accepts the resignation tendered by Bahoo Kashi Kishore Roy Choudhuri of his appointment as an Honorary Magistrate of Ramgopalpore, in the district of Mymensingh.

GRANT OF LEAVE TO MUNSIF.—The 22nd August 1887.—Baboo Gopal Krishna Ghosh, Munsif of Jajpore, in the district of Cuttack, is allowed leave for 29 days, under section 128, chapter X of the Civil Leave Code, in extension of the leave granted to him on the 17th May last.

> J. WARE EDGAR. Offg. Chief Secy. to the Govt. of Bengal.

#### NOTIFICATION.

The 29th August 1887.—Under section 3, Act I (B.C.) of 1876 (an Act to provide for the voluntary registration of Mahomedan marriages and divorces), the Lieutenant-Governor has been pleased to grant a license to Moulavi Zahural Haq, authorizing him, as a temporary measure, to register Mahomedan marriages and divorces and to exercise the other functions of a Mahomedan Registrar within the police-stations of Dacca and Lalbagh, in the district of Dacca.

Under section 2, Act XII of 1880 (an Act for the appointment of persons as Qazis), the Lieutenant-Governor has also been pleased to grant a saund (license) to Moulavi Zahnral Haq, appointing him, as a temporary measure, Qazi of police-stations Dacca and Lalbagh for the celebration of marriages and the performance of other rites and cere-

monies, when application is made to him to periorm any such functions.

J. WARE EDGAR. Offg. Chief Secy. to the Govt. of Bengal.

### NOTIFICATION.

The 29th August 1887.—It is hereby notified that the Lieutenant-Governor authorizes the extension of the provisions of section 34 of Act V of 1861 to the town of Patuakhali, in the district of Backergunge, within the boundaries specified below:-

On the North.-The Patuakhali river.

On the East.—The Patuakhali river, and the Joinkati road up to the banian tree on the south-cast of the Patnakhali tank.

On the South.—Commencing from the said banian tree on the east, the paddy field on the south of the Patuakhali khal up to the wooden bridge on the said khal near the Kalikapur village road.

On the West .- From the said bridge to the wooden bridge on the Sutarkhali khal.

J. WARE EDGAR, Offg. Chief Secy. to the Govt. of Bengal.

#### NOTIFICATION.

The 30th August 1887.—It is hereby notified that the Lieutenant-Governor is pleased to sanction the establishment of a new outpost at Kaliakoir subordinate to the police-station at Sabhar, in the district of Dacca.

J. WARE EDGAR, Offg. Chief Secy to the Govt. of Bengal.

# PUBLIO WORKS DEPARTMENT,-BENGAL.

#### ESTABLISHMENT-RAILWAY.

### NOTIFICATION.

In accordance with the Government of Bengal Notification of the 23rd July 1887. notice is hereby given, to those whom it may concern, that the next half-yearly examination of Compounders will be held at 11 A.M. on Wednesday, the 12th October 1887, and subsequent days, at the Campbell Medical School.

Every candidate must produce one of the following certificates :-

From the Superintendent of a Vernaemar Medical School that he has

attended regularly for one year the compounder class of the school.

From the legally-qualified medical manager of a chemist's and druggist's establishment recognised by the Inspector-General of Civil Hospitals, Bengal, that he has been apprenticed for a period of three years in his establishment.

(c) From a Civil Surgeon that he has assisted in the dispensing of drugs at the Sudder dispensary of a civil station for a period of five years.

Applicants must register their names and submit their certificates, together with a fee of Rs. 3, at least one week before the 12th October 1887, at the office of the undersigned.

Note.—The students belonging to the compounder class of a Vernacular Medical School will be exempted from paying this fee on producing a certificate from the Superintendent that they have already paid the school entrance fee.

4. Should any candidate fail to pass the required examination, he will forfeit his fee.

N. B -The attention of candidates is drawn to Rule 5, section (b) of the Government notification of the 23rd July 1887, from which they will observe that the chemists' and druggists' establishments from the legally-qualified medical managers of which they obtain their certificates will have to be recognised by the Inspector-General of Civil Hospitals, Bengal, prior to the candidates applying to the Superintendent to register their names to appear at the examination.

> S. C. MACKENZIE, M.D. Superintendent, Campbell Medical School.

Khoolna Collectorate, the 25th July 1887.

W. CLAY, Collector.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate in the district of Nuddea will be put up to sale at the Nuddea Collectorate on Wednesday, the 14th September 1887, corresponding with 29th of Bhadra 1294 B.S.

The purchasers will be subject to the following conditions of sale: —

Conditions of sale.

lst—The estate to be sold to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him subject to the revenue fixed in perpetuity.

2nd The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd—If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid down at once.

4th—If the amount of purchase money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by mon of the fifteenth day after the sale, reckoning the day of sale as once or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government) and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale. purchaser, after issue of advertisement as in the case of original sale. the same of the sa

NOTICE is hereby given, under sections 6 and 13. Act XI of 1850, that the undermentioned estates, or shares of estates, in the district of Sarun, will be put up for sale at the Collector's office of that district on 13th September 1837, corresponding with 12th Asin (Tucsday). 1295F., for arrears of revenue and other demands due on 2th June 1887, which, by the Regulations and Acts in force, are directed to be realised in the same manner as arrears of revenue.

When in advance 5.7 and 6.5.1.

When in columns 5, 7, and 9 of the appended statement it is stated that only a share is to be sold, a separate account is kept for such share, and the other share or shares in the estate are excluded from the sale.

# RESOLUTION ON PROGRESS REPORT OF FOREST ADMINISTRATION IN BENGAL FOR 1886-87.

REVENUE DEPARTMENT-FORESTS.

Calcutta, the 26th August 1887.

RESOLUTION.

#### Read—

The Progress Report of Forest Administration in Bengal for 1886-87.

The Report, which was due on the 1st, was received in the Sceretariat on the 4th instant. The Annual Report has not in any recent year been submitted on so early a date, and the Conservator deserves commendation for his efforts to attain punctuality. Mr. Home was in charge of the Department throughout the year, except from the 9th June to 20th August 1886, when siekness obliged him to take privilege leave, and Mr. Chester officiated as Conservator.

2. The forests in the Lower Provinces under the control of the Department at the end of the year under review covered a total area of 7,317,594 acres, or 11,434 square

miles, classified	as	follows	:
-------------------	----	---------	---

′							Area in acres.
	Reserved		•••	•••	•••		3,191,225
	Protected		•••	•••		•••	1,404,923
	Unclassed	•••	•••	•••	****	•••	2,581,420
			•		Total	***	7,177,568
	Proposed re	sorvos n	ot yet finally	gazetted	•••	•••	140,026
					Total	•••	7,317,594

# SUPPLEMENT TO THE CALOUTTA GAZETTE, AUGUST 31, 1887.

There was an increase of 9,157 acres in the area of reserves by addition of the Dondimal and Khorda ranges in Orissa, which were taken out of the class of Protected Forests, and the area of forests of the latter class was further diminished by transfer of 5,765 acres in the Sunderbans and Khorda to the Revenue officers for settlement. The area of unclassed forests includes only the forests in Chittagong shown in former reports under the name of District The forests gazetted as proposed reserves, but not yet finally notified under section 19 of the Forest Act, are, for the most part, in Chota Nagpore. The forests last referred to were notified as proposed reserves as long ago as 1880 and 1882; but on account of difficulties which have arisen in determining the rights of the villagers who dwell on the borders of the proposed reserves local enquiries are still going on. In the case of the Porahat Forests there was unnecessary delay in the proceedings of the Forest Settlement Officer first appointed; and in proceedings relating to the Khurchuta forests, the Lieutenant-Governor was unable to accept the views of the Conservator as to the sufficiency of the investigation which had been made of the rights of The record for the reserved forests of the length of boundaries and

the cultivators. number of boundary marks, as corrected during Demarcation and surveys. the year (but stated to be not yet accurate), shows a total length of 3,531 miles, of which 2,072 miles are demarcated with 27,842 posts or pillars, and the remaining 1,459 miles are natural boundaries which it is not necessary to demarcate. Seventy-seven miles of boundaries were newly demarcated during the year, 1,236 miles were re-cleared, and 628 more miles were kept clear as fire traces. The average cost per mile of the new demarcation was Rs. 8-2 and of the re-clearing Rs 5-12, in both cases less than the cost of the preceding year. Under the head of Survey, the most important operations of the year were those carried on in Singbhoom by the Forest Survey party, who surveyed 431 miles of forests, which it is proposed to reserve. In Angul the demarcation of the reserves bordering on Native States was begun by the Revenue Survey party. A special Working Plans Division was created in April 1886, and was

placed in charge of Mr. Chester, Deputy Conservator Working plans.

Working plans.

of Forests, who, however, had also other charges including the charge of the Darjeeling Division throughout the year, and was therefore only able to give a portion of his time to the Working plans. The new division was able to complete a plan for the Bamanpokri Forest in the Kurseong sub-division, which has been approved by the Inspector-General of Forests and by Government, and to take in hand the plan for working the forests in the Darjeeling sub-division, from which the stations of Darjeeling and Jalapahar and the adjacent tea gardens are supplied with timber, fuel and fodder. The work done by Messrs. Chester and French and by Messrs. James and Wittenbaker in preparation of these plans is favourably noticed by the The Lieutenant-Governor much regrets that on account of the present paucity of officers of the controlling staff (of whom three are at present absent on leave), it has been necessary to close the Working Plans Division for a time, and he hopes that, when the staff is again at its full strength, the useful work done under this head will be resumed with energy.

A separation of the Bengal Controlling Staff from that of Assam was sanctioned by the Government of India in Septem-Establishments. ber last. The controlling staff now sanctioned for Bengal consists of one Conser-

vator, seven Deputy Conservators, and five Assistant Conservators. Bengal has now, besides the Conservator, nine Deputy Conservators and two Assistant Conservators. The staff was therefore one officer short of its sanctioned strength during the year. The Lieutenant-Governor has been informed by the Government of India that one of the officers newly appointed to the Indian Forest Service, who will arrive in India next cold weather, will be appointed to these Provinces. The Executive staff of Sub-Assistant Conservators and Forest Rangers had seven officers of the former and 23 of the latter rank at the close of the year, and the Protectivo staff, which consists of Foresters and forest peons, had 83 of the former and 308 of the latter. From the statement given on page 8 of Mr. Home's report, it appears that a Forest Ranger in the Lower Provinces has on an average 497 square miles, a Forester

137 square mile, and a forest peon 37 square miles of forest to supervise.

Prosecutions were instituted during the year against three ferest guards for misappropriation. One of these was convicted and one acquitted; the third case was pending at the end of the year, and the result has not been shown. Three forest peons, who were dismissed from Government service by the Divisional Officer of Chittagong in connection with a charge of extortion, were reinstated under the orders of the Lieutenaut-Governor. On the whole, prosecutions and dismissals of subordinate employés were less numerous than in the two preceding years. The Conservator repeats in this report remarks which he has made in former reports with regard to the distaste generally felt by educated natives of the Lower Provinces for employment in the lower grades of the Forest service.

6. Eight hundred and thirty-nine new cases of breaches of the forest law and offences under the Penal Code were taken into

Breaches of forest law.

Court during the year, against 624 cases instituted in the preceding year. The Conservator has not commented on this increase which requires explanation. From Statement No. 50 appended to the report, it appears that the increase was chiefly in the Sundurbuns division. The number of cases decided by the Courts, including cases pending from the previous year,

was 920, of which 821, or 89.2 per cent., resulted in convictions. Besides these cases, 882 cases were compounded out of Court. The Lieutenant-Governor requests that some particulars may be given in future reports of the cases taken into Court and compounded which are returned under the head "Other offences." More than half the cases disposed of by the Courts during the year have been returned under this head without any details.

7. The area of reserved forest which the Department attempted to pro-

Forest fires. tect from fire during the year was 1,007,283 acres, or not quite one-third of the whole area of the

reserves. The remaining area, except the forests of the Singbhoom Division, is not liable to fires. The result of the measures adopted for protection was more satisfactory than in any previous year, 897,372 acres, or 80.9 per cent. of the area in which special measures were taken, having escaped. To the 109,911 acres burned, though specially guarded, have to be added 236,220 acres and 2,040 acres hurned in improtected forests in Singbhoom and Binxa, respectively, making a total of 348.171 acres burned. The noticeable features in this part of the report are the measures of success which were attained in Singbhoom and in Angul as compared with the results of former years and the failure in the Jalpaiguri Division. In the lastnamed division, where 19,511 acres were burned, the failure was due, in the Conservator's opinion, chiefly to neglect in inspection and posting of fire guards. The special difficulties which have to be encountered in attempting protection of the Singbhoom and Angul forests were mentioned in last year's Resolution. The total amount expended in fire protection was Rs. 14,378 only, a smaller sum than was spent in the two preceding years in protecting smaller areas, and it appears to the Lieutenant-Governor that a less stinted expenditure under this head is called for.

8. The revenue realised from grazing and the sale of fodder was Rs. 6,680, half of which was raised in the Darjeeling sub-division. The Conservator's proposals for restricting sheep-grazing in the Singalila Range in this sub-division, to which reference is made in paragraph 66 of the report, are now before the Lieute-

reference is made in paragraph 66 of the report, are now before the Lieutenant-Governor, and it is only necessary here to remark that the question cannot be decided with reference to considerations of forest conservancy only.

9. The area of regular plantations was increased during the year by

9. The area of regular plantations was increased during the year by
270 acres, and the area of cultural operations
(which include nurseries and the planting of blank

spaces in the forests) by 19 acres. The cost of these additions, which were made chiefly in Darjeeling, Chittagong, and Khoorda, and the up-keep of plantations already existing, was Rs. 7,460. The total area of plantations of all kinds, including oak, tûn, sâl, teak, bamboos, &c., is now 3,410 acres. Cutting of creepers was actively carried on in Buxa and Kurseong, but comparatively little was done in other divisions.

10. Twenty-three miles of export roads and nearly 14 miles of inspection

Communications and buildings. paths were opened during the year, and 420 miles of existing export roads and inspection paths were repaired at a total cost of Rs. 6,468. Most work was done under this head in the Chota Nagpore and Darjeeling Divisions. The total expenditure on

buildings was Rs. 14,998.

The total amount of timber and fuel removed from the forests 11. during the year is compared with the yield of the and yield of the Working preceding year in the following statement :-

			By departmental agency.		l'ermit-holders.		Free grants.		Total.	
			1886-87.	1885-86.	1886-87.	1885-86,*	1850-87.	1885-86.	1886-87.	1895-86.

GRAND TOTAL OF	LL FORES	TS	430,343	247,663	24,041,340	25,097,498	13,410	9,591	24,485,093	35,344,60

<sup>\*</sup> The figures of the report for 1885-86 have been corrected.

More forest produce was removed by departmental agency than in the preceding year, the increase being due chiefly to indents received for the Northern Bengal State Railway, and to larger demands of the military authorities for fuel in the Darjeeling Division. With reference to the remarks made by Mr. Home in paragraph 109 of his report regarding the transactions of his Department with the Railway authorities, it is to be noticed that the Lieutenant-Governor has already expressed his desire that the Forest and Public Works Departments should come to an understanding for the delivery and purchase of sleepers in which the pecuniary effect to Government of the transactions as a whole rather than departmental profit should be kept in view.

The removals of timber by permit-holders increased by 453,181 cubic feet, but there was a large falling off of 1,499,249 cubic feet in the exports of These fluctuations occurred chiefly in the Sunderbuns fuel under permits. Division, where there was a more brisk demand for timber for the Calcutta market, but a greatly decreased demand for permits to remove fuel, the decrease being apparently connected with the notification of last year, which raised the rates for sundri firewood. The number of bamboos removed from the forests by Government agency and by purchasers was 17,973,964 against 16,664,460 in the previous year, and minor forest produce was removed in all amounting to 52,01,317 maunds, a yield somewhat less than that of the previous year.

Financial results.

The financial results of the year compare as follows with those of the two preceding years:-

•		Receipts.		Charges.	Surplus.	Proportion of surplus to gross
		Rs.	•	$\mathbf{R}\mathbf{s}$ .	$\mathbf{R}\mathbf{s}.$	revenue.
1884-85	•••	5,71,152		4.11,915	1,59.237	28
1885.86	• • •	5,97,432		3,70.399	2,27,633	38
1886-87		6.53.634		4 99 781	2 20 252	35.3

The gross revenue of the year is considerably larger than that of the last two years, and there has been a small increase in the surplus. The increase in expenditure was caused chiefly by a charge of Rs. 33,282 on account of the construction of a second steamer for the Sunderbuns Division, and by increased charges for carriage of railway sleepers. On the whole these results are satisfactory.

The Conservator's remarks on the conduct of officers will be noted in the Appointment Department. Mr. Home has again earned the Lieutenant-

Governor's thanks for his efficient administration of his Department,

By order of the Lieutenant-Governor of Bengal,

W. C. MACPHERSON,

# REPORT ON THE STATE OF THE SALT MARKET FOR THE FIRST QUARTER OF 1887-88.

No. 640B, dated Calcutta, the 17th August 1887.

From—K. G. Gupta, Esq., Offg. Secretary to the Board of Revenue, L. P., To—The Secretary to the Government of Bengal, Financial Department.

- I AM directed to submit the following report on the state of the salt market for the first quarter of 1887-88, comprising the months of April, May, and June 1887.
- 2. The quantity of salt of every description cleared during the quarter under report amounted to 25,84,676 maunds 8 seers 12 chittacks, against 26,06,814 maunds 38 seers 7 chittacks in the previous quarter, and 24,77,614 maunds 16 seers 14 chittacks in the corresponding quarter of the previous year; and the net amount of duty levied thereon was Rs. 49,02,270, against Rs. 48,91,893-8 in the previous quarter, and Rs. 47,09,713-8 in the corresponding quarter of the previous year.
- 3. The quantity of excise salt sold in the districts of Cuttack, Pooree, and Balasore during the quarter under review from the stock of the different seasons' manufacture, and the quantities which remained in store at the close of the quarter, are shown in Table I:—

<sup>\*</sup> The difference between these dignres and the corresponding figures in the statement submitted with the report for the previous quarter is due to revised figures since a seriord from the collectors.

† Inclusive of 3,157 manuals of connected saft said.

4. The above statement shows that the total sale of excise salt during the quarter under review amounted to 54,509 maunds 10 seers, against 52,848 maunds 30 seers in the previous quarter, and 1,06,079 maunds 4 seers in the corresponding quarter of the previous year.

5. The subjoined Table II shows in comparison the importations into the port of Calcutta and the total clearances of sea-imported salt during the quarter under review and the corresponding quarters of the previous two

years :-

Reptonation.—Summary.—The noticed means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the past. The handeldy of the atmosphere se approach as percentage, estimated air being represented up 100. A clear say as denoted by 0 and as overcast say by 10. The non-the numerical means or average of the rainfull in that dustrict determined from the returns sent in by the succitivened lastion for the period in question during one past on in the district sending in returns divided by the number of stations. A range day is one on whole at least hundredte of an inch tell.

Explanation. - Indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the rearrementing, the corresponding spaces in the total rainfall columns are left blank.

Comment 45 2011 August 191

# SUMMARY OF THE RAINFALL AND METEOROLOGICAL OBSERVATIONS

TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE WEEK ENDING FRIDAY, THE 26TH OF AUGUST 1887.

The most prominent feature in the meteorology of week ending the 19th of August had been the formation of a feeble cyclonic storm in the northern half of the Bay, which had been remarkably persistent for some days, but which, on the morning of the 19th, was crossing the west coast of the Bay, the centre passing a little to the south of Gopalpore. On the morning of the 20th, it had practically entirely passed inland towards the Central Provinces, where it subsequently filled up. With the advance of the feeble depression inland, it then became possible for the monsoon winds to again flow over Bengal, and rain became pretty general in Orissa, South-West Bengal, and East Bengal on the 20th, but the general rainfall only reached North Bengal and the greater part of Behar and Chutia Nagpur on the 22nd. Thus, at the commoncement of the week, the conditions over the Province were fairly normal, and up till its close the principal changes have been in the alternate strengthening and falling off in the two branches of the monsoon current. Up till the 24th the whole Province was principally influenced by the current blowing from the Bay of Bengal, but this, considered as a rain-bearing current, was somewhat weak. On the 24th, however, winds, which had been previously strongly casterly and south-easterly, became more southerly, and it was evident that the Bengal current was commencing to be driven back by the Bombay current. On the 5th the winds blowing over Bengal had become strongly westerly and south-westerly at all stations except those in the extreme east and north of the Province, and on this day the rain-bearing current from the Bay of Bengal was strongly deflected towards the cast coast of the Bay; and with the commencement of these westerly winds rainfall almost ceased over the greater part of the Province, except in North Bengal. Owing, however, to the interaction between the two wind currents, on the 26th there was a distinct eyelonic circulation of a feeble area of low pressure; but the depression and wind circ

It will therefore be seen that, for a considerable part of the week, conditions have been fairly favourable for rainfall over a large portion of the Province. The amounts received, however, generally have not been large, for the current blowing was, in the first place, weak, and it was subsequently strongly deflected towards the cast coast of the Bay. Except therefore in Orissa, which was subject to the actual passage of the depression above alluded to, the rainfall has generally been decidedly below the normal, though not quite so largely in defect as it was during the previous week.

Pressure.—The mean pressure during the previous week had been, to a great extent, influenced by the existence of the depression off the south coast of Orissa, and pressure was

slightly above the normal in the south-western districts, and rather largely above it elsewhere. With the passage of the depression westwards, pressure continued to fall for the first two or three days of the week, particularly in the western and south-western districts; but on the 23rd pressure rose rapidly in South-West Bengal, where in several instances the rise equation a tenth of an inch: while pressure fell in South Behar. Pressure generally rose on the 24th: the changes were variable on the 25th, while on the 26th pressure again fell over the whole Province, the fall being largest at the south-eastern, eastern, and southern stations. The tendency of the changes during the week has therefore been to make pressure far more nearly normal, though pressure on the average has still been comparatively low in the west and south-west of the Province. Thus, in South Bohar, Chutia Nagpur, Orissa, and South-West Bengal, the mean pressure for the week has been slightly, though distinctly, below the normal, while elsewhere it has been slightly above the normal. For the whole Province of Bengal, therefore, the mean pressure has been very nearly normal. In Assam also the mean pressure for the week has been nearly normal, the variation at no station exceeding a few thousandths of an inch, while the average pressure for the whole of Assam is absolutely normal.

Temperature—The variations of temperature throughout the week have generally been small, and the average temperature in each district has been very nearly normal, and the variation from the normal in no case equals half a degree. For the whole of Bengal the mean temperature of the week has not varied from the normal by so much as a tenth of a degree. In Assam, on the other hand, the mean temperature for the week has been 0.3° in excess of the normal.

Rainfull.—The actual rainfall during the week has been heaviest in East Bengal, which has

received an average of three inches. In Orissa the fall has averaged rather more than two-and-a-half inches; in South-West Bengal, North Bengal and Chutia Nagpur it has averaged from one-and-a half inches to two inches, and in Behar it has averaged between one and one-and-a-half inches. Compared with the normal, and expressed as a percentage of that amount, Orissa has received 104 per cent.; South-West Bengal 58 per cent.; East Bongal 92 per cent.; North Bengal 54 per cent.; North Behar 58 per cent.; South Behar 38 per cent.; and Chutia Nagpur 53 per cent. Taking these districts as having an equal value in the calculation, the rainfall of the whole Province for the week may be said to have averaged 67

per cent. of the normal. The following districts have received exceptionally small falls throughout the week:—Maldah, Rungpore, Chumparun, Sarun, Shahabad, Gya, Patna, (which has averaged less than a tenth of an inch), and South Bhagulpore and Monghyr.

In the Nuddea district Kishnaghur appears for the greater part of this mouth to have been a centre of exceptionally light rainfall, and so far as the returns show, it would appear that this station has only received a fall of 2.76 inches since the commencement of the month, while the normal fall would be 10.43 inches. The remainder of the Nuddea district shows a fall much more nearly normal, and generally averaging from about three-fourths to a fall actually above the normal at Mcherpore. Sherpore, in the Bogra district, is also another station which has received very little rain since the 1st of the month.

In Assam, the following the are amounts which have been received during the week:-

At Sibsagar 5.82 inches, at Silchar 3.04 inches, and at Dhubri 0.29 inch.

The following table gives the summary of the temperature and rainfall data of each of the eight meteorological divisions of the province for the week ending Friday, the 26th of August 1857:—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the hermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the aides, and are suspended four feet

bove the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, merly at the Surveyor-General's Office. The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the

deteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph. The mouth of the rain-gauge is one foot above the ground.

o overcast, g gloomy, p passing temporary showers, t thunder, d drizzling rain.

A. PEDLER,

for Offg. Meteorological Reporter to the Govt. of India.

# Results of the Thermometrical Observations taken at the Meteorological Office, Ohowringhee; from 21st to 27th August 1887.

The total fall of rain from 21st to 27th August 1887 ... 3.46

The mean temperature and humidity are obtained by applying to the mean of the 10n, 16h, and minimum readings a correction dependent on the range, and derived from the hourly observations at the Snrveyor-General's Office, Chowringhee, in past years.

A. Pedler,

METROBOLOGICAL OFFICE, INDIA;

The 29th August 1887.

for Offg. Meseerological Reporter to the Goot, of India.

# MEMORANDUM.

THE mortuary returns from the districts in Bengal for June 1887 disclose-

1. That 112,612 deaths were registered, or at the rate of 20.40 per 1,000 of the population, amounting to 66,163,884, against 25.44 per 1,000 in the preceding month, and 15.96 per 1,000 in the corresponding month of the past year, indicating, as compared with the last-named period, a considerable improvement in the number of deaths recorded.

2. That the highest casualty-rates were returned from the following districts:-

Districts.		Districts.							
		Ratio per mille.							
Chumparun	•••	•••	45.12	Shahabad	•••	•••	34.80		
Gya Puri	• • •		40.68	Jalpaiguri	•••	•••	34.26		
	•••	***	38.16	Bhagulpore	•••		27.48		
Darjiling	•••	•••	36.60	Lohardugga	•••	•••	27.24		
Monghyr	•••	•••	<b>36</b> -60						

3. That referring to the incidence of the diseases specified below, it is seen that cholora prevailed with much greater severity during the month under notice than during the cerresponding month of the preceding year, but that the death-rates from the rest of the diseases, excepting that from injury which remained stationary, exhibited only fractional variations:—

·					Ratio per m	ille during-
				•	June 1887.	June 1886.
Cholera	•••	•••	•••	•••	3.84	-60
Small-pox	•••	•••	•••	,	•07	-08
Fever	•••	•••	•••	•••	12.60	11.76

MOBIALITY ACCORDING TO-

# MEMORANDUM.

From the annexed table, exhibiting the vital statistics of the principal Municipalities in Bengal, for the week ending 13th August 1887, it appears-

1. That the birth-rate in these Municipalities amounted to 16.7 per 1,000 of population against the same ratio in the preceding week ending 6th August, and the death-rate to 28.6 per 1,000 against very nearly the same proportion, viz., 28.4 per 1,000.

2. That births and deaths were reported to have been recorded at the highest rates

in the following Municipalities: -

	B	irths.				Dec	aths.		
				Ratio per mille.					Ratio per mille.
Comillah	•••	•••	•••	46.2	Arrah	•••	•••		89.7
<b>A</b> rralı	•••	•••	•••	39.2	Gya	•••	•••	•••	58.7
Durbhanga				32.3	l'uri	•••	•••		54.6
Gya	•••	•••	•••	29.4	lleanleah	***	•••	•••	89.4
					Scrampore	•••	•••		37:3
					Burdwan	•••	•••	•••	35.1
					Purneah	• • • • • • • • • • • • • • • • • • • •	•••	•••	34.6
					Suburbs of Co	Alcutta	***	•••	33.5
					Patna	• • •	•••	•••	31.1
					Comillah	•••	•••	***	30.8
					Bhagulpore		•••		<b>2</b> 9·9

3. That, as compared with the outcome of the preceding week, bowel-complaints alone exhibited noticeable enhancement of mortality, the fatal results from the other diseases exhibiting only fractional differences, and small-pox presenting no death; vide figures given below:-

					Ratio per mille during	the weeks ending-
					13th August 1887.	6th Aug-1st 1887.
Cholera	***	•••	***	•••	5.4	6.0
Small-pox	•••	•••	•••	•••		1
Fever	***	•••	•••	•••	10.4	10.3
Bowel-complaints	•••	•••	•••	•••	5.8	<b>3</b> *6
Injury	***	•••	•••	•••	.3	<u>'6</u>
Other causes	900	•••	•••	•••	7.0	7:9

4. That the following Municipalities appear to have suffered the most from the diseases specified in the above table (excepting small-pox, from which, as before stated, no death was reported to have occurred, and injury, the casualties from which were nowhere above normal) :-

Ch	ulera.	Fever.			Rowel-compl	aints.	Other	Causes.	
OII	Ratio per mile.	2 (0())	1	Ratio per mille.		Ratio per mille.			tio per m/le,
